THE BUREAU INDIAN.

(Continued from 1st page.)

Service believe in freedom and citizenship, but like the Indian Bureau, they cannot see that the Indians are ready for such a radical change. They have the same identical reason for not wanting the Indians to be free and enjoy the rights of citizenship. They have been harnessed up with the Indian Bureau so long that they are blind to the best interests of their people. They know very well that if they expressed anything else but the sentiment of the Indian Bureau they would be minus their positions or made so miserable as to force them to resign from the Indian Service.

Again, we say, that Indians who are working in the Indian Service, are working against the best interests of the Indian race. By their saying that "the Indians are not ready for freedom and citizenship" is not to their credit. If that is the judgement of their race, they are in the same boat. Are they not of the same blood and flesh as those whom they mis-judge?

It is plain to see that they are in the Indian Service for a selfish purpose and not to help to elevate their race. Their judgement goes no further than their bread and butter at the expense of having their people held as slaves and outcasts.

They are used as decoys to make the old Indians believe that the Indian Bureau is doing the best thing for them and that they must not think of letting go of the support they have leaned on for fifty years. "Just think, you will have to pay taxes, the white crooks will rob you. You will have to pay your lawyer and everything else. You had better let the Indian Bureau take care of you until you are able and strong enough to attend to your own affairs." This is the whisper given to the old Indians by the Indian employees in the Indian Service. Again, when any bill comes up in Congress for the best interests of the Indians, they are there to oppose the bill. Of course the Indian Bureau is backing them. If the question of abolishing the Indian Office was proposed in Congress, the greatest kind of a noise would come from these Indian employees in the Indian Service. They would be compelled to make a big noise to obey their masters. These Bureau Indians are worthless creatures. They are Indian molley-coddies. If they had any backbone, they would be busy, to see that their people are

freed and enjoy American life. Their duty is to their people and to the welfare of their country, and not be in a position to belittle their race and betray the principles that their race seek for, namely, freedom and citizenship.—Wassaja.

Local Council Elects Delegates.

Pursuant to call by its President, Julius H. Brown, the local council of White Earth met on Tuesday in the School Assembly Hall for the purpose of electing delegates to the annual meeting of the General Council which will be held at Bemidji, Minn., July 11th, next.

Julius H. Brown was re-elected as president of the local council. Henry Selkirk was elected vice-president and Arthur C. Beaulieu secretary. A telegram from Commissioner of Indian Affairs, Cato Sells, requesting that the meeting of the council be postponed, was read to the council, but as the constitution and by-laws of the General Council state that the local councils must meet for the purpose of electing delegates on the first Tuesday in June, the council proceeded to elect the delegates in regular manner.

After an all-day session the following named persons were elected as delegates:

John G. Morrison, Jr.,

The council of Tuesday was the largest representative council of both factions ever held on the White Earth Reservation since the General Council was organized.

A more detailed account will be given in our next issue.

News of White Earth and Vicinity.

"I know not what the truth may be,
I tell it as 'twas told to me."

Attorney F. D. Beaulieu and T. B. Beaulieu were Detroit callers on Monday.

Levi Lego and Joe Santwier were among those from Waubun to attend the council here on Tuesday.

State Senator J. H. Baldwin and party of friends from Frazee, were White Earth visitors the latter part of last week.

PIANO FOR SALE—Good as new, cheap for cash. Inquire of W. F. Dickens, superintendent White Earth Agency, White Earth, Minn.

H. A. Krostue, cashier, First National Bank, Detroit, transacted business in White Earth the first of the week.

A report has reached this village that William Hole in the Day, a member of this reservation who went overseas with the Canadian troops, is now very ill and not expected to live in a military hospital in Montreal, Canada.

Relatives here of Charles Beaulieu, of this village, and who was a member of 151 Field Artillery that did much fighting in France, have just received notice of his death while in action on the French front. For some reason no notice of his death, which, we are informed, occurred so time in October, was ever received by his people here until last week.

One of the interesting features of the 14th of June Celebration this year will be a base ball game between two Indian teams. With the aid of Supt. Dickens arrangements have been made to have the Red Lake Indian Ball Team here during the celebration, and they and the White Earth Indian Ball Team will grapple for honors on the gridiron on both days of the celebration. Don't miss this.
