

## NEW ULM AND VICINITY.

A Mr. John Potter has opened a wire mattress manufactory in Henry Frenzel's building, on Centre street.

Jack-rabbits are reported to be quite numerous in the town of Lafayette. A son of Mr. Wellner shot three last Saturday, in less than an hour.

Under the new tax law the tax duplicates will not be turned over to the county treasurer until January 1st. Under the old law taxes were collectable on December 1st.

The annual meeting of the Minn. Valley Medical Association will be held next Tuesday, in Mankato. Dr. Berry, and probably some of the other M. D.'s of this city, will be in attendance.

H. A. Subilia, Jr., and A. G. Wagner have organized a new string band and are prepared to furnish music for balls, concerts, etc., on short notice. Engagements can be made with either of the above named gentlemen.

A special to the *Globe* says that the people of Fairfax and vicinity are impressed with the idea that the land grant of the Winona & St. Peter railroad company will be forfeited. The panic seems to be spreading.

The Board of Education has at last succeeded in finding a competent teacher for the high school class. His name is W. F. Dodel and he hails from Butternut, Wis. He was selected last Friday, from 74 among applicants.

An Ohio engineer has made an examination of the route between the lakes Big Stone and Traverse, and reports that by using the river bed a canal sixty feet long, with one stone lock, could be built for less than \$100,000.

W. P. Christensen, the newly appointed register of the land office at Redwood Falls, is a resident of Olivia, Renville county. He has been the State Senator from Renville county for two sessions, and is a representative of the young Democracy.

The health officer of New Ulm complains that the order of the Board of Health, recently published, is not complied with. The board threatens to make an example of some one, unless cases of contagious diseases and death from same are promptly reported to the board.

Report from "headquarters" says that the controversy over the New Ulm postoffice has been settled; that the "bosses" have joined in one recommendation, and that the successful candidate's name will be announced in two weeks. All the candidates have polished up their lightning rods and are expectantly awaiting the electric shock.

The New Ulm scribe of the *Sleepy Eye Herald* pokes fun at the *REVIEW* editor because a lone rooster was the outcome from a setting of eggs, presented us last spring. Well, that rooster is a Republican bird and when next fall he gets up on the topmost rider of a rail fence and heralds a victory for the g. o. p., the *Herald* man won't think it so funny.

A band of Bavarian musicians, making a tour of the United States, reached New Ulm last Friday forenoon. During the afternoon of that day and Saturday they furnished our people with some excellent music. The members of the band are all first-class musicians, and render the most difficult selections with harmony and precision. They left for the east on the Tuesday a. m. train.

We supposed that the case of D. Dingler against Gieseke now in the Supreme Court was settled, but we see by yesterday's *Pioneer Press* that a day has been set for its trial in the Supreme Court. The suit, as will be remembered, is to ascertain whether Mr. Dingler is entitled to have his judgment satisfied out of the property occupied by Mr. Hoescheler, to the exclusion of the other creditors.

Tom Bowen objects to the term "boss." When men get up in political meetings and announce with a flourish of trumpets that "I" have done so and so; that "we" have done so and so; that "if it hadn't been for us these things wouldn't be thus," it smacks very strongly of bossism. But then, Tommy got so badly left in that collectorship business that he probably has concluded that his "power" as a Brown county boss don't count for much anyhow with the boys at headquarters.

No new cases of diphtheria have been reported since our last issue. The report that a case existed in the family of John Hirsch was happily without foundation. The seven-year-old boy of Mr. Lang, reported ill with diphtheria last week, died on Thursday; but the attending physician is in doubt whether death ensued from the disease or from a dose of kerosene oil administered to the patient on the advice of a neighbor. Another loathsome fluid, but harmless in its nature, was also given to the sick child, unbeknown to the physician in charge. Is it any wonder that death ensues under such circumstances?

## Thanksgiving to-morrow.

Don't fail to take in the Silver Cornet Band Thanksgiving ball at Turner Hall, to-morrow evening.

Senator Peterson informs a *Dispatch* reporter that he does not want an extra session of the legislature.

The boys are burning off the grass in the slough between First and Second South streets preparatory to flooding the slough for a skating park.

The chicken and waffle supper at Mrs. Newhart's residence last Wednesday evening, was a grand social success. The supper netted the Congregational society about \$30.00.

The special city election for a successor to Councilor Brust, resigned, occurs next Tuesday. Candidates are numerous, but no effort at concentration has yet been attempted. It seems to be a free for all race.

