VOLUME I.

NEW ULM, WEDNESDAY, JANUARY 23, 1878.

NUMBER 4.

## INTERESTING CURRENT TOPICS.

The Chinese in California refuse to work on Sunday, but spend the day playing poker.

At Leipzig an "Anti-adulteration Society" has been formed, and branches will be established in some fifty towns.

The Chicago ministers' meeting discussed all the morning, "The Final Doom of the Wicked," then went, good, jolly fellows that they are, to the Grand Pacific Hotel and had a royal semi-annual dinner.

A curious headstone stands in the old burying ground at Newport, R. I., which chronicles the death of a son and daughter of William and Desire Tripp, "also his wife's arm," amputated Feb. 20, 1776. A representation of the severed member is cut upon the stone.

Salem is the most moral place in New Jersey, being settled chiefly by Quakers. There is only one prisoner in the Salem jail. He is there for stealing hoop-poles. The Christmas services at the jail consisted of the eating by this purloiner of hoop-poles of a large part of a turkey. He ate in solitude and silence.

The very latest "Turkish atrocity" is to be seen in Cheapside, in London, where a peripatetic vendor of penny wares is carrying about a trayful of "Bulgarian ears," made of flesh-colored Indian rubber, and imitating, with frightful fidelity, a human ear several from a human head.

Col. Gordon, "Chinese Gordon," has lately entered into a contract for four steel steamers of small draught. He intends exploring the Albert Nyanza and the rivers flowing into it. The steamers are to be carried as far as possible by water, and are to be composed of several portable pieces of about 200 pounds each, and to be put together on arrival at their destination.

The London Economist says that "Law being in England made mostly through litigation, the casual exigencies of litigation determine what parts of it shall be filled out, and what left incomplete; the fabric of English jurisprudence presents to the legal mind's eye a view not unlike the visible fabric of the new law courts in its present condition—here pinacles receiving the last touch; there walls only rising from the ground."

The following advertisement lately appeared in the Huddersfield (north of England) Daily Advertiser: "Wanted for the sorting room of a rag warehouse, an active man with a thorough, practical knowledge of cotton and woollen rags, and capable of managing about eighty women. To a suitable party a very liberal salary will be given." "And so there ought to be," is Punch's comment thereanent.

In a recent lecture Lord Bute alluded to the remarkable tenacity with which the Welsh stick to their language. There are, he said, twenty-four papers published in Welsh in the principality. Sir Creswell Creswell, the eminent Judge, who had a large experience of Welsh trials, and did not think highly of Welsh veracity, used to express his conviction that they persisted in the language in order to defeat the ends of justice.

Recent sanitaryists staves made in England go to confirm the extraordinary healthiness of the grocery as compared with that of the dry goods trade. The reason is that those employed in the former live, in such airy and the latter in such confined rooms. In one of the great London hospitals a visitor spoke to the House Surgeon about the daughters: "The poor fellows," he said, "have all got colds." "I know it, and regret it," was the reply, "but it is much the less of two evils. Better have colds than air in the least tainted."

According to the correspondence of the Washington Capital the wife of a New York banker appeared the other evening at a party as Capital. The dress was covered on the skirt, so as to make it appear one piece, with one hundred and five-hundred dollar bills. The waist and sleeves were \$1,000 bonds sewed in, and her fingers and ears blazed with diamonds. The tiara was said to have been worth \$80,000, and the total value of the notes and diamonds on her person was \$260,000. Two pages carried her train, and watched lest the jewels and greenbacks should fall to the floor.

## THE WORLD'S DOINGS.

**Crimes, Criminals and Casualties.**  
The manager of Howard's Theatre, Boston, who absconded with the funds, was arrested in Frederickton.

F. B. James, a well-known manufacturer of boilers at Cincinnati, suicided yesterday morning. Cause, financial embarrassment.

Edward Butler and wife, Chicago, have been arrested at St. John, N. B., on the charge of defrauding the relief society, representing that they had been burned out in the great fire here.

Superintendent Voorhees, of the Cheyenne and Black Hills stage line, received a telegram on the 15th from Hillsboro Ohio, announcing the capture of McKenna alias Reddy, the last of the famous road agents who operated on the stage route during last summer. He had settled down, married and bought a farm from the proceeds of the summer's work on the road. His last exploit was June 26th, when \$14,000 was taken by the party of five, all of which McKenna got away with.

Michael Morso on the 14th, at Chicago seriously stabbed State Senator John Buehler, who held a mortgage on Morso's house, transferred the mortgage to another party, who foreclosed and was about to eject Morso. The latter applied to Buehler for assistance this morning, which Buehler refused, whereupon Morso drew a dirk and inflicted a wound in Buehler's intestines. Buehler is in a dangerous condition, but the physicians regard his recovery probable.

