

### AN OLD MAN'S TRIBUTE.

An Ohio Fruit Raiser, 78 Years Old, Cured of a Terrible Case after Ten Years of Suffering.

Sidney Justus, fruit dealer, of Mentor, Ohio, says: "I was cured by Doan's Kidney Pills of a severe case of kidney trouble, of eight or ten years' standing. I suffered the most severe backache and other pains in the region of the kidneys.

These were especially severe when stooping to lift anything and often I could hardly straighten my back. The aching was bad in the day time, but just as bad at night, and I was always lame in the morning. I was bothered with rheumatic pains and dropsical swelling of the feet. The urinary passages were painful and the secretions were discolored and so free that often I had to rise at night. I felt tired all day. Half a box served to relieve me, and three boxes effected a permanent cure."

### OLD FASHIONED

But Still in the Fashion.

It is an ever new and interesting story to hear how one can be entirely made over by change of food.

"For two years I was troubled with what my physician said was the old-fashioned dyspepsia.

"There was nothing I could eat but 20 or 30 minutes later I would be spitting my food up in quantities until I would be very faint and weak. This went on from day to day until I was terribly wasted away and without any prospects of being helped.

"One day I was advised by an old lady to try Grape-Nuts and cream, leaving off all fatty food. I had no confidence that Grape-Nuts would do all she said for me, as I had tried so many things without any help. But it was so simple I thought I would give it a trial, she insisted so.

"Well, I ate some for breakfast and pretty soon the lady called to see her 'patient,' as she called me, and asked if I had tried her advice.

"Glad you did, child, do you feel some better?"

"No," I said, "I do not know as I do, the only difference I can see is I have no sour stomach, and come to think of it, I haven't spit up your four teaspoons of Grape-Nuts yet."

"Nor did I have any trouble with Grape-Nuts then or any other time, for this food always stays down and my stomach digests it perfectly; I soon got strong and well again and bless that old lady every time I see her.

"Once an invalid of 98 pounds I now weigh 125 pounds and feel strong and well, and it is due entirely and only to having found the proper food in Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

## RUSSIANS FOILED BY ADMIRAL TOGO

### ATTEMPT OF FLEET TO ESCAPE FROM PORT ARTHUR RESULTS IN BIG BATTLE.

### DOOM OF FORTRESS THOUGHT TO BE NEAR

Engagement Lasts Until Dark—Two of Czar's Ships Return to Harbor—Vladivostok Believed to Have Been Objective of Fleet.

Tokio, Aug. 12.—Evidently driven to sea by the fire of the Japanese land batteries, the Russian fleet emerged from Port Arthur Wednesday morning. Admiral Togo immediately closed in and opened a severe engagement, which lasted until nightfall. Afterwards the Japanese destroyers and torpedo flotillas delivered a series of attacks. The Japanese fleet withdrew during the night. A guardship stationed off the harbor reported that she saw at dawn Thursday the battleships Retvizan and Pobieda steaming toward the harbor of Port Arthur. Admiral Togo has not yet reported the results of Wednesday's engagement. It is thought here that the Russians attempted to escape seaward, from a base which is no longer tenable, but that they again refused to attempt to force Admiral Togo's line. Details are expected.

Hard Blow to Russians. Chefoo, Aug. 12.—Another destructive blow at the Russian fleet is believed to have been struck by Admiral Togo off Port Arthur. In a desperate battle, which raged all day, the Japanese admiral has at least partially foiled the attempt of the Port Arthur fleet to escape. The full results of the battle are unknown. Driven desperate by the terrific fire from the Japanese land batteries around Port Arthur, the Russian fleet, consisting of ten large warships, emerged from the harbor early in the morning and made a wild dash for the open sea. Admiral Togo immediately gave chase and the battle ensued.

Squadrons to Join. Capt. Rostchavski, of the Russian torpedo destroyer Ryeshiteln, which emerged from Port Arthur with the fleet Wednesday morning and which arrived here early Thursday morning, confirms previous statements that the large Russian warships had left Port Arthur, but refused to say directly that the fleet had gone on an extended cruise, but left the inference, in the course of a long interview, that the warships expect to join the Vladivostok squadron, which he said had been recruited by the purchase of ships from the Argentine republic. Capt. Rostchavski said further that the Russian torpedo boats, gunboats and small craft generally remained at Port Arthur. Some came out to perform their usual duties in the vicinity, but they did not follow the big ships.

The steamer Tung Chow reports that she sighted six warships, which she believed to be Russian, in the vicinity of Chefoo. An unconfirmed report has been received of a naval battle near Round Island.

