THE FARMER WORKS HARD

For a living. He has to. He must "make hay while the sun shines," no matter how he feels. The result is overwork. The stomach usually gives the first sign of strain. The organs of digestion and nutrition are deranged. Food does not nourish. Indigestion appears. In such a case Dr. Pierce's Golden Medical Discovery re-establishes the health by a complete cure of the diseased organs of digestion and nutrition. It cleanses the stomach, purifies the blood and removes the causes of disease. It is a temperance medicine, and contains no whisky nor alcohol.

"I was troubled with indigestion for about two years," writes Wm. Bowker, Esq. of Juliette, Latah Co., Idaho. "I tried different doctors and remedies but to no avail, until I wrote to Dr. Pierce and he told me what to do. I suffered with a pain in my stomach and left side and thought it would kill me. I am glad to write and let you know that I am all right. I can do my work now without pain and I don't have that first feeling that I used to have. Five bottles of Dr. Pierce's Golden Medical Discovery and two vials of his 'Pleasant Pellets' cured me."

Sick people can consult Dr. Pierce by letter free. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

TERMS OF THE TREATY.

President's Proclamation Regarding Reciprocity With Germany.

WASHINGTON, July 16.—The president's proclamation on the German reciprocity agreement has been made public. The articles on which Germany secures a reduction are those named in the Associated Press dispatch from here Friday night. The president names as a specific reduction that provided in the third section of the Dingley tariff bill.

The proclamation does not recite the terms of the arrangement. It is said that each government will proclaim only such features of the arrangement as are necessary for the guidance of its own officials in administering it. The arrangement itself will not be made public at present.

The putting into operation of the German meat bill is deferred for an indefinite period. The official explanation is that the purpose of its suspension is simply to allow of the execution of existing contracts held by American meat packers. It is not discoverable just now whether or not this meat act figures in any way in the reciprocity agreement, and it may be and probably is the fact that the suspension has been arranged for separately.

CONTROL THE FEDERATION.

Building Trades Council Elects the Officers of the Chicago Branch.

CHICAGO, July 16.—In the election of officers of the Federation of Labor the building trades council influence had control and selected its candidates by an overwhelming majority. As a further endorsement of its policy in the fight with the contractors, the building trades council was voted \$500 from the treasury of the Federation to aid in carrying for the families that are in want through the long continued strike in this city.

FISHING SEASON'S ON.

When the hollyhocks are leaning 'neath the weight of honeybees.

At sight of which the roses blush a red, And the honeysuckles round the porch peep through their green trees, Shedding lots of warm nectar o'erhead, And, 'tis, when the birds are singing as they chase a winged bee.

That while on May day 'ere's without a wish, And when you hear 'er's daisy fields the loag drawn out, "Gee-haw!" 'Tis then the time to get down your pole and fish!

Hunt the stream where there is silence—where the waters eddy round— And cast your hook where deepest shadows fall; Then sit yourself down carefully on some log or mossy ground And forget the country, office and all! Just lean back and get to dreaming as you watch a mockbird light.

And wonder at the music he does lurch; By that time you'll be awakened with your cork nowhere in sight, And, jerking, you will land a Georgia perch!

The blossoms of the big dogwood hardly'll seem so fresh and neat As you pass where shadows lie around; For the way home, 'neath the moonlight, and the sun sends down its heat; The string of fish you have just drag the ground. When the hollyhocks are leaning 'neath the weight of busy bees And heart feels sadly faint from some vain wish, Get your bait and go a-strolling where the stream flows 'neath the trees, And there in the soft shadows sit and fish. —Rochelle (Ga.) New Era.