A dispatch from Leed City, three miles from Deadwood, says a mob of 250 men, mostly roughs from outside camps, have taken possession of the town. All streets in town have been jumped. All roads leading to the quartz mills are in like condition. A meeting called by the trustees of the town was broken up by a mob electing officers. They passed their own laws, one of which is to the effect that streets should be but twenty feet wide at the present time. The mob are yelling and shooting throughout town. Citizens are arming and organizing to protect life and property.

### Personal and Impersonal.

King Victor Emanuel is sick at Rome, with pleurisy.

Ex-Congressman J. R. Franklin, died in Baltimore, on the 11th.

Alexander Rene Dethon, Republican member of the French Chamber of Deputies, is dead.

Slade, the Spiritualist, has been expelled from Vienna because he was unable to describe his vocation satisfactory to the police.

The attending physician says that unless John Morrissey, New York State Senator, has a change for the better within 48 hours, there would be no use of a change.

The Fenian prisoners recently released, arrived at Dublin Saturday night the 12th, and were greeted by a torchlight procession. From 15,000 to 20,000 people witnessed the reception. Twenty national bands took part in the procession.

Frank H. King, who recently married the pianist, Miss Julia Bigg, denies in toto the truth of an article published in Cincinnati the 18th which states that he had previously to this marriage been entangled in other matrimonial affairs. Mr. King says the story had its origin in malice or ignorance.

The Democratic State committee met on January 15th, preparatory to the State convention to be held next day. The speeches touched upon the policy of the national administration and endorsed President Hayes so far as he adopted the principles of the Democratic party in removing troops from the Southern States.

Assemblyman James H. Taylor, for years a member of the firm of Taylor & Sons, brewers of New York and Albany, has been taken to the asylum for insane. His election to the Legislature is supposed to have affected his mind. He announced of late that he was concerned with great affairs of State, that he was a statesman, and should shape his course in the Legislature on business principles, and on Sunday morning pronounced himself "king of the universe."

### Miscellaneous.

A fire at Wingham Ont., yesterday caused a loss of \$30,000; insurance \$15,000.

Peoria, Ill., has held a large and enthusiastic anti-resumption and silver remonetization meeting.

In the New Orleans billiard Tournament on the 12th, Rudolph defeated Droir by a score of 600 to 471.

The dividends of the consolidated Virginia Stock, are to be reduced upon the recommendation of Superintendent Fair.

The Grand Trunk Railway company is about to establish an accident insurance board for the benefit of the employes and officers.

The distillers of Chicago have passed resolutions favoring a reduction of tax on high wines, to not exceed 50 cents on the gallon.

The bankers of Buffalo, N. Y., have held a meeting and resolved to oppose the Bland silver bill now pending in the United States Senate.

Six car loads of fresh meats, the first lot of Western produce ever shipped from Halifax, N. S., was forwarded on the Circassian on the 13th.

The merchants and manufacturers of Louisville yesterday adopted resolutions fa-

vorable to the passage of the Texas Pacific Railroad bill.

The straw works of Daniel Brown, Wrentham, Mass., burned on the 18th, with the residence of E. B. Parker. Loss, \$75,000; small insurance.

The mother of ex-Gov. McCormick, American commissioner to the Paris Exposition, died at Jamaica, Long Island, on the night of the 11th, aged 66 years.

The Empire pipe line which carries the oil from wells in the oil regions to the railroads, has been purchased by the United Pipe Line for about one million one hundred thousand dollars.

The conference of the paper bag manufacturers, at Philadelphia, resulted in settling the differences between the western and eastern manufacturers, and establishing a uniform schedule of prices and discounts.

Special from Berlin says the government has finally determined to submit to the Imperial Parliament a motion for an increase of the tax and duty on tobacco, as the first step in the general reform of imperial taxation.

The Cousett Iron company, the largest makers of ship-plats in the world, have blown out one of their blast furnaces, and the men employed at another furnace have received notice that their services will not be required at the end of a fortnight.

The governing committee of the Stock Exchange voted to expel Netter & Bonner, who failed after rehypothecating customers and collaterals. Some of the members of the committee were in favor of Sewell being permitted to retain his seat, but at the final vote over two-thirds favored expulsion.

The Chicago creditors of the defunct Protection Life Insurance Company, representing \$225,000 of claims, have filed a petition asking that the company be put into bankruptcy. The intention of the petitioners is to compel the delinquent policy holders to pay assessments due for death losses. The claims against the company amount to about \$320,000.

