UNCLE DUDLEY'S COLUMN

Perk up and stay porked. The month of May witnessed a gratifying improvement in the American industrial world. Manufacturers are putting many of their idle men to work again, and plants that have been running on short time have increased their hours of activity. Altogether, the situation is fairly satisfactory to those who are not seeking to get rich one day and cut a dash the next.

Be optimistic as to the future. Pessimism gathers no moss. People who hit the high spots often find themselves in the low ones.

Keep moving, or the world will run off and leave you. Get busy and step lively. The world owes you only that which you are able to get.

Never rub your friend's feathers the wrong way. The canker beneath the gloss is not pleasant to see.

When duty calls most of us are hard of hearing. Those war fraud millions are still occupying the public mind and the pockets of the thieves.

All women look alike to men who can't see. People can not be expected to respect the law of the land unless they are first taught to respect themselves.

Let not your right hand know what your left hand doeth. It might feel ashamed. Tell the truth all times. It is good advice. But tell it to the right person is wisdom.

Beauty that is skin deep seldom fades. It washes away. Success breeds confidence until it is missed.

The worst of our worries are over things that never happen. Poverty is not a crime, but many people treat it as such.

A word to the wise is sufficient, provided it is not uttered by a fool. Keep in touch with the world if you don't want to be touched.

Some people may appreciate what is done for them. They don't like to be "done."

There is method in madness, but many people are not sane enough to see it.

STATE CONSTABULARY
St. Louis County Independent.—If there were no argument against the State Constabulary bill now being urged by Governor Englem, for enactment by the legislature other than the cost, or probable cost, it should be sufficient to warrant defeat of the measure.

The press of Iowa constructs Col. Brookhart's primary victory as a notice that "the rank and file of the party is not in favor of the proposed tariff, the ship subsidy, the juggling of adjusted compensation for ex-serving men and the general policy of wiggle and wobble." Does the support of Col. Brookhart by the Republican Senatorial Campaign Committee mean that the committee also is not in favor of these things?

MELLON CREATES SURPLUS BY POSTPONING PAYMENTS
Secretary Mellon is certainly the modern wizard of finance. By a simple twist of the wrist he has changed a deficit into a surplus, thus: There is an admitted threatened deficit of \$24,000,000 for the fiscal year ending June 30, 1932. Within that period \$71,000,000 obligations fall due. By postponing the payment of these obligations until next year, the Secretary of the Treasury has increased the deficit so that there will be a surplus of \$47,000,000.

SIAMSE TWINNINGS OF TRADE
(Somewhat by Senator Underwood)
I saw a cartoon in the paper the other day which showed Siamese twins fastened together by nature's laws, their bodies grown together, their hands tied behind their backs, marching to the block of the executioner, who stood there with his red gown and his mask on his face, preparing to execute the one called "Imports," and some one rose in the audience and said, "These are Siamese twins: Kill one, and you kill the other."

Anna D. Olesen (Mrs. Peter Olesen) is the only candidate for the democratic nomination, making a real campaign. It was thought that with the entrance of T. J. Meighen into the contest, that he would also make an energetic campaign. It is probable, however, that the main campaign for Mr. Meighen is being made in the cities where the vote will be largely for him this year, a much greater democratic vote will be cast in the country districts and where the outcome of the contest will likely be determined. While Mrs. Olesen has done much campaigning in the rural districts, she has also done much work in the cities.

ANNA D. OLESEN
Candidate for the Democratic nomination for senator. Endorsed by the pre-primary Democratic convention.

Edward Indrehus, candidate for the democratic nomination for governor will make a strong contender in the fall election. He is square, able and progressive.

The season for taking black bass, large or small, opened yesterday. The limit of black bass is 15 in one day. The minimum length is 8 inches.

David Larson, son of Mr. and Mrs. Ben Larson of this city, graduated from Bethel Academy, St. Paul, this week. His sister, Miss Naomi Larson, attended the graduating exercises, which were held Monday.

The Luther League of Bethel Lutheran church will meet at the home of Mrs. John Larson of Pike Creek next Sunday afternoon, June 18, at 2:30 o'clock. A program will be given and refreshments will be served. All are welcome.

Congressman Ernest Lundeen of Minneapolis, who is a candidate for United States senator from Minnesota opposing Frank B. Kellough, present incumbent, was in Little Falls Monday, enroute to the twin cities after a campaign tour through the northern part of the state.

William Smith of Minneapolis, formerly of this city, was here first of the week visiting friends. Mr. Smith, before entering the military service in the world war, was a railway mail clerk on the N. P., and made his headquarters here. He returned two months ago from Paris, where he was stationed in the U. S. Army postoffice.

Game Warden J. M. Totten was at Darling Monday investigating complaints made about the water in Little Elk river being contaminated by waste water from the gravel washing plant operated by the Northern Pacific. Farmers in that vicinity reported the loss of cattle which drank the water and it was said that fish were dying.

