WASHINGTON LETTER.

Washington, D. C., July 27, 1888
Senator Sherman called up, and the
Senate passed, on Saturday, the bill to
reimburse the depositors of the Freed-
man's Bank for losses incurred by the
failure of that concern. It would be
but an act of justice for the House to
pass this bill.
Senators Chandler and Teller made
speeches against the fisheries treaty last
week.
The Mills tariff bill was passed by the
House on Saturday, by a vote of 162 to
149. Only four democrats, Messrs
Bowden, Merriman, Greenman, and
Bliss voted against the bill. It now
goes to the Senate to meet its death at
hands of the friends of American labor
and industry.
All hopes of an adjournment before
September have been abandoned by
members of Congress, and not a few of
them say they are likely to be here in
October.

There's a pretty little row in the de-
mocratic national committee, to begin
the campaign with, Mr. Brice, who pur-
chased the chairmanship of the execu-
tive committee, by making a campaign
contribution of \$500,000, and Mr. Bar-
num, who was made chairman of the
national committee for the purpose of
trying to prevent the free trade plat-
form adopted at St. Louis, stamped-
ing the protective democrats, are both
hoping mad; they say that Cleveland
and Dan Lamont have taken everything
in their own hands, and that they (the
chairmen) are only figure heads. Let
them quarrel, it only makes the elec-
tion of Harrison and Morton more cer-
tain.

The rivers and harbor bill, with the
canal amendments dropped, has been
passed by the House, and is now in the
hands of the President. It will prob-
ably be signed, unless Cleveland shall
go back on the promise he made early
in the session to gain votes for the Mills
tariff bill.

In view of two occurrences here last
week, it is not to be wondered at that
we are likely to have a solid North
against a solid South this year. First,
two invitations were sent by the chair-
man of the committee in charge of a
literary gathering at Atlanta, Ga., to
Senator Colquitt, one was addressed to
Speaker Carlisle, and the other to Rep-
resentative McKinley. Senator Col-
quitt delivered the first, and returned
the other to Atlanta, together with a
letter saying that he would not deliver
an invitation to a republican, and that
republicans had no business in Georgia,
and should not go there if he could
keep them away. And yet we call this
a free country. Second, on Friday in
the House, while the bill appropriating
\$25,000 to aid state soldiers' homes was
under discussion, Kilgore, of Texas,
speaking against the bill, said that it
was the duty of the Government to care
for its own paupers. Mr. Spinola, of
New York, replied as follows: "The
brave men who took the field to save
the Union, the men who marched,
bivouacked and fought for the flag of
the country, have been branded as pau-
pers by the gentleman from Texas. I
hurl the assertion back into the throat
from which it emanated. No man shall
stand in his place on the floor, and
brand the Northern soldier as a pauper
without my resenting it. The bill was
passed by the House, and having al-
ready passed the Senate, now only
needs Cleveland's signature to become a
law.

Senator Blair has introduced a bill,
requiring five years residence, and a
knowledge of the English language from
all applicants for naturalization papers.
The bill also provides that no natu-
ralized person shall exercise the right of
suffrage for one year after receiving his
papers.
Senator Quay thinks the prospects for
republican victory this year very bright,
but he does not propose to allow over-
confidence to prevent his working as
hard as if he had a doubt of the result.

The House committee on public build-
ings and grounds unanimously recom-
mended that the Allentown public
building bill be passed over the Presi-
dent's veto, but 81 democrats placing
the fear of Cleveland and the love of
patronage above their sense of justice,
voted to sustain the veto. And as only
147—not two thirds—voted for the bill,
its passage was lost. The democratic
members of the House laugh when
Cleveland crooks his finger.

Senator Chace has introduced a bill,
consolidating the third and fourth clas-
ses of mail matter, and making the rate
of postage 1 cent for each two ounces.

THE STATE FAIR.

Prospects good for the Biggest Show
ever in the State.

