

MICKIE SAYS

IF YA GOT MORE MONEY THAN YA KNOW WHAT TO DO WITH, GIVE IT TO TH' SALVATION ARMY! D' NY DONATE IT TO TH' BUCKERS WHO WANT TO PUT 'ER 'AD' IN A 'POCKEY DIRECTORY' OR ON A 'ROADSIDE SIGN' WHERE IT WILL NEVER BE SEEN!

DAIRY FACTS

SAFE MILK SUPPLY INSURED

Suggested That Two or More Small Towns Hire Inspector and Maintain Laboratory.

(Prepared by the United States Department of Agriculture.)

Milk inspection is of prime necessity. In most of the larger cities laboratories are maintained where bacteria counts and chemical analyses are frequently made on samples collected from retail delivery wagons, stores, and restaurants.

The United States Department of Agriculture suggests that a practical

Cleanliness is Essential to the Production of Milk of Low Bacterial Count.

way for such cities and towns to insure a safe milk supply is through the co-operation of two or more adjacent towns in hiring a milk inspector and maintaining a laboratory.

This plan of town co-operation in milk and dairy inspection has been carried out in different parts of the country, probably the most conspicuous example being the group of towns in northern New Jersey known as "The Oranges."

MARKS OF GOOD DAIRY COW

Angularity and Leanness Should Be Apparent When in Milk—Mammary System Important.

A good dairy cow should show angularity and leanness in appearance when in milk. A feminine head; a bright, full eye; a wide muzzle and large open nostrils indicate dairy temperament.

DAIRY COWS WORK HARDEST

Animals Give From Five to Ten Times Their Weight in Milk—Need Best of Feed.

People seldom think of the dairy cow as a hard working animal, yet it is a fact that she works harder than other domestic animals.

Best Roughage for Cows.

Clover hay is one of the best of all roughages for the cow. It furnishes large amounts of crude protein—so essential to milk production and is palatable and much relished.

Plant Food Removed.

A ton of butter removes only seventy cents worth of plant food from the farm, while the sale of the feeds that produce it would carry away over \$400 in soil fertility.

THANKS

I desire to express my appreciation and thanks for the support received from the voters in Monday's primary election.

Gratefully yours, J. L. SEIPERT.

Father Wroble and Mr. and Mrs. Lawrence Othotto of Elmdale attended the Diocesan convention at St. Cloud yesterday.

WANTED: Your savings account. We credit interest semi-annually at 4 per cent per annum—Merchants State Bank, Little Falls, Minn.

Joseph Lutes, who was one of four men arrested here by federal agents for violation of the prohibition laws, went to Brainerd and appeared before Commissioner Polk. He waived examination and was bound over to the grand jury under \$500 bonds.

Pride and Vanity. I would much rather fight pride than vanity, because pride has a stand-up way of fighting. You know where it is. It throws its black shadow on you, and you are not at a loss where to strike. But vanity is that delusive, that insectivorous, that multiplied feeling; and men that fight vanity are like men that fight wiggles and butterflies. It is easier to chase them to hit them.—Henry Ward Beecher.

Aunt Mandy's Code. In Georgia they tell of the old black cook who was horrified to discover that one of the younger negroes, a helper in the kitchen, had been caught stealing. "Now," said Aunt Mandy, "I don't believe in stealin'. I never takes nothin' 'cept it's something to eat, or somethin' to wear, or somethin' what I think de missus don't want, or somethin' de boss is got too blind to miss!"—Harper's Magazine.

Explains Salmon's Jump. The bureau of fisheries says that at the bottom of a fall there is usually a very deep well. The salmon swims to the extreme bottom of this well, and if they have sufficient depth of water to give force to get the power to jump, they do so by swimming very fast and rushing out. This force mechanically causes them to jump the falls.

According to B. L. T. "The so-called human race appears to its best advantage, perhaps its only advantage, in work. The race is not ornamental, nor is it over-bright, having only enough wit to scrape along with. Work is the best thing it does, and when it seeks to avoid this, its reason for existence, disappears."—Chicago Tribune.

Prize for Engine. A prize of one million francs has been offered by the administrative council of the committee for aeronautical propaganda in France, for an airplane engine which will give satisfaction in severe tests of durability, reliability, swift dismantling, erecting, etc. Tests will begin in June, 1923. Competition is open to the world.

Let It Go at That. Any fool can be a censor, but one has to be somebody to be censored.

WEEK NEXT WEEK

A special raid will be made on the weeds next week over the county by the weed inspectors. Special men have been appointed by the inspectors in many of the villages to assist in a prompt eradication of the weeds while in bloom.

This will tend to minimize the weed pest as most of the noxious weeds propagate from seed directly or indirectly. Mayor Berghem will appoint special weed men in Little Falls who will work under the Weed Inspectors, scanning all house yards, gardens, or vacant property.

The street commissioner will see that streets, avenues and alleys are properly taken care of.

Roads, highways and farm yards over the county are expected to be properly cut as well as cemeteries, church yards, and school yards. Nothing is expected to be spared in this relentless war on weeds.

Therefore the weed inspectors desire that every owner, renter, or occupant of any kind of real estate take notice that a proper compliance with the weed law is made.

The state weed inspector has issued orders that the local inspectors enforce the weed law more rigidly this year.

BETHEL LUTHERAN C. E. Sholander, Pastor. Morning service at 10:30. Sunday school at 9:15.

At Freedom Lutheran church, services at 10:30. At Bethany Lutheran church, Parker Town, services at 3 o'clock. Dr. Joseph Alexis will speak.
