X X X. We make a specialty of all kinds of custom work. All kinds of feed ground to order. Bran, Shorts, Etc.

C. E. BEALE & CO., Little Elk, Minnesota.

The various Democratic papers throughout the state are making the statement that the "Democracy" of every man on the state ticket cannot be questioned. This won't wash in one instance at least, with the people of this part of Minnesota. We refer to H. H. Hawkins, of Carleton county, the candidate for lieutenant governor on the Democratic ticket. On the 2nd of June of the present year Hawkins was working and working hard before the People's Party congressional convention in this city for the congressional nomination from the sixth district. The delegates were "on" to him, however, as is indicated by the following extracts from the paper's report of the proceedings at the time. "There was a lurking suspicion," Mr. Jewnsold said, (referring to Mr. Hawkins) that some of the candidates were not full-fledged People's Party men and he asked for an adjournment.

"The first ballot showed the following result: Halvorson.....13 Parsons.....21 Selberger.....12 Hawkins.....12 Jewnsold.....12 This is one of the men whose "Democracy" has never been questioned!" What do you think of him?

JUSTLY INDIGNANT. From the Princeton Union. It took Senator Washburn about fifteen minutes to get a resolution through the U. S. senate which if passed by the house would perfect the title of about 800 Mile Lac settlers to their claims. The senate is Republican. That resolution has been hung up in the house for weeks and in all probability it will hang there to await the pleasure of the Northern Pacific railroad company. The house is Democratic by an overwhelming majority. The Northern Pacific railroad corporation has its paid tools in the house and they are powerful to prevent the passage of the resolution. We are not a very strict partisan, but it makes us tired to hear men prate about the Democratic party being the party of the people. This Mile Lac case comes right home to 300 poor settlers and vitally affects the interests of Mile Lac county. We say, damn the drunken Democratic house of representatives, and doubly damn our lunkheaded Alliance congressman, Kittie Halvorson.

The campaign this year in Minnesota will require blood. Hereofore candidates have run on tick, and if they got left devil a cent did the tickets both straight and split. Now the state prints and furnishes the tickets and before a candidate can have his name put on he must lay down the cash with the proper officers. To run on the county ticket costs \$20 and to run on the state ticket \$50. "It is pay or not-play now." The Australian system, however, will make it cheaper in many ways. A candidate cannot be forced to pay any assessment except to the state. With this done he is sure that his name will be on all tickets. In this respect there will be a great saving.—Fergus Falls Journal.

Carelessness is one of the present faults of the Democratic party of the state. An article is going the rounds under the caption of "Minnesota's Next Governor," but it contains no reference to the gentleman, Hon. Knute Nelson. In it many complimentary things are said about Mr. Lawler, of Ramsey county. While information concerning him is certainly necessary if he is to become generally known, it is a rather small trick to deceive people into reading about him when the heading of the article would clearly lead one to expect something about Mr. Nelson. Even the most blinded Democratic partisan does not seriously question Mr. Nelson's election, and the naming of an unusually weak state ticket by the opposition has guaranteed him an unprecedented majority.

The claims of the Democrats that they have nominated a strong state ticket are certainly very ridiculous, if not unexpected. The names on that ticket do not include any of the old leaders or popular party favorites, and while an energetic campaign may be made there is absolutely no hope of party success. The idea of running Dan Lawler against Knute Nelson and H. H. Hawkins against Dave Clough is enough to discourage any Democrat. The Democratic ticket will be beaten by 35,000 votes, and for once the Republican state ticket will run ahead of the national ticket.

