

The Goodhue Voluntee

OFFICIAL PAPER OF THE CITY.
HOME COLUMN.

RED WING, APRIL 28, 1892.

TIMOTHY SEED.—The best quality of Timothy Seed for sale at Johnson's Agricultural Warehouse, (78) C. C. JOHNSON.

TOWN OFFICERS.—We have just printed, and have now on hand, a large lot of blank town orders which we will sell cheap. Town Clerks will find it much more convenient to use the blanks than they will to write an order every time they want to use one.

GOODRUE CO. REPUBLICAN.—This paper did a good thing last week when it "spoke out in meekness" about the filthy condition of Bush Street in front of a certain station there. Perhaps the city ought to clear it away, and then perhaps it ought to be done by the owner.

NEW GOONS.—The Frank Steele came up river last Saturday, loaded down with goods for the merchants of this place, among others we notice packages for G. R. Sterling & Co., A. W. Esping Esq., Dr. A. H. Jones, C. H. & E. L. Baker and Brown & Betcher. Our merchants are all laying in a stock this spring.

AT THE BOOK STORE.—Dr. Jones has just laid in a splendid stock of well selected goods, Books, Stationery, Music, and everything in that line of trade. We notice also that the doctor has received a good stock of Gilded Moulding for picture frames. Don't forget where to call when you want anything of the kind.

ST. PAUL.—The Press feels sad about an allusion we made to the Saintry City, a week or two ago. Don't feel bad about it, friend Marshall, we take it all back, and say we are sorry; if that won't do, we assure you we did not mean St. Paul at all, but some other place, such, for instance, as Winona, Mankato, or Minneapolis.

NEW STORES.—Brown & Betcher have just received a large lot of Stoves. Probably they took warning by the style in which spring came in; but they were too fast, summer is come and stoves are no longer necessary. If anybody thinks differently let them call on Brown & Betcher.

EAGLE MILLS.—The excellent flouring mill on Spring Creek, known as Eagle Mill has again been obliged to suspend operations by reason of the dam being carried away by the late freshet. We are informed that the damages are about one thousand dollars.—The delay which it will occasion in business, however, will not be great, as Messrs. Phelps & Grakam have commenced repairing it, and intend to put it right through.

RIVER.—For a week past the river has been rising fast. The great amount of snow and the superabundance of rain for the last month are a sure guarantee that the river will be high during the early part of the summer. We expect soon to see wood drifting down with a perfect looseness.

The first boat up this season was the Keokuk, which arrived on Friday the 18th inst. at 11 A. M. She was quickly followed by the Sucker State. The first boat had quite a lot of passengers.

TO OUR SUBSCRIBERS.—With our next issue will end the first volume of the Voluntee. We commenced numbering at No. 40 volume 5, that being the next in order from where the Sentinel left off. We take pleasure in tendering our thanks to the people of the city and country for their patronage generously bestowed, and indulge the hope that they are not so much dissatisfied with the paper but they will still continue to patronize it. We shall continue to send the Voluntee to our subscribers in all cases where we are not expressly notified to the contrary, excepting only cases where we have already been so notified.

SIDE WALKS.—We notice with a great deal of pleasure, that several parties in the city have commenced in earnest to fix up their old dilapidated buildings, and improve the side walks from them. Among other things we discover that a new side walk has been laid down from Wilkinson's new block to the corner of Main and Plum streets.—This property is owned by Mr. Sandford who is our city attorney, Mr. Lawther one of the council and Mr. Sterling, a public spirited man. We are glad to see the city officials setting the example, and also to see others following that example as has been done by our neighbor Thomas across the way.

CITY CEMETARY.—The matter of a decent place to bury the dead has received considerable attention this winter from our citizens, and it is time that their attention was turned to that subject when during the whole of a long winter of unusual mortality, the present burying place was entirely inaccessible, and great numbers have been temporarily buried in private yards. The people have become convinced of the impracticability of the present place, and determined to purchase a new site. The place selected is a part of the John Day farm—a beautiful place, and the method of purchase is as follows:—

The ground costs \$500. To purchase it, it is proposed to lay it off into lots of convenient size, and sell them at \$5 each, deducting the first \$500 so raised to the purchase of the land. Whatever amount is raised more than enough to pay for the land will be spent in fencing, decorating and beautifying the ground. The matter is in the hands of Mr. G. Dickinson, who has been and is now soliciting subscription to the lot. Now our citizens ought to take right hold and subscribe enough to purchase and fence that land immediately.