On Tuesday evening, January 19th next, Hecker Post No. 48 G. A. R. will publicly install the new officers of the Post. A camp-fire and social hop will follow the installation. A committee is now working up a programme.

Married, at the residence of the bridegroom, in the town of Leavenworth, on Sunday, November 22, 1885, by Justice John Huiras, Mr. E. C. Brown to Miss Mary Frederickson, of Prairieville. Congratulations of friends are extended.

The Minnesota branch of the National Railroad Agents association was organized at Owatonna last Wednesday. Agent Heideman of this city had made all preparations to attend the meeting, but was prevented from so doing at the last moment.

A great many chickens have died this fall in various parts of the Minnesota Valley by a disease supposed to be chicken cholera. The St. Peter *Herald* recommends a teaspoonful each of soda and sulphur in a quart of milk as a sure cure.

The water-ways committee of the Mankato Board of Trade have decided to call a convention, at Mankato, and have sent out a circular letter to ascertain the wishes of the people along the river towns as to the time best suited their convenience. The convention will probably be held in the last half of December. As there is no organized body of business men in this city, the city council will no doubt take the matter in hand and designate a few live business men to represent New Ulm in the convention.

St. Peter Tribune.—Mr. A. Bogen, son of the editor of the New Ulm Post, was in town Monday and was seen in mysterious conference with "Jack." What's in the wind now? Can it be that there is a new candidate for the New Ulm postoffice? Yes, Mr. B. had a postoffice bee buzzing around under his hat, but on second thought he concluded the office wasn't worth having anyhow, and the contest has simmered down to a three-cornered fight. All the candidates are now playing their trump cards, and all three are confident of the last trick.

The Chicago & Northwestern does not propose to give its trainmen a chance to lodge a complaint of unfair treatment against the company. The new schedule which goes into effect December 1st, increases the salary of third-class conductors to \$60 per month; second-class, \$70, and first-class, \$75. Brakemen will receive \$45 and \$50 per month. The regular run is 100 miles a day and all mileage in excess of that will be credited as extra, and extra pay will be allowed. As long as the company shows such a liberal disposition towards its employes, the patrons of the road will not be discommoded with a strike.

A case of infanticide is reported from the town of Cornish, Sibley county. It appears that Miss Helga Sanders, aged about 20 years, gave birth to a child unknown to the members of the family in which she was employed as a servant, and to hide her shame she killed and buried her offspring near the house. Subsequently she exhumed the body and threw it into a slough. The family noticing something wrong with the girl, she was questioned as to the cause of her distress, and last Saturday she confessed having killed her new born child and the subsequent disposal of the body; but says she did not realize the heinousness of her crime until after the deed had been perpetrated. In her excitement she did not closely observe the place where she threw the body into the slough and now she is unable to find it. That now she is nearly distracted may well be imagined. The matter will no doubt be brought to the attention of the officers of Sibley county.

Throat-ail seldom gets well of itself, but deepens until it undermines the constitution, wastes away health, strength and flesh, and finally fastens itself on the lungs, completing the wreck and ruin of the whole man. Dr. Bigelow's Positive Cure is the only safe, sure and speedy remedy for coughs, colds and all throat and lung diseases. Sold by Druggists, at fifty cents and one dollar. Pleasant to take and safe for children. [4]

## New Ulm Actors Abroad.

Pioneer Press:

At Turner hall, Minneapolis, Saturday evening, and at the St. Paul Athenaeum last evening, the dramatic section of the New Ulm Turners' society presented the famous farcical comedy by the brothers Schonthan, "Der Raub der Sabinerinnen." It would be unjust to judge the acting of amateurs by a severe standard. It may be said in general that there was a lack of that well-marked characterization and lively action necessary to the best presentation of a comedy which largely depends for its effects upon the "go" put into it. E. G. Pahl looked the professor better than he played the character. Miss Theresa Fay was excellent as the professor's termagant wife, and Miss Ida Mueller was putting pleasing as Paula. G. W. Scherer's dialect was the best part of his delineation of the manager. The other characters were taken by F. Pfender, A. Seiter, Sr., G. Fischer, W. Peterman, Miss Emilie Fay and Miss Bertha Fischer.

