

Awake now Hope at Easter!
 Carol ye birds! Fresh flowers spring!
 Let child-hearings swell the praise—
 Life's "Eventide" its anthems raise.
 Hope's promise looks to endless days;
 At Easteride awake and sing.

GROWING LILIES FROM SEEDS
 Federal Department of Agriculture
 Tells of Results of Experiments It Has Been Making.

In growing Easter lilies from seeds the time of planting depends upon how the florist intends to handle his stocks and possibly upon which his seed becomes available, says the Bureau of Plant Industry, United States Department of Agriculture, in discussing the results of experiments with growing the flowers from seed instead of from tubs. Sowing they say, can be done

Type of Perfect Lily.
 At any season if suitable moisture conditions for germination are maintained. In northern climates, if seed is planted out of doors, it should be sown in the autumn for spring germination. Until the trade produces seed of the lily and offers it for sale, it is pointed out, it will be necessary for the grower to raise his own seed. The best way to do this now is to procure imported bulbs either in the early winter, when they are generally offered for sale, or at Easter time, when most of the plants are in blossom, and grow seed for planting the following January.

EASTER MORNING

Just an early investigation. Evidently the Easter rabbit had been "on the job" early, greatly to the satisfaction of this small boy.

Mexico's Holy Week.

Mexico has her holy week, celebrated with pomp and splendor, and devotions and odd customs that still linger in the land of Montezuma. The people go from all points of the compass far and near, on their annual pilgrimage to Guadalupe, the holiest shrine of all Mexico, where they congregate in immense numbers. There the descendants of a nation sunk in paganism for centuries after the Crucifixion meet to celebrate the divine tragedy that was enacted in Syria 1900 years ago. The most solemn week of all the weeks of the year is Passion week in Mexico City. Images, icons and crucifixes are to be found everywhere. The most remarkable of the ceremonies is the blowing up of Judas. The betrayer is represented as a misshapen monster. Hundreds of his images are sold on Good Friday. They are filled with explosives which blow the doomed figures to atoms when let off on Saturday morning.

Spiritual Influences of Calvary.
 Let the world on this Easter, with all its materialism and all its worldliness, be compared with the world of the first Easter, and it must be recognized that from Calvary radiated spiritual influences whose very incomplete results so far encourage the most splendid visions of what humanity will become.

Seed of Kitchennette Squash Offered
 Limited quantities of the seed of the Kitchennette Hubbard squash have been placed with various Minnesota seed houses, in order that seed in large enough quantities to supply the possible demand may be grown for sale in 1923. The Kitchennette squash was developed by the section of vegetable gardening of the Horticultural Division of the U. S. Department of Agriculture because of the uniform small size which makes it especially desirable for

Paradichloride of benzene, a chemical in white crystal form, is recommended by G. Guggles, state entomologist and professor of economic entomology at the University of Minnesota, in lieu of moth balls for the trunk or clothes chest this summer. A small amount of the crystals in the trunk will destroy all insect pests that do not leave, he says. It may be secured from the larger drug stores. The chemical came into use during the war and has proved very popular.

PIERZ

ROBERT GRUBER SR. PASSES AWAY
 Another prominent old settler has been called by the grim reaper—death. Robert Gruber Sr. died suddenly at his home in the village of Pierz last Sunday morning at 9 o'clock. The cause of his death was mitral regurgitation as the attending physician stated, but was not confined to his home until the last few weeks and his death came unexpectedly.

Mr. Gruber was born in Austria, March 22, 1852, and immigrated to America with his parents in 1864, when 12 years of age. They settled on a farm near Blue Mounds, Wis. He was married February 13th, 1879 and had a son, Robert, who was born in 1881. He was married again to Mrs. Mary Newman in 1885. He owned the hotel building which was destroyed by fire about a year later. The building not being insured, there was a loss of over \$2,000. This did not discourage Mr. Gruber and he bought the Walter Koenen hotel, now owned by Mrs. Barney Gross, and stayed in the hotel business. A few years later he made a deal with John Newman, trading the hotel building for Mr. Newman's farm, and again changed to an agriculturist, where he stayed for two years ago, when he retired and moved to the village. At the time of his death, he owned five farms in this vicinity. All of them are operated by his sons.

The burial ceremonies were held in St. Joseph's church Tuesday at 10 o'clock a. m. Rev. J. G. Steigler officiating, and interment was in St. Joseph's cemetery. Deceased was well and favorably known, not only in Pierz, but also in the surrounding country. Friends from Buckman, Laurup and Little Falls were in attendance at the funeral.