A Ford car driven by Miss Alma Braeke of this city crashed into a car owned by Asa Curtis which was parked on First street in front of the North American Grocery Company store, Monday afternoon, when Miss Braeke, who had but little experience in driving, failed to stop her car at the curb. The Curtis car was pushed against the sidewalk up to the building. Neither car was damaged to any extent.

The Misses Florence Sandstrom, Esther Carlson and Dagmar Johnson of this city attended the fourteenth annual convention of the Brainerd District Luther League in St. Cloud Friday, Saturday and Sunday, as delegates from the local league. The Darling league also had delegates at the meeting. Mr. and Mrs. N. J. Peterson and family, Mr. and Mrs. O. R. Carlson, son Theodore and daughter Elin, Mr. and Mrs. O. H. Johnson, Mr. and Mrs. E. J. Carlson and son and Miss Florence Tholen attended the convention. The Little Falls league will entertain the 1932 convention.

ITALIAN PRAISES REFUSAL OF U. S.

Former Premier Nitti Says America's Flinty Heart is Best In End.
Berlin—With more than two thirds of the countries of Europe stretching out their palms toward the United States seeking to break into the American treasury and American pockets, former Premier Nitti of Italy, in the Berlin Tageblatt praises American aloofness. The Italian statesman points out that the apparent flinty heart of America is really for the good of Europe in the end.

Among the babel of "lend us money" Nitti is one statesman whose "don't" is heard above the din of those appeals. "The antagonism, amounting almost to hostility, with which every suggestion of loans to Europe is received in the United States is not only justifiable but commendable," Nitti writes. "To loan money to the victor nations would be equivalent to upholding, and even intensifying, the present conditions of disorder that are leading European more and more toward destruction."

FARM BUREAU WANTS ACTION

Campaign Launched for Acceptance of Muscle Shoals Bid.
Washington—A campaign for acceptance of Henry Ford's Muscle Shoals offer at this session of Congress was begun by the American Farm Bureau Federation, whose Washington representative, Gray Silver, forwarded to state secretaries of the organization a circular suggesting that members of Congress be informed "in unmistakable terms" of the sentiment of the farmers toward the Ford plan.

"There is no assurance," said the letter, "that the proposal will be still proffered if it is not accepted before adjournment. The offer was made one year ago and the time has come to say 'yes' or 'no.' This cause is worthy of your most active support. Members of Congress cannot reflect your desires unless you tell them in unmistakable terms that you want a vote on the Ford proposal and that you want it accepted at this session."

30,000 MEN NEEDED

Will Harvest Average Crop—Estimate 103,560,000 Bu.
Topeka—The hum of the harvest machinery in Kansas' eight and a half million acres of wheat will start about June 20, will reach a crescendo in the central wheat belt two weeks later and die away in the northwestern counties in another two weeks. Officials of the State Free Employment bureau estimate that Kansas will need approximately 30,000 harvest workers from outside the state to help gather the annual yield of wheat, but they caution men from outside Kansas against the usual premature influx.

According to J. C. Mohler, secretary of the State Board of Agriculture, Kansas will harvest an average crop, the latest estimate being 103,560,000 bushels, which would be approximately 20,000,000 less than that of last year and 72,000,000 less than the record crop of 1914. The state, however, maintains its position as the premier wheat state of the nation by a wide margin, growing approximately one-sixth of the total crop of extremely high wages in the harvest fields, which reached a maximum of \$10 and \$12 a day three years ago, is no more. The wages announced for this year are: Eastern third, \$2 to \$3; central and western, \$3 to \$4. These include board and lodging.

BRITISH TO END ADVANCE

Free Staters Assured No Further Operations Planned.
London—Prime Minister Lloyd George assured Arthur Griffith that there would be no further military operations along the Ulster border unless the republican invaders reattacked or attempted to reinvade Ulster territory. Having driven the outlaw bands back beyond the frontier the loyalist regulars will reinforce the loyalist forces holding the line until the opposing forces there are withdrawn or broken up, he explained.

HOW TO KILL DANDELIONS

Spray of Iron Sulphate Called Infallible if Properly Used.
Madison, Wis.—The dandelion is vulnerable. The little yellow weed which greedily gobble up the stands of bluegrass on lawns has been put on the run—and by University of Wisconsin horticultural experts. "Kill 'em with a spray of iron sulphate." This advice is infallible, if proper precautions are taken. A. L. Stone, of the college of agriculture, claims. This method of slaying the pestiferous dandelion has been tested over a period of several years.

PRINCE SHIPS STOCK TO FARM

Stalls His Farm With Thoroughbred Horses.
Calgary, Alta.—Four thoroughbred race stallions and five mares have been shipped from England by the Prince of Wales to his ranch near High River, Alta., which he purchased when he visited Canada in 1918. One of the stallions was purchased in England recently by his royal highness for \$55,000. The other animals are said to represent some of the best racing lines in the British Isles. The consignment of horses arrived in charge of a special staff sent over from one of the prince's English farms. The animals will be used for breeding purposes.