General freight agents representing twelve railroads held a meeting at Columbus, Ohio, on the 10th, to consider the question of the transportation of ice from lake ports, and to fix a schedule of rates for the same. The rates were fixed from 15 points based on 10 tons per car, all excess to be charged at a proportionate rate, one ton additional, however, to be allowed shipper or consignor to cover shrinkage.

In the hearing before Judge Pardee the application of the insurance commissioner for a receiver for the Charter Oak Life Insurance Company, the counsel or the company asked for ninety days delay to further try the scaling process, which it was thought would be successful. The Judge objected to delay as lapses were forced, with the corporation in such straits, under the form of law, which is as bad as if forced by the managers. Moreover the statute was peremptory. The company must make answer to application by next Saturday, and he thought should grant no further delay, but would have a hearing himself or by a committee.

### Mark Lane Express Grain Report.

The Mark Lane Express of the 15th, reviewing the British corn trade of the past week says: The wheat plant is progressing favorably, and has, as far as can be ascertained, sustained no injury from the recent heavy rains. At the same time, a dry atmosphere and some bright cold weather would be very acceptable to strengthen the seedling plant. But little progress has been made with threshing of late, as may be seen from the quantity of wheat marketed during the past week, farmers' deliveries showing a decrease of 45,000 quarters on those of the corresponding time last year. Much of the supply of home grown grain has also been in poor condition, and this causes prices to be somewhat irregular. In Mark Lane there has been very little business done in English wheat, but in the provincial markets the tone has been rather better, and a moderate amount of activity has prevailed. The upward tendency in values for foreign wheat has received a temporary check owing to unusually heavy importations which reached our shores last Monday, returns showing the arrival of over 111,000 quarters, besides large imports of American and Indian grain.

The calculation of sellers have been somewhat thrown out to arrivals of Russian wheat by way of Revel. Should the season continue mild and Revel remain open, our winter supplies may show an unlooked for increase. Having regard to the fact that Russia is turning all her available produce into gold to enable her to carry on the war, apart from the political considerations the present range of values for wheat appears to be a safe one. As far as can be seen, any material change either way would be the result of political influences.

But even if peace is proclaimed and the Black Sea ports set free, we could not calculate upon receiving supplies much before April. So taking all things together, it is doubtful whether a pacific turn in Eastern affairs would materially affect prices. It must however be confessed that this opinion scarcely obtains with millers. Prices are slightly in buyers' favor, although not notably lower, and the few sales which have taken place have been to supply immediate requirements. Maize off the coast sold more freely on the spot. Mixed American eased slightly, but a revival in demand may occur at any moment, as the stock of sound corn in London is very short. Firmness characterizes the trade for barley and oats with small arrivals at ports of call. The

floating cargo trade has ruled dull for wheat, and rates have declined.

## MINNESOTA LEGISLATURE.

### Twentieth Annual Session.

SENATE, Jan. 15.—A bill was introduced by Senator Langdon prohibiting voting by proxy in mutual insurance companies, and three unsuccessful attempts were made to pass it under suspension of the rules. One thousand copies each of the Governor's message were ordered printed in the Norwegian, Swede and German languages, and five hundred in the French. Several local bills were passed under suspension of the rules.

HOUSE, Jan. 15.—The House met at 3 o'clock. That portion of the Governor's message relating to purchasing seed wheat for grasshopper sufferers was referred to the grasshopper committee with instructions to report a plan, &c. Mr. Rice gave notice of the future presentation of a bill to enlarge the east wing of capitol. A resolution was introduced prohibiting future appropriations of the Internal Improvement fund. A resolution for the appointment of a text book committee went over under notice of debate. A memorial to Congress for the improvement of the Red River was unanimously adopted. The rules were suspended and a bill introduced and passed for regulating the voting by proxy for officers of mutual insurance companies. Adjourned.

SENATE, Jan. 16.—The special order the resolutions favoring remonetization and repeal of resumption act were taken up. Donnelly spoke for an hour and a half in advocacy of the first. Upon conclusion of his remarks, Edwards, of Fillmore, offered a substitute, requiring the government to do the coinage, and limiting the coinage to \$10,000,000 annually, and its legal tender power to \$100. Donnelly accepted the substitute, when C. D. Gillfillan offered an amendment requiring the coinage to be interchangeable with gold, dollar for dollar, and of the standard of 1870. On Senator Edgerton's motion the original motion, the substitute and amendment was referred to the judiciary committee to report to-morrow. The committee on public buildings was instructed to inquire what repairs, if any, of the Normal School buildings are necessary to prevent destruction and loss. The President announced the following standing committees:
