Roemer, arrested at Winona, Minn., on charge of bigamy and put under bonds in one thousand dollars to appear for trial turned up missing, when the case was called, having forfeited his bail and left for parts unknown. On the 8th inst., John W. White, of Wabash, Ind., while journeying over the road from Knightstown to Carthage, Ind., was murdered, his head being split open by three blows of an axe. A Californian has invented an ingenious water faucet, through which if water is drawn it comes out as cold as ice-water. Boiling water placed in any receptacle, and allowed to run through, will be found cool and fit to drink. The faucet contains numerous small tubes inclosed in large ones, and between the outside of one and the inside of the other certain chemicals are packed, which produce the desired effect.

It is said that monks, nuns and popes take new names because of an old-time belief that otherwise they would not live long. The first pope to take a new name on being chosen pontiff was Octavian Conti, in 956, who assumed the name and title of John XII. All the others have followed his example, except Marcellus Servius, in 1755, who ascended the papal throne as Marcellus II. He was young and in robust health, but lived only twenty one days after his election.

Schippers Bros., manufacturers of worsted goods, Philadelphia, have suspended payment with heavy liabilities. They have two large factories and employ over 1,600 hands. King Alfonso opened the session of the Cortes on the 15th inst., and presented the Queen to the representatives of the nation. In the course of his speech he stated that a treaty

The decision of the Chicago Supreme court holding that that portion of the tax levy of 1875, which was for interest on city certificates drawn against the general fund, was illegal and void, is almost the universal theme of conversation in business circles. The situation is discussed in all its bearings, but no one has succeeded in discovering any way by which the bogus certificates could be paid. It could not be done by the issuance of new bonds, for the constitutional limit in that direction had already been exceeded. The city is really left in very bad plight by the decision.

Miss Susan Dickie, who had for several years been detained in a lunatic asylum, was a few days ago brought before a commission in New York, because her brothers and sisters found it necessary to have some one empowered to represent her in their contest over their father's will. The commission found the young woman sane, but so injured by long confinement as to require that, for the present, some one should be appointed to watch over her interests. The evidence, the commission reported, clearly indicates that to no one of the brothers or sisters should her interests be committed.

The Dominion parliament was opened with a speech from the throne by the Governor General. He alluded with satisfaction to the settlement of the fishery question, and referred in the following language to the American Indians on Canadian soil. Early in the past summer a large body of Indians under Sitting Bull, from the United States, crossed into British territory to escape from the United States troops, and have since remained on the Canadian side. The United States government made a friendly but unsuccessful attempt to induce these Indians to return to their reservations. It is to be hoped such arrangements may yet be made as may lead to their permanent peaceful settlement, and thus relieve Canada of a source of uneasiness and heavy expenditure.

CONGRESSIONAL.

SENATE, Feb. 11th.—A large number of petitions and memorials for and against the passage of the Bland silver bill were presented and laid on the table, or referred. Bills were introduced and referred. The senate voted to meet with the house to day to receive the picture presented by Mrs. Thompson. The bill to provide that United States district courts for the southern district of Iowa shall be held at Burlington was reported favorably. Mr. Saunders presented a remonstrance of citizens of Omaha and Council Bluffs against the Chaffee bill. The silver bill came up and Davis, of West Virginia, spoke in favor of it. Saulsbury and Coke followed on the same side.

HOUSE, Feb. 11.—The Alexandria mill claim bill was disposed of by laying on the table a motion to reconsider. A large number of bills were introduced. The house adopted a resolution to meet in joint session with the senate to-day to hear presentation and acceptance speeches on the gift of Carpenter's picture by Mrs. Thompson. Mr. Clark offered a resolution thanking Gen. Miles for his gallant Indian campaign. The West Point appropriation bill was taken up and the motion to strike out the amendment allowing additional pay to instructors defeated. After further discussion of the bill and the rejection of an amendment reducing the pay of cadets, the house adjourned.

SENATE, Feb. 12th.—Petitions and committee reports were presented. Bills were passed constituting a commission to report upon plans for enlarging the library, and appropriating \$375,000 to purchase the building of the Freedman's savings bank. Resolutions of State legislatures were presented, among them those from Minnesota favoring extension of time to the Hastings and Dakota railroad. Bills were introduced, and the silver bill was taken up, speeches being made by McDonald and Johnson, with an intermission to join the house in hearing speeches upon Carpenter's picture.

HOUSE, Feb. 12.—No legislative business was done except a brief consideration of the West Point appropriation bill. The senate then joined the house to witness the formal presentation of Carpenter's painting of signing the emancipation proclamation. Speeches were made by Garfield and Stephens.

SENATE, Feb. 13.—Bills and petitions were presented. The petition to employ the surplus of the Chinese indemnity fund for the relief of sufferers from the famine in China was reported adversely. A resolution was adopted calling on the secretary of the interior for information as to the payment of pensions in the south. The bill for holding the United States court in southern Iowa was passed Merrimon, Saunders and others spoke on the silver bill. It was unanimously agreed that debate should close and a vote be taken Friday.

HOUSE, Feb. 13th.—The house spent most of the session in committee of the whole on the military-academy bill. Several amendments tending to cripple the academy were rejected. A heated discussion took place between Hewitt and Aiken, of South Carolina, and the other southern members regarding the attacks of the latter upon West Point, Aiken of cowardice and selling the presidency, and Hewitt, defending himself and saying it was a southern man, J. Madison Wells, who offered to sell the presidency to him. The debate

caused much excitement and amusement on the Republican side.

SENATE, Feb. 14.—After a brief discussion the house joint resolution declaring that a reduction of the tax on distilled spirits is inexpedient, passed, yeas 40, nays 9. Mr. Jones of Nevada then spoke at length on the Bland silver bill.

HOUSE, Feb. 14th.—Mr. Gibson rose to a question of privilege and made a speech in reference to the discussion of the previous day. The speaker laid before the house a communication from the secretary of the treasury stating that the internal revenue of the government had fallen off \$4,968,000, principally on account of the agitation in regard to the tax on tobacco and whisky, and recommending the house to take immediate action on the subject. The communication was discussed at length, some members resenting it as a dictation, and finally the house passed to the consideration of the military academy bill, which was passed as it came from the committee of the whole. The house then considered the bill for the payment of pensions to Mexican and other veterans, and adjourned.

SENATE, Feb. 15.—Petitions were presented, among them one by Windom to permit the Sioux Falls railroad to extend its line into Dakota to Sioux Falls; and the memorial of the Minnesota legislature for an appropriation for the Red River of the North improvement, by McMillan. The senate then took up the Bland silver bill, and Mr. Ingalls spoke in favor of it. Mr. Allison then closed the debate, and the question recurred on amendments, some verbal and minor ones being adopted. The amendment requiring a certain proportion of custom duties to be paid in gold was rejected—21 to 46. Other amendments were rejected. The amendment of the finance committee, striking the free coinage clause out of the house bill, was adopted—49 to 22, the amendment for an international coinage conference adopted, and the bill passed.

HOUSE, Feb. 15th.—Mr. Stephens, of the coinage committee, reported a resolution in favor of an international coinage conference. Private bills coming up, one appropriating \$375,000 to pay certain southern mail contractors caused some discussion, but without action the house adjourned till Monday.