Links Balkan Dynasties.

Belgrade—Medieval pomp and splendor marked the wedding here of King Alexander of Yugoslavia and Princess Marie of Rumania. Nearly every nation in the Old and New World was represented at the ceremony, which linked the dynasties of three Balkan countries, forming a powerful barrier against future wars in this turbulent part of Europe. The event probably will remain unmatched for a long time in Balkan annals for its political significance; the lavishness and beauty of its settings; the picturesqueness of the processions, and the quaintness of the presents to the bride and groom.

Much Damage.

Fond du Lac—Thousands of dollars worth of damage was done, several people injured, two seriously, by a tornado which swept this city and vicinity for a radius of 15 miles.

Ready to Intervene.

Havana—The government of Cuba is virtually in the control of the United States. Intervention, while still unofficial and indirect, is as potent and effective as if internal Cuban affairs were being personally directed from Washington.

over the county last year with good results. Farmers having pure seed and wishing to have it certified should make application before the first of July—either through the county agent or A. G. Tolosa, University Farm, St. Paul.

MISS JOYCE WETHERED

Miss Joyce Wethered, youthful British golfer, who defeated the supposedly unbeatable Cecil Leitch in the recent women's open golf championship at Sandwich. Miss Wethered is shown with the silver trophy awarded her.

PUT INTO SERVICE AT ONCE

Barges to Take Ore Down, Coal Back for Northwest Distribution.
St. Louis, Mo.—The Northwest will realize this year, for the first time since the passing of the old river steam boats, commercial river traffic on the Mississippi in considerable volume.

Assurance that towboats and barges would operate on a purely commercial basis on the river this year was received in an announcement by Col. Edwin F. Goltra, owner of a fleet of four towboats and 19 barges. Colonel Goltra some time ago purchased from the government his river fleet. Restrictions as to the commodity he could handle on the Mississippi river below St. Louis, where the government line operates, made it impractical for Mr. Goltra to enter into competition with the government line, he said.

The fleet will be put into service immediately between St. Louis and Minneapolis with initial shipments consisting of iron ore on the downward trip and coal on the trips upstream.

DEMANDS SHIP BILL PASSAGE

Threatens to Call Extra Sessions if Measure Not Acted On.
Washington—President Harding has notified Chairman Campbell of the House rules committee that unless the ship subsidy bill is passed prior to adjournment, he would feel obligated to call a special session solely for its consideration.

Writing under date of May 26, the President said: "So much is involved and such a difficult and discouraging situation will follow if Congress fails to sanction the merchant marine bill that I should feel myself obligated to call Congress immediately in extraordinary session to especially consider it if it went over through neglect or delay beyond the present term."

"Peppered" Bibles Sent.

New York—Twelve hundred peppered and poisoned Bibles have been shipped to Ocean Island in the Gilbert group, by the American Bible society, that organization announced. The volumes, which are in Gilbertese language, were routed by Sidney, Australia, a distance of 15,000 miles. They were specially bound, the poisoned glue being used to kill the bookworms of the tropic island, which are very destructive.

Parents Pray.

New York—Hundreds of parents relatives and friends stood vigil at the docks of City Island, on Long Island sound, waiting for the police boats to bring in bodies of loved ones lost in the terrific storm which swept the metropolitan district of New York City and seventy and injuring hundreds of others.

No Action Planned.

Washington—The statement was made at the White House that the administration is not contemplating any important immediate or drastic action in the continuing nation-wide coal strike.

Fire Destroys School.

St. Thomas, N. D.—Hundreds of residents turned out to fight flames which completely destroyed the city school building valued at about \$30,000.

Edison Given Rutgers Degree.

New Brunswick, N. J.—Thomas A. Edison, now in the seventy-fifth year, has been given the honorary degree of doctor of science by Rutgers college.

Ladd Makes Proposal.

Washington—A proposal to pay the soldiers bonus in cash, the financing to be done by means of special taxes on banks and through use of the interest on the foreign indebtedness, was made in the Senate by Senator Ladd, North Dakota.

RULES SIMPLIFY TRAVEL ABROAD

Americans May Travel in Unrecognized Lands at Their Own Risk.
Washington—Revised passport regulations announced by Secretary Hughes, simplify requirements for Americans desiring to go abroad.

Holders of passports issued since Jan. 3, 1918, under the new regulations, will require no further identification in obtaining new passports to any part of the world the traveler may desire. The requirements of documentary evidence as to the purpose of the intended visit has been withdrawn and Americans seeking passports need only state their business in general terms in making application.

Under the new regulations the issuance of passports is wholly for the convenience of travelers and they will be issued for travel in Russia or elsewhere, even where the United States has no diplomatic or consular representatives. A passport in countries where the United States has no representatives, it was explained, carries with it no assurance of protection as traveler moves in such countries at his own risk.