Attempted Suicide. From St. Cloud Times. A very sad case of attempted suicide, which will probably result in the death of the person who sought self-destruction, occurred in this city today. Ida May Wright, wife of Mr. A. A. Wright, with whom she made her home still herself this morning. She is still alive, but while the attempt was not entirely successful, there is little hope of her recovery. This morning May, as she was called in the family, did not arise at the usual hour, and as she had not been feeling well since last Sunday, Mrs. Wright concluded not to disturb her. About eleven o'clock she decided that she would call the girl and went upstairs to the room. She rapped, but there was no answer. She went down stairs when Mrs. Wright thought she heard a moaning sound. Frightened at this she broke open the door and entered the room. To her horror she found the girl lying on the bed in an unconscious condition, while beside her lay a small target rifle and a couple of cartridges only too plain evidence of what had occurred. Dr. Stone and Heche were immediately summoned and Mr. Wright was notified. The physicians succeeded in bringing the girl back to consciousness, but they do not believe that she can survive the self-inflicted wound. She meant to shoot herself, through the heart, but in the shuffling of the bullet passed just below almost through her body. She held the weapon in such a manner that the ball entered half an inch below her heart and lodged in her back just under the skin, near the spine. The rifle she used was a 22 caliber.

The girl hurt herself last Sunday by falling from a buggy and it is thought to have unsettled her mind. We know no "ding" or "clique" but the people still are about the session of the year when a few with whom the people are not wholly satisfied will cry "ring rule" and "bossism" when something may be said or done without having obtained the advice and consent of a congressional committee. The benefit of the Transcript man we will give notice that we are ready willing to call a bluff which he or any one else may attempt to run on this paper. And it also looks at the present time as if the democratic party of Morrison county was giving but little attention to the raising of the Transcript man or any one else.—Democrat.

There, there, little Democrat, you shall not be abused. It would be a shame for any real newspaper to jump on such a parody on journalism as you are, and your threats to call bluffs are quite amusing. Of course the Transcript man is "ring rule" plenty now days, and he is real disappointed to know that he will have no attention from the Democratic party. There is a lurking fear, causing chills and cold sweats, that the said party is preparing to give him decidedly more attention than he craves for.

No Clutch on the Judgeship. From the St. Cloud Journal. If our St. Cloud attorneys imagine they are to have a clear field for a clutch on the judgeship to be made vacant by the election of Judge Searle to congress, they are greatly mistaken. Mr. J. D. Jones, of Long Prairie, for four years clerk of the supreme court and a popular attorney of the district, is an avowed candidate. Mr. Chas. Lindbergh, of Little Falls, one of the bright young lawyers of the northern part of the state, is also said to have a weather eye out for the place when it becomes vacant. Dume Kumor further states that Mr. C. J. Gusterson, for several years county attorney of Douglas county and law partner of the Hon. Knute Nelson, would not be averse to occupying a seat on the district bench. The St. Cloud attorneys named in this connection are Messrs. Geo. H. Reynolds, Geo. W. Stewart, M. D. Taylor and A. B. Barstow. Before the time comes there will probably be several other counties heard from.

On the Upper Mississippi. Minneapolis Lumberman: The movement of the logs on the upper Mississippi has been slightly accelerated by the rainfall during the past ten days. The rise has not averaged much more than from four to six inches on the entire length of the river above this point. The boom company is turning out over 3,000,000 feet daily and the mills are all well supplied. The boom company's slow crew is now at work below Elk River, and the upper crew is expected to reach Sauk Rapids tomorrow. The logs above Aikin are coming as rapidly as can be expected. The heavy rain and the present stage of water. The Pine river drives are now practically out of Cross Lake and running into the Mississippi. The Indian reservation and Bear river logs are now beginning to run between Winnebagoish and Pokegama lakes. Their movement is slow and if they arrive here this season it will be at a very late date.

Brainerd Journal: A man whose name we did not learn was quite seriously hurt last Tuesday morning a few miles above here. He was driving a team and heavy wagon down from the Cross Lake Logging Co.'s camps, and a few miles above here he stopped the team to fix the harness. The team suddenly started while he was at work, and threw him under the wheels of the wagon, and one of the wheels passed over his head. When he recovered consciousness he was walking behind the wagon, and had traveled several miles after the accident occurred, in an unconscious condition. He soon afterwards arrived in town, and his friends took him to the Hospital, where it was found that he was quite seriously injured.