SCHOOL DISTRICTS NUMBERED.

—We call special attention of the Clerks and other officers of the several school districts throughout the county, to the published notice of the county Auditor, on the subject of school districts.

FIREMEN.—We call the attention of the Firemen to the condition of the ground upon which the Engine House is located, and suggest to them that it would be well to meet some fine afternoon and clear it off.—Perhaps if we agree to do the work, the city will furnish some lumber to make suitable steps, for, be it known, oh! ye city fathers, that there are none now. And it will improve the appearance of the place wonderfully to set out three or four trees this spring, which we can do just as well as not.

DEPARTURE OF THE FIFTH REGIMENT.—On Sunday afternoon five companies of the fifth regiment, and one company of Sharp Shooters went down river on the Hawk Eye State, and Monday afternoon the remainder of the regiment went down on the Sucker State. They are under orders to report themselves at St. Louis, and will probably have a hand in the next fight.—It is always a sad sight to witness the parting of friends, and it was peculiarly sad on this occasion, in view of the immediate danger into which, in all probability, they are going.

FIRE.—Yesterday in the afternoon, the house of Mr. Peter Gustaverson in East Third Street, caught fire, and we are informed from a stove pipe that was carelessly put in, in too close contact with the wood-work; the firemen was on hand, but without apparatus they were unable to do more than save other property that must and would have been destroyed but for them. We regret to say that Mr. Gustaverson is a great loser by this fire; he lost all his kitchen furniture, and saved only a portion of his family clothing &c. An effort will be made to assist him, which we hope will be responded to liberally.

DELINQUENT TAX LIST.—At great expense we have set up, and this week lay before our numerous readers, the delinquent tax list of 1891. The job this time was given to the Republican, a paper published at this place. But although they get the pay, we are by no means willing to give them all the glory, so we publish it "in our own name." Of course the Republican is the official paper of the county, but we will say for the information of our readers that they can't always count on that. That is the official paper, that does the printing for the county by authority of the county officials. They have ordered that the printing shall be done by the paper that does it cheapest. Last fall we bid lower than the Republican, and got the job. Then we were the official printers. This spring, although they did not underbid us, they got the job, which is all right enough, and now they are the official printers. So, it is very easy to talk about official character, but altogether uncertain who is, or is to be the official printer.

TO BE SHOT.—Ebenzer Magoffin, of Missouri, a brother of Gov. Magoffin, of Kentucky, and formerly an officer in the rebel army, taken prisoner some months ago, released on parole, which he violated, and subsequently recaptured he was tried by court martial for "violation of parole," and for "killing in violation of the rules of war," and was sentenced to be shot. Gen. Halleck has approved the sentence, and it will be carried into effect at a time and place hereafter to be designated. In the meantime the prisoner will be confined in a cell of the Military Prison at Alton.

Fruit prospects for 1892 are almost everywhere pronounced good. This is true of western New York, so far as observed, and in Delaware the prospect for peaches is much better than usual. Many who own large orchards are represented to be fearful of such a large crop as to reduce prices below a remunerative point. In Pennsylvania all other kinds of fruit promise well. This is indicated by the beautiful condition of the lands, which have been remarkably favored. In eastern Massachusetts the fruit crop all promise well the mercury not having fallen below zero at any time this winter.

Tax.—St. Louis Republican of the 11th, says:—

We learned yesterday that the steamer Henry Clay had been sold or chartered for the purpose of making a trip to the mouth of Yellow Stone with a company of gold hunters. We are not informed as to the probable time of her starting up the Missouri.

The steamers Moses McLeellan and Denmark, which arrived from the Ohio river yesterday morning, with full cargoes for St. Paul and way points on the upper Mississippi, were ordered to discharge their cargoes, dismiss their passengers, and hold themselves in readiness to obey orders from the military authorities.
