Something for the New Year.
The world renowned success of Hostetter's Bitters and their continued popularity for a quarter of a century as a stomachic, is scarcely more wonderful than the welcome that greets the annual appearance of Hostetter's Bitters. This valuable medical treatise is published by Hostetter & Smith, Pittsburgh, Pa., under their own immediate supervision, employing 80 hands in that department. Ten cylinder printing presses, 8 folding machines, 5 job presses, etc., are running about eleven months in the year on this work, and the issue of same for 1879 will not be less than ten millions, printed in the English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish languages. Refer to a copy of it for valuable and interesting reading concerning health, and numerous testimonials as to the efficacy of Hostetter's Bitters. Amusement, varied information, astronomical calculations and chronological items, etc., which can be depended on for correctness. The Almanac for 1879 can be obtained free of cost, from druggists and general country dealers in all parts of the country.

"What are you going to do about it?"
Because the penalties of physiological laws are not executed speedily, some fancy they are void. But when the system breaks down, and almost hopeless complications arise, which the family physician, by reason of his limited experience, fails to relieve, the pertinency of the above inquiry is apparent. Many remedies have been specially prepared for these cases, and many physicians are bidding for their patronage. As before making a purchase of land, a "search" is required, and the title carefully examined, so invalids should carefully investigate the claims of any physician offering to treat chronic diseases. Dr. Pierce's family medicines are well known, and have effected many cures where eminent physicians have failed, yet to accommodate surgical and complicated cases, and those desirous of being restored speedily, Dr. Pierce has erected an elegant sanitarium, at a cost of nearly half a million dollars. No institution in the world offers advantages superior to those found in this establishment. Half a score of physicians are in attendance, several of whom have been prominently connected with leading American and European Hospitals. Every improved facility for hastening a cure that a liberal expenditure of money could secure can here be found. Before fully deciding where to go, address Invalids' and Tourists' Hotel, for circular.

No FAILURES are RECORDED of the famous outward specific, HENRY'S CARBOLIO SALVE. It is invariably successful in healing sores, curing eruptions, removing proud flesh, and overcoming suppuration and inflammation. These sanative results it accomplishes without leaving any scar or discoloration of the skin. As a local application for chronic Rheumatism, sore throat and tightness of the chest, it is also highly spoken of. Sold by all Druggists.

For upwards of thirty years Mrs. WINDLOW'S SOOTHING SYRUP has been used for children with never failing success. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, cures dysentery diarrhoea, whether arising from teething or other causes. An old and well-tried remedy 25 cts. a bottle.

Read the Following:

Dr. D. D. Wright, of Cincinnati, sends us the subjoined professional endorsement: "I have prescribed Hall's Balsam in a large number of cases, and always with success." He adds that "I have seen a patient with every appearance of confirmed Consumption, was restored to his usual health soon after commencing to take the Balsam."

John Kuhn, of Lafayette, Ind., writes: "One year ago I was to all appearances in the last stage of consumption, and got so low our doctor said I could not live twenty-four hours. Mr. Kuhn further states that after taking nine bottles of **HALL'S BALSAM** he is now in perfect health, having used no other medicine."

The above brief extracts are taken from a

THE NEW YORK SUN FOR 1879.
THE SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past. To present all the news in a readable shape, and to tell the truth though the heavens fall.

THE SUN has been, is, and will continue to be independent of everybody and everything save the Truth and its own convictions of duty. That is the only policy which an honest newspaper need have. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American journal.

THE SUN is the newspaper of the people. It is not for the rich man against the poor man, or for the poor man against the rich man, but it seeks to do equal justice to all interests in the community. It is not the organ of any person, class, sect, or party. There need be no mystery about its loves and hates. It is for the honest man against the rogue every time. It is for the honest Democrat as against the dishonest Republican, and for the honest Republican as against the dishonest Democrat. It is not for the utterance of any politician or political organization. It gives its support unreservedly when men or measures are in agreement with the Constitution and with the principles upon which this republic was founded for the people. Whenever the Constitution and constitutional principles are violated it speaks out for the right. That is THE SUN'S idea of independence. In this respect there will be no change in its programme for 1879.

THE SUN has fairly earned the hearty hatred of rascals, frauds, and humbugs of all sorts and sizes. It hopes to do that in the year 1879, and it has done so in 1877, 1876, or any year since. It is printed for the men and women of to-day, whose concern is chiefly with the affairs of to-day. It has both the promptness, fullest, and most accurate intelligence of whatever in the wide world is worth attention. To this the resources belonging to well-established property will be liberally applied.

The present disjunct condition of parties in this country, and the uncertainty of the future, lend an extraordinary significance to the events of the coming year. To present with accuracy and clearness the exact situation in each of its varying phases, and to expound, according to its well-recognized methods, the principles that should guide us through the labyrinth, will be an important part of THE SUN'S work for 1879.

We have the means of making THE SUN, as a political, a literary, and a general newspaper, more entertaining and more useful than ever before; and we mean to apply them freely.

Our rates of subscription remain unchanged. For the DAILY SUN, a four-page sheet of twenty-eight columns, the price by mail, postage paid, is 25 cents a month, or \$6.50 a year, or including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or \$7.75 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at \$1.50 a year, postage paid. The SUNDAY SUN, in addition to the current news, presents a most entertaining and instructive body of literary and miscellaneous matter, in bulk twice as great, and in value not inferior to that of the best monthly magazines of the day, at one-tenth of their cost.

The WEEKLY SUN is especially adapted for those who do not take a New York daily paper. The news of the week is fully presented, its market reports are furnished to the latest moment, and its agricultural department, edited with greatest care and ability, is usually passed. The WEEKLY SUN is probably read to-day by more farmers than any other paper published. A complete story of the week is carefully prepared, and appears in each issue. The Weekly protects its readers by barring its advertising columns against frauds and humbugs, and furnishes more good matter for less money than can be obtained from any other source.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is a year, postage paid, for the home of the sender \$10 we will send an extra copy free. Address: I. W. ENGLAND, Publisher of THE SUN, New York City