Jap Cruiser Sunk. Chefoo, Aug. 12.—It is reported that the Japanese protected cruiser Kasagi was sunk off Round Island in the recent engagement. The Russian ships, before leaving Port Arthur, took on board heavy stores, machinery and material for ship repairing. The torpedo boat destroyer Ryeshiteln has been dismantled by the removal of the breeches of her guns.

The Russian squadron left Port Arthur in response to imperative orders from Vice Admiral Skrydloff. A semi-official telegram reports that the Russian battleships Pobieda and Retvizan have returned, damaged, to Port Arthur. Three Japanese torpedo boat destroyers are now outside this harbor watching the Russian torpedo boat destroyer Ryeshiteln, which still flies the Russian flag.

Preparing for Squadron. Vladivostok, Aug. 12.—Preparations are being completed here for the reception and protection of the Port Arthur squadron. The departure of the squadron from Port Arthur is generally interpreted to indicate that the siege of the fortress is entering on its final stage. The preservation of the squadron is considered to be vital to Russia's future plans, and while it is acknowledged that its departure will greatly weaken the defensive power of the garrison, without the capture of the squadron the fall of the fortress would be robbed of much of its strategic importance. The smaller ships probably were left behind on account of their slow speed and inadequate fighting power, while the torpedo boat destroyers would constitute a constant menace to the Japanese fleet outside.

Definite news of the result of the reported battle outside Port Arthur is awaited here with feverish anxiety. Even if the squadron succeeded in getting through the Japanese ships, it is realized that it runs a desperate risk in trying to reach Vladivostok, as Admiral Togo's fleet is larger, of superior strength and faster than the Russian squadron. Besides, the straits of Korea are understood to be mined and the squadron probably will be compelled to take the longer route around Japan. It is believed that the purpose of the Russian torpedo boat destroyer Ryeshiteln in going to Chefoo was to notify Admiral Skrydloff of the sortie of the Port Arthur squadron. In order that he may dispatch the Vladivostok squadron to meet the squadron from Port Arthur.

News Is Confirmed. Washington, Aug. 12.—The state department has received the following ca-

blegram from the American legation at Tokio dated Thursday: "Yesterday the Russian fleet which has been harboring at Port Arthur came out and there ensued a battle which continued throughout the day with the combined Japanese fleet. The result has not yet been officially announced."

From Chefoo Consul General Fowler telegraphs under Thursday's date as follows: "A Russian torpedo gunboat has arrived from Port Arthur. Fierce naval engagement yesterday."

St. Petersburg Officials Notified. St. Petersburg, Aug. 12.—The admiralty has just received from Viceroy Alexieff a brief dispatch officially announcing the departure of the Port Arthur squadron. It does not give details and doubtless was the news communicated to the admiralty by the captain of the torpedo boat destroyer Ryeshiteln from Chefoo.

The news of the departure of the Port Arthur squadron, printed in extra editions of newspapers, created the keenest interest among the people in the streets. The officials here are unable to make out clearly from the Tokio dispatches whether Admiral Witthoff broke through the Japanese investing fleet, and the utmost anxiety prevails upon this point. No fresh news has been received from the front.

Fall of Port Arthur Near.

London, Aug. 12.—The afternoon papers here Thursday, while admitting that the result of the engagement off Port Arthur is not clear, generally interpret the conflicting reports from Tokio and Chefoo as meaning that the bulk of the Russian squadron at Port Arthur made a sortie in the hope of escaping, but that only the torpedo boat destroyer Ryeshiteln, which reached Chefoo, succeeded in getting away, and that the Ryeshiteln believed, as indicated by the statement of her captain, that the rest of the squadron would be equally successful. The papers recall Admiral Cervera's dash from Santiago, followed by the speedy surrender of the town, and consider that the sortie from Port Arthur indicates the impending fall of the fortress.

Great Garrison at Mukden.

London, Aug. 12.—A correspondent of the Daily Mail, who visited Simintin, which is on neutral Chinese territory, about 30 miles west of Mukden, cables the following under date of August 10: "There is an enormous garrison at Mukden, reinforcements having arrived very rapidly. There are no Japanese north of the city. A force of some strength lies 25 miles to the south and there is another Japanese army five miles east of Liaoyang. I learn from a reliable source that the main Russian army has fallen back on Chiutsu."

### HAVE BRITISH SYMPATHY.

Ambassador at Constantinople Expected to Support Leishman in Case of Necessity.

