A Polish woman by the name of Shuda made away with a pair of pants from B. Burton's store Wednesday evening. Mitch Burton took after her as she ran down street and finally tumbled her back of M. Maurin's store where she gave up the stolen goods. The same woman has been caught stealing goods from nearly every store in town, but the articles were of very little value and the owner was always satisfied when the goods were returned and did not prosecute. The stories told by merchants and clerks who have caught some of these women carrying things off under their shawls or in their big baskets would fill this paper and it might be surprising to some people to learn that it is not always the poorest of them who steal. Nearly every merchant or clerk in the city has some party spotted whom he has to watch, and were every one arrested who is caught picking up things we would have some mighty interesting reading occasionally.