Preparations for the State Fair,
which are going forward rapidly, indi-
cate that the event this year will be the
most attractive ever known in the
State. Secretary Denny and Superin-
tendent Cross are booming matters,
and, while Mr. Denny's office is at the
Fair Grounds, he is in St. Paul and
Minneapolis nearly every day to meet
people who have not time to make the
trip to Hamline. President Merriam
has not relaxed any of the efforts that
were made a year ago, and is very en-
thusiastic over the prospects of the Fair.
Arrangements have been completed for
a mammoth sham battle, which will
exceed in splendor that of last year,
and work is now going on to make this
one of the most attractive features ever
seen in the Northwest. Commander
Rea, of the National G. A. R., will be
the general in command of one army,
and it is expected that some confederate
officer will lead the opposing forces.
Negotiations have been opened to se-
cure some of the leading public speak-
ers of the country to address the peo-
ple during the fair. Secretary Denny
is now in correspondence with Prof.
Baldwin, with a view to arranging for
one of his perilous leaps from his bal-
loon while it is a mile from the ground.
Among the attractions are several hur-
dle races and a grand steeple chase in
which some of our finest riders and hor-
ses in the country will participate.
The entries for fine horses and cattle
are three times as great now as at this
time last year and are larger than ever
before known at any State Fair.

BOGUS BAKING POWDER TESTS.

Rather ingenious but not less fraudu-
lent are the pretended tests of baking
powder being made in many of our kit-
chens by agents who are trying to fur-
ther the sale of a Chicago article.
These so-called tests consist in mixing
separately, with water, a sample of the
baking powder found in the house and
of that carried by the agent. From
that found in the house, if a pure arti-
cle, the bubbles of gas will rise and burst
on top like those from a glass of cham-
pagne. The Chicago baking powder
which they carry, when mixed with
water, will show an extra froth upon
the top of the mixture which is claimed
as evidence of superiority. On the
contrary, however, it is not only the
exhibition of a trick, but is absolute
proof that the baking powder which so
acts is adulterated. The chemists have
ascertained that the adulterant used is
a chemical added for the express pur-
pose of producing this action and de-
ceiving housekeepers as to the true val-
ue of the baking powder. This is not
only a dishonest trick, but a dirty one,
for the chemical is the product of the
filthy refuse of the slaughter house, and
if this baking powder is used in the pre-
paration of food it passes into the biscuit
or cake without change. Of course,
any statements made in reference to
other baking powders, by parties
caught in practicing such tricks as these
for the purpose of deceiving the public,
will be entitled to no credit.
It is probably wisest in the interest of
our families, and to prevent our food
from being contaminated by tramps of
this kind, to turn all persons who wish
or attempt to tamper with it uncerimon-
iously from the door, and to use those
articles only which experience has
proved satisfactory, or the official tests
have established as pure and whole-
some.

The head of the republican party is
in the north, the tail in the South; the
democratic party however, has its head
in the South. We reckon ourselves as
belonging to the North, and would
much rather belong to the head of a
party than to its tail. ST. LOUIS TRIP-
BUNE.

Hurrah for a solid south! Protection
for its industries, but none for the
north! Such is the battle-cry of the
advocates of a democratic tariff, as is
shown by the appended list.

Louisiana Sugar,	protected to an extent of	68 per cent.
Southern rice	100 1/2 "	" "
Northern wool		free
" wood		" "
" salt		" "
" vegetables		" "
" brick		" "
" tin		" "
" lime		" "

Comment unnecessary.

The "Minneapolis Freie Presse," one
of the most influential German papers
of the "flour city", and till lately a
staunch advocate of all democratic
measures, has at last had an "eye-open-
er," now that it has fully considered
the Mills tariff fabrication. It speaks
thus of the bill.

"The Mills bill means protection for
the South, and free-trade for the North,
that means wealth for the South and
poverty for the North.

The bill has wisely refrained from
placing the products of the South on
the free-list, whereas all Northern pro-
ducts have been placed on it. But the
greatest injustice is the standing duty
on sugar, through which the treasury
now as ever will receive a contribution
of 50 to 60 millions, to the detriment of
the "poor man."

A Woman's Discovery

"Another wonderful discovery has
been made and that too by a lady in
this county. Disease fastened its
clutches upon her and for seven years
she withstood its severe tests, but her
vital organs were undermined and death
seemed imminent. For three months
she coughed incessantly and could not
sleep. She bought of us a bottle of Dr.
King's New Discovery for Consumption
and was so much relieved on taking
first dose that she slept all night and
with one bottle has been miraculously
cured. Her name is Mrs. Luther
Lutz." Thus write W. C. & Co., of
