sage, hams, lard, etc., constantly on  
hand. All orders from the country  
promptly attended to.

**CASH PAID FOR HIDES.**

## WASHINGTON LETTER.

Washington, July 17th, 1885.

This is the season of the year that  
Washington is usually to a great extent  
deserted. Government employes are  
off on vacation, and the Departments  
are crowded with applications for  
leave. But this year there is a re-  
markable dearth of such applications.  
For one season at least Washington  
seems to be a popular summer resort.  
The explanation is that the govern-  
ment employes, notwithstanding the tropi-  
cal heat, feel more comfortable in Wash-  
ington just now than they would at the  
coolest resort in the country, with the  
perpetual fear of receiving word from  
Washington that they had been dis-  
missed.

There is a disposition on the part of  
some of the Cabinet officers to discon-  
tinue the allowance of sick leaves un-  
der pay to employes in the depart-  
ments. An impression prevails that  
serious abuses have grown up in con-  
nection with the allowance of such  
leaves, and it is believed that the sys-  
tem should be re-arranged, so as to en-  
able the distribution, among monthly  
employes who are working extra hours  
in addition to rendering steady service  
throughout the year, of the money that  
is now paid out during sick leaves to  
that class of employes who lose many  
days—sometimes exceeding 150, in each  
year—from alleged disability. It is  
probable that these views may take  
practical shape in a general order gov-  
erning the allowance of leaves in all  
the executive departments.

The Professors of Agriculture who  
met here during the week at the re-  
quest of Commissioner Colman, were a  
fine looking body of men, and they evi-  
dently understand their business. Their  
discussions brought out some very in-  
teresting facts, however. One of these  
was that out of forty-nine farmers in  
the Legislature of Tennessee only two  
could appreciate the value of the re-  
ports of the signal service. Forty-seven  
voted against them. What was the reason?

The Professors thought it came from  
the fact that the reports are too techni-  
cal and extended in their nature. The  
farmer is not generally speaking a  
reading man. Many farmers can only  
find time to read the most simple and  
abbreviated matters. It was generally  
agreed that the thing necessary to make  
such work successful was frequent pub-  
lication in a simple, and practical  
form.

One of the most interesting and strik-  
ing things that was brought out in the  
discussion was the opposition that pre-  
vailed in regard to the present method  
of distributing seeds by Congressmen.  
It was shown that ignorance that had  
been displayed in this way was serious  
in its results. Insects and plant dis-  
eases, very deleterious in their nature,  
had been distributed far and wide,  
and in many instances more damage  
than good has been done. It was urged  
that this distribution ought to be  
made by the Commissioner himself who  
is supposed to know much more about  
such matters than the Congressman  
can. He has the means of knowing the  
various soils, and the kinds of seeds  
that will flourish in them. So on the  
whole the meeting was a grand success.  
It gave an opportunity for the free in-  
terchange of opinions and information  
and established a closer relationship  
between the colleges and the Depart-  
ment. When the plan for interchange  
of information is fully perfected great  
additional good will follow.

The President Saturday became the  
guest of the Woodmont Rod and Gun  
Club. The party consisted of Secretary  
Manning, Secretary Lamar, Secretary  
Whitney, and Postmaster General Vil-  
las. They spent Sunday very quietly  
at the charming club house in the  
mountains, and the President enjoyed  
his visit very much. Mr. Arthur was  
the first President who was entertained  
by the Club.

## MINNESOTA NEWS.

John Hawkinson, one of the oldest  
settlers and teachers of Le Sueur coun-  
ty, fell dead in the school room last  
Friday, at Cordova.

The bullet in the head of Chamber-  
lain, the would-be murderer and suicide  
at Mankato, was cut out and he will  
recover only to be totally blind.

The residence of Charles A. Wright  
of Waseca was entered and robbed of  
\$125 in cash and a fine gold watch and  
chain taken from the room where Mr.  
Wright and wife were sleeping.

The new St. Paul directory contains  
48,960 names. That of Minneapolis  
only 42,250. Being dead, a good many  
yet speak through that popular me-  
dium of fictional communication.

A cyclone is reported to have crossed  
Rock Dell demolishing fifteen barns  
and dwelling houses in its path and  
making a clean sweep of crops. The  
roar of the storm was very plain at  
Rochester, causing much excitement.

For the first six months of this year  
the State Treasurer placed on his  
books to the credit of the general school  
fund \$61,504.50, coming from interest  
on bonds; also \$6,237.50 to the univer-  
sity fund, coming from the same  
source.

