

# \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

## WHAT IS MY BOY DOING TONIGHT?

The official story

### KEEPING OUR FIGHTERS FIT

Tells in vivid detail of the care the Government is taking of your boy in his off duty hours. A fascinating story of the life in the big cantonments.

Issued by the War and Navy Departments  
Commissions on Training Camp Activities

In a special preface, President Wilson says of this work:

"I do not believe it an exaggeration to say that no army ever before assembled has had more conscientious and painstaking thought given to the protection and stimulation of its mental, moral and physical man-

hood. Every endeavor has been made to surround the men, both here and abroad, with the kind of environment which a democracy owes to those who fight in its behalf."

OFFERED AS A PREMIUM TO SUBSCRIBERS  
"THE TOMAHAWK" for one year.....\$1.50  
"Keeping Our Fighters Fit," the official story of the Training Camps. List Price......95

## Members, Of the Executive And Legislative Committees of the General Council.

Gentlemen:

Notice is hereby given that there will be a meeting of the members of the Executive and Legislative Committees Friday November 29, 1918, at Bemidji, Minnesota, for the purpose of discussing and disposing of business pertaining to the affairs of the Chippewas of Minnesota in general and the questions to be taken up by the Legislative Committee, at Washington, this coming winter, in particular. Discussions of any and all our affairs will not be confined to members of the Committees named and any interested person is cordially invited to attend this conference.

J. G. Morrison Jr.  
President of the General Council of Chippewa Indians of Minnesota.

## "Can Do Everything."

The most talked-of football player in the world today is Joe Guyon, brilliant halfback of Georgia Tech. He is ranked as the greatest all around collegiate backfield man of the present day, and the football world is curious to see what will happen when the two undefeated eleventh, Georgia Tech and the University of Pittsburgh come together November 23 at Forbes Field, Pittsburgh, for united war work benefit.

"There is nothing Guyon cannot do—and do just a little better than his rivals," insist the admirers of the great Indian gridiron athlete.

A year ago Guyon was picked by many for All-American honors. Some who followed his performances through the fall season insisted he was even a greater player than his teammate, Everett Strupper. Guyon, with Strupper, constituted the greatest scoring pair in football togs a year ago and the two of them ripped to shreds every line which they faced.

But this year Guyon, the only remaining member of Georgia Tech's great 1917 backfield, surely has come into his own. With Strupper, Hill and Harlan gone, the brunt of the 1918 Georgia Tech attack has fallen to Guyon.

And the way the Indian has responded is a revelation.

Guyon, as swift as the wind, a fearless player and possessed of prodigious strength, has been an irresistible force against every line he has charged against. No eleven has been able to halt him. He has punctured one line after another with his plunges, ran ends in a bewildering way and handed the forward pass like a master.

Guyon is in almost every play Georgia Tech makes—a tireless worker. When not carrying the ball he usually is heading interference, and when on the defensive, it is his daring tackles that frequently halt attempts of the enemy to race down the field towards Georgia Tech's goal line.

Guyon, who is 24, began his football career at the Carlisle Indian School, taking a "prep" course for engineering work. He is five feet eleven inches tall and weighs 184 pounds.—Seattle Times.

"Can Do Everything," well, that sounds heap much good, really, and to think too that "Joe" is one of our own boys, born, bred and raised here in this village. Of course had he continued to "hang around" here it is probable that like many others of his kindred he would have been branded with the stigma of incompetency by the agency "incompetent court."

Now is the time to pay that subscription.

## Thanksgiving Greetings.

May the Cheerful Tide of Thanksgiving bear Supreme Joys and Blessings Rich and Rare.

## News of White Earth and Vicinity.

"I know not what the truth may be, I tell it as 'twas told to me."

Omar Gravelle, of Red Lake, arrived last Tuesday for a short visit with relatives here.

Joseph Mannypenny, of Odanah, Wis., arrived the first of the week for a short visit with relatives here.

Mr. and Mrs. W. D. Smith, who were stricken with influenza and confined at the agency hospital for a few days, have fully recovered.

NOTICE—If you have received a notice that your subscription to THE TOMAHAWK has expired please call and pay it up if you want the paper continued.

Payment of annuities started here Monday morning. Some annuants received their checks through the mail while others received theirs at the office. The amount is \$18 per capita.

Joe DeGroat, the Ogema barber, came over to White Earth last Tuesday and remained during the day attending to White Earth patrons in his line. Mr. DeGroat will visit this village every Tuesday hereafter and will preside over the barber's chair in the Murry pool room.

Mr. Charles J. Leith, County Surveyor, Mahnomen county, paid White Earth a visit on the 21 inst. he was accompanied by his son, Frank R. Leith, of the U. S. Cruiser, Huntington, who is home on a short furlough. Mr. Leith has another son in the military service, Edward C. Leith, who served as a machine gunner in some of the late terrific battles on the French front, and another son, Joseph Leith, who served as chief shell inspector at the munition factory, Stillwater, Minn. An adopted son, Sergt. Joseph La-jenness, has also served on the French front for over a year.

Archie Libby is assisting in the B. L. Fairbanks Co. store during the payment rush.

Albert Dene, of Mahnomen, a railroad engineer in the U. S. Military service, on the French front, was recently wounded by a shell from a bombing plane and is now confined in a hospital in France. Jimmie Dene, a brother of the above, is a member of King George's guard and served on the French front. Victor Parisian is also a member of the King's guard.

## Make the Most of Pleasures.

Few young people make as much as they should of small pleasures. For many years the standards of enjoyment have been undergoing a change and there is a tendency to think that we cannot have a good time that does not cost money. A girl's education is far from complete till she has learned to enjoy herself simply and without any money expense.—Pennsylvania Grit.

## Love From Everyone.

No matter how wise you are, everyone you meet can teach you something. The young folks who are likely to grow are not the ones who pride themselves on their superior educational advantages, and look down on others from a lofty height. Be teachable. You may miss previous chances if you meet others and pass on without learning anything from them.—Girls' Companion.

## Concerning Eggs.

The word egg occurs six times in the Old and once in the New Testament. Deuteronomy, 22:6; Job, 6:6, and 39:14; Isaiah, 10:15, and 59:5; Jeremiah 17:11, and Luke 11:12. Job 6:6, asks: "Can that which is unsavory be eaten without salt? or is there any taste in the white of an egg?"

## Valuable to Cotton Growers.

A machine has been invented for chopping out young cotton plants, at the same time the crop is being cultivated.

## Great Iceland Coal Fields.

The Iceland coal fields will supply 150,000,000 tons equal in quality to the Scottish coal.

## China's Big Canal.

The Imperial Canal of China has a total length of 2,100 miles, which exceeds that of any other in the world.