London, Aug. 12.—Beyond general sympathy the British government is evincing no interest in the naval demonstration of the United States in Turkish waters. No instructions have been given to Ambassador O'Connor at Constantinople, since it is not regarded necessary to take such a step. It is expected that he will not fail to personally support Minister Leishman should the necessity for so doing arise, because the American action will be helpful to British missionary interests. The government here believes the questions between the United States and Turkey will be promptly settled.

Washington, Aug. 12.—The state department has heard nothing from Minister Leishman at Constantinople since last Monday, when he cabled that the porte had promised to see that he received by Thursday the sultan's answer to his representations touching the rights of American citizens in Turkey. If the engagement is not kept the department probably will send additional instructions to Minister Leishman as soon as he officially reports the additional breach of faith. In that event he is expected to go to Smyrna to communicate personally with Admiral Jewell, commanding the European squadron, and perhaps to take up his quarters aboard the flagship Olympia, thus marking a diplomatic crisis.

Automobile Factory Burned.

Elgin, Ill., Aug. 12.—The automobile factory owned by the Fauber Manufacturing company, was almost totally destroyed by fire Thursday. The cause is believed to have been spontaneous combustion, originating in the excelsior department. Roughly estimated, the loss approximates \$40,000. The property was well insured.

To Inspect Navy Yards.

Washington, Aug. 12.—Secretary Morton and party left Washington aboard the Dolphin Thursday for a visit of inspection to northern navy yards. The secretary was accompanied by Mrs. and Miss Morton, Attorney General Moody and Representative Foss, chairman of the house committee on naval affairs. At Newport they will be joined by Speaker Cannon and Miss Cannon.

Declare It Case of Murder.

Nice, Aug. 12.—The body of an American seaman was found in the harbor of Villefranche Thursday. There were wounds on the scalp and four stabs in the eyes. The autopsy showed it was a case of murder. The corpse had been five days in the water. The American vice consul has not yet been able to identify the victim.

Grain Elevator Burned.

Cleveland, O., Aug. 12.—Fire in the grain elevator of the Sheets Bros. company, in the southern portion of the city, Thursday, caused damage to the extent of from \$75,000 to \$100,000. The elevator contained almost 100,000 bushels of grain. The loss is covered by insurance.

## MINNESOTA NEWS.

### Killing Cattle.

Dr. H. S. Ward, executive agent of state live stock sanitary board, said that the board will continue to condemn cows afflicted with tuberculosis, although State Auditor S. G. Iverson has refused to issue warrants reimbursing the owners in accordance with the Krostue bill passed by the last legislature. This means that the cows will be killed, but the owners will not receive anything from the state.

"We shall go on with our work just the same," said Dr. Ward. "We have been killing cows afflicted with tuberculosis at the rate of 75 to 100 a month, and I should say that the average cost to the state was about \$17."

The action of the state auditor in holding up the warrants is on advice of Judge Daniel Fisk of the statute revision commission who says that the Krostue bill authorizing the payment was repealed by the law creating the live stock sanitary board and has brought many protests from Minnesota dairymen who have cows afflicted with tuberculosis. These dairymen say that it was bad enough when the state killed their cows and paid three-fourths of their value.

### Live Stock at Fair.

In the various announcements of Minnesota's great representation in the live stock department at the Louisiana Purchase Exposition it has been stated that the admirable display would be sent to St. Louis early in September. This is true, but it should be remembered that this stock will not go to St. Louis until after the Minnesota State Fair and that it will all be exhibited at the State Fair grounds during the week of August 20th to September 3rd. No one will need to go to St. Louis to see what Minnesota can do in the way of pure bred live stock, and, further, no one need go to St. Louis to see the prize winners at that great show, for a great majority of the animals which will take premiums at the Louisiana Purchase Exposition will have been exhibited at the Minnesota State Fair this year. The Minnesota fair is the only one this year which will have national exhibitions in connection with the American Hereford Cattle Breeders' Association and the American Short-horn Breeders' Association. The fair opens August 29 and closes Sept. 3.

### Mark H. Dannel.

Mark H. Dannel, former congressman and a distinguished citizen of the Northwest, died at his home in Owatonna of heart failure, aged eighty-one years.

Mr. Dannel was born in Buxton, Me., July 2, 1822, of Scotch and English parentage. He was graduated from Waterville college in 1849 and spent the next five years in teaching.

In January 1865, Mr. Dannel came to Winona, Minn., becoming a member of the Minnesota legislature in 1867. At the close of this session he was appointed state superintendent of public instruction, holding that position for three and a half years. He resigned this office upon election to congress in the fall of 1870. He served twelve consecutive years in the national house of representatives. He was retired by a change of political control of his district. He was in private life until 1889, when he was re-elected to congress.