The adjustment on the Davidson flouring mill at Sauk Centre recently burned is building, \$4,250; machinery, \$8,942.41; boilers, \$418.20; wheat and stock, \$4,885.21, making total of \$18,135.21. The loss is \$44,880.1. Mr. Davidson says that he will have the new mill running by Thanksgiving.

Brainerd Journal: Last Monday was the regular monthly fire day, and \$405 was paid by the fire trustees on and near West Laurel street for damages to the morals of the city. That sum was smaller than usual.

F. B. Simmons, of the Brownville citizens, offers that paper for sale, and he evidently wants the deal closed right away, as he says: "We will give an immediate purchase a bargain that will tickle his conscience."

Board of Education. The Board of Education met at the office of President Flynn in regular session on Saturday evening last, and the old board adjourned without doing any business. The new board, consisting of Messrs. Flynn, Davidson, Hoffman, Schlessener, Fortier and Fuller were present, and organized by election the following officers for the ensuing year: President—J. C. Flynn. Secretary—W. M. Fuller. Treasurer—A. R. Davidson. The following committees were appointed: Supply committee—Schlessener and Fortier. Building Committee—Hoffman and Schlessener. Financial committee—Schlessener, Hoffman and Fortier. The school house contractor was authorized to place slate roofs instead of shingle roofs on the two school buildings, for the additional sum of \$225 each, provided the contractor and bondsmen would consent to the change without extending the time for the completion of the buildings.

It was decided to receive bids for school furniture on Saturday forenoon, Aug. 13, at 9 o'clock. The supply committee was authorized to make necessary changes and repairs in the old school building. The board decided to receive applications for the three janitorships on Saturday morning next. Board adjourned to Saturday, Aug. 13, at 9 o'clock a. m. The lease under which the Arlington has been run the past two years expired last Monday and the owner of the property, T. J. Sharkey, is making some needed improvements on the interior before it will be leased again. Mr. Sharkey was here Tuesday and says he has another tenant in view for the building and machinery. Miss Nellie Ward, who has been operating it under R. R. Wise's lease, will, we are informed, take charge of the National about the 1st of October, when Jones Bros.' lease expires.—Staples World. The insurance adjusters on the loss of Mr. Davidson by burning of the mill property have finished their labors and left yesterday. He received \$13,310 on building and machinery and \$3,392 on stock and wheat besides \$1,563 on wheat in store for which he had issued storage tickets. He paid, but three weeks before the fire \$32,500 for which he now has to show \$13,310 from the insurance companies and the water power and lots with the building and machinery. Now is, the present mill property and ruins cost him \$19,190. A rather dear investment.—Sauk Centre Avianche. S. F. Staples, of the "S. F. Staples Lumber Co.," writes as follows from Iron River, Wis.: "We are in ashes here, whole town burned down one week ago yesterday, but they are all rebuilding and we will have a better town in four months than we had before. There were burned besides several residences, but we were fortunate and saved our property. King, my brother, has an addition here with about forty buildings on, and by hard work we saved every one."

Petit Jury List. The following names were drawn by Sheriff Honde Clerk Staples and Justice Fuller this morning, to serve on the general session term of the district court: Geo. W. Wolf, Wm. Gish, R. L. Lambert, Peter Picotte, Wm. F. Kay, Geo. Chapman, Aug. Strout, John Wendt, Nic Boos, John Wendt, Chas. Chartier, Joe Bohomer, Wm. Beseman, Adolph Stenot, P. H. Berg, John Stitzman, Jas. Boellig, John Stitzman, Mat Foster, Edw. Brown, Edw. Gillette, Case Rail, Christ Kronoski.

Brainerd Journal: Last Monday was the regular monthly fire day, and \$405 was paid by the fire trustees on and near West Laurel street for damages to the morals of the city. That sum was smaller than usual. F. B. Simmons, of the Brownville citizens, offers that paper for sale, and he evidently wants the deal closed right away, as he says: "We will give an immediate purchase a bargain that will tickle his conscience."