Volkszeitung:

Never before this year has the Athenaeum been so crowded as it was yesterday evening, on the occasion of the presentation of the comedy "Der Raub der Sabinerinnen," by the dramatic section of the New Ulm Turnverein, and a more hearty reception has never been accorded the most renowned players. The piece offers so many comic scenes that the audience was kept in continual laughter. As good players distinguished themselves E. G. Pahl, Geo. W. Scherer and A. Seiter, Sr. The best played lady characters were those by Miss Ida Mueller (with her musical voice) and Miss Theresa Fay, who was brilliant as the professor's wife. But all players done their best and the boquets presented to the ladies were well earned.

The editor of the *REVIEW* is informed that our players were greeted by a very poor house in Minneapolis, only about \$80 being taken at the door. At St. Paul over \$300 was taken in, and the actors can not say enough in praise of their reception and treatment in the saintly city.

What is the matter with the mail agents on the Winona & St. Peter road? Of late it has been of frequent occurrence that eastern mail is thrown into our postoffice from trains from the west. This shows very conclusively that the mail has been carried by, and is a very unsatisfactory state of affairs. If the force is insufficient to work up the mail properly, they should be given additional help, if, on the other hand, it is the result of carelessness or incapacity, the delinquent agents should be given the g. b.

The *Sleepy Eye Herald* criticizes Judge Webber because he did not hold the term of court in Redwood county open for two or three days, and until the attorneys for Mr. Alexander, indicted for murder, were ready to go to trial. We are reliably informed that this is never done, and although in the power of the Judge to do so, it would be an exceedingly bad precedent to establish, saying nothing of the unnecessary costs that would be saddled upon the county. The insinuation that Judge Webber is an unfeeling man, and would knowingly do a criminal an injustice, is uncalled for, to say the least. All of Judge Webber's acquaintances will bear us out in the assertion that he is a most conscientious man, and that he has discharged his every duty as Judge in a spirit of fairness. It is not necessary for his honor to place himself in the prisoner's position "for an instant" to define his duties as Judge.

The Illinois Farm and Fruit Grower tells of a new racket that is being worked on the farmers. Here it is:

"A traveling agent of a butter firm is going through the country selling rights to make butter by the aid of a recipe. He sold one to a gentleman in Williamson county, and although the gentleman saw the agent make the butter, he failed to do it after repeated trials. The plan is to take a few pounds of good butter, say four pounds, add it to two gallons of milk which has been setting for a certain time, and then churn together. He claimed that the amount of butter would be doubled and he did produce that effect in the presence of several persons. This was done by simply adding something to the milk to make it curdle, and then by gentle churning he mixes the mass of butter with the curds of milk, leaving but a small quantity of serum in the churn. It is an ingenious contrivance, and is well calculated to deceive the unwary, as it looks and tastes like butter. A lady friend who was present, after the agent left, went to work on the butter and reduced it to its original bulk, barring a few ounces. Now, of all butter frauds, this is one of the shrewdest and most easily imposed on dairymen, and yet it is perfectly worthless to those who buy the right. It is well calculated to deceive both dairymen and consumer. The butter made by this process is really a mixture of butter and cheese. It very quickly becomes decomposed if left standing."

A life of indolent ease and sensuality, the use of highly seasoned animal food, and alcoholic drinks are the predisposing causes of Gout. When aware of its presence in the system lose no time in procuring Salvation Oil. It kills pain. Price 25 cents a bottle.

An effort is making looking toward the organization of a Board of Trade. Below see the call for a meeting.

Just as we were about ready to go to press a call for a caucus was handed in, which appears elsewhere in this issue.

NEW ULM MARKETS:—Wheat, No. 1, 72; No. 2, 69; oats, 20; corn, 25; barley, 35-45; potatoes, 35; onions, 60; butter, 10 to 15; eggs, 16.

Mr. Kuetzing announces in this issue the receipt of a large stock of holiday goods. Don't fail to look in on him when out shopping.

## PERSONAL MENTIO.

—County Attorney Somerville visited our city professionally last Wednesday.

—Horatio Werring, the Golden Gate merchant, looked in on us last Saturday.

—Miss Lena, daughter of Mr. Henry Mueller, has returned home after a three years' absence in Chicago.

—State examiner Knox gave our county offices an overhauling one day last week. Everything was found in apple-pie order.

—Charley Morse, the genial editor of Lake Benton News, tarried in our city a couple of days last week. Charley was under the wings of the sheriff of Lincoln county, but he only took him along to keep the bull-dogs off.

—Counselor John Lind attended court at St. James last week. He also attended to some business before the supreme court in St. Paul. This week he is dividing his time between Beaver Falls and Henderson. He certainly has his hands full of legal biz.

## NEW ADVERTISEMENTS.