### Wild Cat Spoils Sale.

A half-grown wild cat spoiled the sale of a piece of Minnetonka real estate for P. P. Swenson, a Minneapolis real estate agent, a day or two ago. While Mr. Swenson was showing a prospective buyer and his wife a piece of lake property the cat jumped out of underbrush and cut across the lot, frightening the buyer's wife almost into hysterics and giving the agent and prospective customer something of a scare.

The man was satisfied with the property and so was his wife until the cat made its appearance, after which they took the first train back to the city. Swenson has bought a gun and is looking for the wild cat, and the woman has changed her mind about a summer home at Minnetonka.

### Another Explosion.

A second launch explosion occurred on Lake Minnetonka, and it was only by the rarest good fortune that no lives were lost.

The gasoline tank in Frank Muffet's handsome launch, the Picconetto, exploded with terrific force, while Robert McCune, E. L. Jarvis and C. C. Noble were on their way across the lake, and for a few moments it seemed as if there was to be a repetition of the disaster in which Mrs. George L. Upton lost her life only a few weeks ago.

### News Notes.

Andrew Larson, a veteran of the Philippine war, was run down and killed by Minneapolis street cars.

Owing to the depleted condition of the permanent school fund, the state board of investment has decided to loan no more money at present.

The seventeenth annual convention of the Finnish Temperance Brotherhood of America was held at Hibbing.

A sawmill, to have a capacity of about 10,000 feet daily, together with a planer, matcher, lath and shingle mills, will soon be established near Ashawawa, a new village on the line of the Duluth, Virginia & Rony Lake road.

Three hundred and fifty of the employees of Drake & Stratton and the Killorin-Phillip companies, mine stripping contractors operating on the Mesaba range, struck at different places for an increase of wages.

A barn belonging to Bud Smith, three miles from Austin, was struck by lightning and entirely destroyed.

## A SUCCESSFUL SALESMAN.

Sold Sea Water and When Tide Went Out Purchaser Thought Him a Wonder.

The late Thomas Brackett Reed used to relate the following incident which happened one summer while he was spending a few days in a small fishing village on the New England coast, says the New York Times.

A young countryman who had been advised to take sea baths registered at the village hotel one evening, and shortly afterward sauntered down to the beach. Espying a grizzled old fisherman mending his nets beneath a sign which informed one that B— had boats and tackle to let and bait for sale, he accosted the veteran and asked him if the water was not for sale also. On receiving an affirmative reply the countryman returned to the hotel, obtained a couple of buckets, and having paid the price asked, filled them and returned to his room to carry out the doctor's instructions.

On the following morning he happened down at the beach when the tide was out, and after contemplating the broad receding beaches for some minutes, he accosted his acquaintance the evening before and remarked in a tone of admiration: "Gosh! but you must have done some business last night."

## OMISSION TO BE RECTIFIED.

Expert Testimony Which Condemned Served Also to Enlighten.

Prince Hoheloh, during his recent visit to New York, commended the wines of America. He praised especially the California red wines, which seemed, he said, to be exceedingly pure, relates the Cincinnati Enquirer.

Then, apropos of wine's purity, the prince narrated a recent happening in Berlin.

"A Berlin vintner," he said, "was accused of selling a wine made of chemicals. He was brought to court, found guilty, and fined.

"After he had paid his fine, he approached the chemist whose testimony had convicted him.

"How did you know?" he said, curiously, "that my wine was manufactured?"

"Because it contained no bitartrate of potash," said the chemist. "In natural wines bitartrate of potash is always found."

"Thanks," said the vintner, in a tone of relief. "It will be found in my wines hereafter."

### Explained His Assertion.

By the use of the saline solution the Cheerful Idiot, who had been punished in the law for a previous offense, was relieved.

"What did you mean?" asked the anxious watchers, "when you said that you saw her draw a revolver?"

"Perhaps the statement should be qualified," he admitted, in a dazed way. "She was sketching a merry-go-round, you know."

### Care of the Hair.

It is now generally agreed that many of the shampoos in use are injurious to the hair. The best treatment is frequent brushing and absolute cleanliness. Wash the hair in a lather of Ivory Soap and rinse thoroughly. Let the last water be cool, as it closes the pores of the skin and prevents colds.

### Before It Happened.

"Extry! Extry!" called the newsboy. "All about de terrib' explosion!"

Just at that moment a terrible noise made the bystanders jump, and one of them asked:

"Dat's that?"

"Dat's de explosion," said the newsboy. "Here's de extry all about it."—Herald and Presbyter.