The time of year for reaper accidents  
has arrived and the Le Sueur News  
comes to the front with the first one. A  
son of John Kuske of Rush River had  
his right leg cut off just between the  
knee and ankle by a mower one day  
last week.

The funeral of the Rands and Coy-  
kendalls, the victims of the recent Lake  
Minnetonka disaster, was the most im-  
posing pageant ever witnessed in the  
northwest. There were nearly 400 car-

riages in line, besides several societies.  
St. Paul, also, was well represented.

The little steamer that sank with the  
Rand family on Lake Minnetonka is  
said to have been in good condition, but  
her carrying capacity was limited to  
eight persons, while there were ten on  
board when she sank. It is probable  
that she was struck by a squall on the  
side, and at once upset.

## NEW ULM AND VICINITY.

### PERSONAL MENTION.

—Albert Hagberg visited Tracy last  
Thursday on business.

—John Hauenstein and his daughter  
Louisa returned home last week from  
their visit to Duluth and Superior.

—Hon. John Lind took up his perma-  
nent residence in this city last Fri-  
day. John, we all extend a welcoming  
hand.

—Aug. Forster, son of Fr. Forster of  
this city, arrived home from Texas last  
week. He expects to remain here for  
some time.

—Henry J. Luders and family of Chi-  
cago arrived in our city last Friday  
evening. They will remain here a  
month or six weeks.

—H. A. Subilia, Jr., came down from  
Tracy one day last week to keep up old  
acquaintanceship. Henry has an en-  
gagement as instructor of the Tracy  
brass band.

—Mrs. Traeger and son Adolph of  
Minneapolis are visiting with relatives  
and friends in this city. They are the  
guests of Mr. and Mrs. John Hauen-  
stein and will stay about two weeks.

A lady writes: "I have used Ayer's  
Sarsaparilla in my family for many  
years, and could not keep my house with-  
out it. For the relief of the pains con-  
sequent upon female weakness and  
irregularities, I consider it without an  
equal."

As Miss Sarah B. McDonald of Bos-  
ton was eating her dinner Tuesday, she  
was astonished by finding a canary  
bird in the center of a boiled potato  
which she had cut open. The feathered  
songstress was about an inch long, fully  
developed, with beak, body, wings and  
tail.

Not a particle of calomel or any other  
deleterious substance enters into the  
composition of Ayer's Cathartic Pills.  
On the contrary, they prove of special  
service to those who have used calomel  
and other mineral poisons as medicines,  
and feel their injurious effects. In such  
cases Ayer's Pills are invaluable.

The secretary of the treasury receiv-  
ed a letter from a resident of Riga,  
Russia, enclosing a \$100 note of the  
confederate states, which he says he  
inherited from his uncle, and wants it  
exchanged for currency. The note has  
been returned to the sender with the  
information that it is worthless.

### A Great Discovery.

Mr. Wm. Thomas, of Newton, Ill.,  
says: "My wife has been seriously  
affected with a cough for twenty-five  
years, and this spring more severely  
than ever before. She had used many  
remedies without relief, and being  
urged to try Dr. King's New Discover-  
y, did so, with most gratifying re-  
sults. The first bottle relieved her  
very much, and the second bottle has  
absolutely cured her. She has not  
had good health for thirty years.

Trial bottles free at the City Drug  
Store. Large size \$1.00.

Four horses of Mr. Jacob Hinkle,  
near Grand Prairie, Kans., were killed  
on one flash of lightning last week. One  
of the horses was split open and torn  
all to pieces.

### Never Give up.

If you are suffering with low and de-  
pressed spirits, loss of appetite, general  
debility, disordered blood, weak constitu-  
tion, headache, or any disease of a billi-  
ous nature, by all means procure a bot-  
tle of Electric Bitters. You will be sur-  
prised to see the rapid improvement  
that will follow; you will be inspired  
with new life, strength and activity will  
return; pain and misery will cease, and  
henceforth you will rejoice in the praise  
of Electric Bitters. Sold at fifty cents a  
bottle by C. L. Roos.

Erysipelas is a dangerous disease.  
Not infrequently does it take such a  
form as to carry off its victim after a  
period of intense suffering. Charles R.  
Lucers, of Zanesville, Ohio, writes: "For  
three years my wife has been suffering  
from erysipelas. She has tried numer-  
ous physicians but received no benefit  
from any of them. She commenced  
using Mishler's Herb Bitters about a  
month since, and is now entirely well."
