

Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

THREE FROGS

"Sometimes we wear green suits and sometimes brown and sometimes gray and sometimes somewhat of a mixture of these," said Master Tree Frog.

"We're supposed to be weather prophets. Weather prophets are those who say what the weather is going to be. There are some of my relatives who have boasted they could do this. Some of them have indeed boasted and bragged of this.

"But I don't. I don't want to be a weather prophet because it is too much like work! "Not that I object to work, but I don't care for that kind of work. No, thank you. I want to work and not be complained of and if one is trying to tell what the weather is going to be one is always complained of if one is not right.

"Old Man Weather himself doesn't know what he is going to do. Sometimes he plans his days ahead, but not always, not always by any manner of means.

"You see we like to come around during damp, wet weather, and we come around before storms. We really are especially fond of damp weather and of wet weather and we like to be about them.

"That is the reason why members of my family have been called weather prophets. Because, you see, when people saw some of us about or heard us singing or making our funny little purring sounds they would say, "There comes a tree frog. It must be going to rain."

"Usually it did too. That is true enough. But to consider one's self a weather prophet is too much of a

"Trees Are So Nice."

good thing. I don't mind being a kind of half weather prophet but not a whole one.

"I have rather an ugly square head and my body is very fat and dumpy looking. But then I do not care about looks.

"I have teeth on my upper jaw of which I am quite proud. I am not unduly proud of them though and why should I be? Teeth are very nice but there are other things in life more wonderful.

"The lady tree frogs have smaller ears than we have which is nice because it is ladylike, or frog-ladylike to have small ears. Then they do not have to listen to too much idle chatter.

"Of course that isn't what we do because we have big ears, but I am telling of the difference in our ears chiefly because the lady and gentleman common tree frogs are so much alike. We have darker throats than they have too, I might add.

"We're fine hunters and we like the night-time in which to hunt.

"We can see all the caterpillars and beetles and bugs and insects for we have good eyesight. Some creatures are thankful they have good eyesight because they like to read a lot, but the tree frogs are glad of good eyesight because they can get fine meals that way.

"We move quickly, jumping for the things we want to eat, and catching them easily with our sticky tongues.

"Trees are so nice. All kinds of bugs and insects come to them, ready to be eaten.

"They may not think that way when they come along but after I've eaten them or after some of my relatives have I say to myself, "Ah, they came just in time for dinner!"

"Then in the trees are ants too and little creatures which like the different parts of the trees.

"There are some which come in bad weather and some which come in good weather.

"So we're almost always apt to have good food.

"It's a great thing to be able to live where there are good markets and good food and the tree frog is one who knows that good food not only makes strong boys and girls and men and women but tree frogs too.

"I must be hopping off now and having a meal. I've spent too much time in chatting and talking.

"Yes I must hop, hop, hop For a bit, bite, bite, For I'll sleep like a top, If I eat lots tonight!"

Arcthusa—Wilberforce is so erratic. One time he buys more candy than I can eat, and the next time none at all.

Arabella—Alexander is more rational. He maintains a mean average all the time.—Judge.

A Howler From India.

A glimmer of light is shown on the mystery of the simultaneous use of the bathroom for local and hydropathic exercises by the following, written by a student in India: "Climate has a great difference on character. We always observe that if a person enters a hot bathroom he is always compelled to sing and chant. The reason is that heat causes the expansion of the human soul as well as other bodies."—Boston Transcript.

PIERZ Pierz Journal, Aug. 3—Nick Hennen left for Calvary, Wis., Tuesday where he will remain on a few weeks stay. Last Monday, July 31st the fiftieth anniversary of golden wedding of Mr. and Mrs. Anton Tembruell was celebrated in St. Joseph's church. A solemn high mass was read by Father Fredolin O. S. B. who is a son of Mr. and Mrs. Tembruell. He was assisted by Father Carl Pingel and Father Vermer O. S. B., son of Henry Schneppenheim. Five little girls dressed in white conducted the wedding couple to the altar. They were: Olive Gau, who carried the golden wreath and Evelyn Gau, Monica Tembruell, Lorane Tembruell and Catherine Tembruell. After the ceremonies in church a dinner was served to the guests in the parochial school hall.

Their first marriage took place June 17th, 1873, in the Catholic church at St. Joseph, Stearns county. It was there that Anton Tembruell and Marie Langer were united in marriage fifty years ago. They moved to Morrison in the same year and settled on the farm adjoining the Aug. Creamery place on the west, where they lived over 43 years until they sold the farm to Ed. Renneberg. Since then they have made their home in the village.

Out of town guests present at the celebration were: Mr. and Mrs. John Koch from Pine Island, Minn., Christine Tembruell of St. Paul, Mr. and Mrs. Frank Kaska of St. Paul, Mr. and Mrs. John Tembruell and family of Bowman, N. D., Mr. and Mrs. Leo Tembruell of Red Wing, Rev. Fredolin O. S. B. of Nuenster, Sask., Canada. Mrs. John Hower of Duluth, Mrs. J. J. Langer and family of Sauk Rapids, Mr. Peter Heinen and Miss Mary Heinen of St. Joseph, Mr. and Mrs. John Sauer of Rice and Mr. and Mrs. Theo. Ortman and children of Lastrup.

It has been decided by the creamery management that a new creamery building will be erected within a few weeks, which will be entirely fire-proof. The location and material for the new structure has not yet been decided upon. A building committee has been appointed who will meet next Saturday, August 5, 1922, to discuss the plans and location after which building will commence immediately.

In the meantime the officers have decided to fix up the damaged building to conduct their creamery business and receive cream until the new place has been completed. The committee includes E. Froehner, Theo. Thielen, Joe Kippely, Christ Tembruell, Magnus Rauch and Wm. Meyer.

Monday morning July 24, at 9 o'clock in St. John Nepomuk church at Lastrup occurred the marriage of Miss Anna Nagel of the village of Pierz to Henry Girtz of Lastrup. Rev. Herman Klien performed the ceremony. The bride was attended by her niece Miss Della Stumpf of Genola, and August L. Gau, a friend of the groom, was best man. After the ceremony the bridal party motored to the groom's home where the wedding was celebrated. A large number of friends and relatives being present. In the evening a free dance was given at the groom's place which was very well attended.

The newly married couple will make their home with Mr. and Mrs. Jacob Girtz at present but will soon move onto the groom's farm which was purchased several years ago.
