(Continued from Page 3)

SIX AND A HALF MILLION FARMS

Late census reports state that in the United States there are six and a half million farms with an average of one hundred forty-eight acres. The total value is nearly seventy-eight billions dollars.

It is evident, therefore, that farming is, not only in importance but in size, the basic industry of our country. Our facilities are always at the command of the farmers.

Enjoy Best Health by Eating Best Foods

If people would eat correctly and of the right kind of food one-half of the doctors would be sitting around idle.

Eating correctly is your business. Our business is to sell you the right kind of foodstuffs—the pure and wholesome foodstuffs that enrich the blood and put pep into your mind and action.

The dealer who buys only guaranteed articles cannot well sell you an imitation. This fact is worth keeping in mind when you go marketing.

What we have is good.
