The number of inmates in the Stillwater penitentiary at the present time is 344.

The Minnesota house at St. Charles was entered by burglars recently and a large amount of cigars and other articles taken.

A starch factory has been established at Lake City and the farmers in that vicinity are preparing to plant potatoes on an extensive scale the coming season.

While felling trees in the Mission Creek lumber camp Erick Nelson was hit by a limb, causing a fracture of the skull. His recovery is doubtful.

Three carloads of seed grain have been shipped from Kenyon this winter for the use of the needy in North Dakota who suffered the loss of their crop last year.

Oliver Watkins, a Minneapolis policeman, skipped from that city with a dress-maker, leaving a wife and family in straightened circumstances. He also left numerous creditors.

Martin Schmandt and two workmen were terribly injured near Hutchinson by the bursting of the boiler of a threshing engine which they were using to run a saw mill. Schmandt may die.

Miss Groh, of St. Paul, died the other day from blood poisoning, resulting from rubbing a simple on her face with her gloved fingers. This poison is said to have been in the dye of the kid glove.

At Mankato William Lenz was convicted of murder in the first degree for the killing of John Schwartz at Pleasant Mound last July. The verdict was a genuine surprise, as a verdict of acquittal was looked for.

John B. Gregoire of Mazepa was riding on the spring seat of a lumber wagon and in turning a corner rapidly was thrown to the ground. His shoulder was broken and dislocated.

Three drunken Indians at Appleton engaged in a fight with knives and tomahawks and two of them were seriously injured, one perhaps fatally. The person who sold the whisky will receive the attention of the authorities.

Mr. Hamlingway, a patient in the hospital at Rochester from Dodge county, had his leg amputated above the knee. Three or four weeks ago he accidentally pricked his knee with the tine of a pitchfork, producing a slight wound. It became sore and finally blood poisoning set in, with the result as stated.

The little village of Maple Lake Minn., was nearly swept away by the fire flood. The blaze originated in George Desmond's smoke house, and, owing to the high wind, spread very rapidly. The buildings burned are Rohrbach's store, building and contents, Welton Bros' dry goods store, Kohler & Taylor's drugstore, George Desmond's butcher shop and the Manor house.

Charles Larson, Ole Olson and Magnus Falk, section men, were run over and killed by a Northern Pacific passenger train two miles from Clear Lake. Hewitt, secretary of the Minnesota board of health, who is at present in that country studying and inspecting sanitary methods there employed, is being relieved with the highest respect everywhere and accorded every aid in his work. The doctor will soon go to Paris to spend some time with Pasteur, and thence to Berlin to visit Dr. Koch.

### NORTH DAKOTA.

The citizens of Bismarck and Mandan will tender Bishop Shanley a reception and banquet on his arrival in the former city.

Ex-King Milan would probably be willing to confess, for the edification of the North Dakota statesmen, that he considers gambling worse than drinking.

A car is being built by the Pullman company of Chicago, for Rt. Rev. Dr. Walker, bishop of North Dakota, to be used by the bishop in his official duties throughout his diocese.

A Bismarck liquor dealer has the following sign above his doorway: "By order of the prohibitionists I will sell my stocks of wines, liquors and cigars below July 1, 1890, at greatly reduced prices. This is no selling off fake. Wish it was."

It is said that for years North Dakota people have been singularly lucky in getting prizes in the Louisiana Lottery. A good many persons there have captured big prizes. The indications are that the Louisiana swindle has been carefully paying its way for the complicity it has just attempted to make.

The city of Fargo owes a \$148.25 board bill and won't pay it. Two years ago the legislature was invited to visit the city by the city council, and while on the visit put up at a hotel and got away with a bill to the value of that amount. The council votes to pay the bill at every meeting and the mayor promptly bobs up with a veto.

The contracts have been let for the survey of thirty-four townships in North Dakota, and work will be commenced early in the spring. There are five townships in Ramsey county, ten or twelve in Cavalier, eight or ten in Benson, six in Towner and six in Rolette. Dakota has \$15,000 in the surveying fund, and this was divided between the two sections.

Secretary Noble denied a motion for review of the case of P. McWeeney vs. Charles W. Greene, involving title to land in section 35, township 151, range 64, of the Devils Lake, N. D., district. This case was decided last summer, when a review was asked by

Mary McWeeney, the wife of P. McWeeney. The land is almost in the city of Devils Lake. McWeeney held another tract when the Ward boys of Chicago were killed. He was one of the twelve who killed the Wards, and while his trial was pending was in jail at Devils Lake. Mary McWeeney became attached to him there and married him. When McWeeney was released they went to Devils Lake. He was appointed special officer, and was killed by Billy Oswald. The latter was sentenced to twelve years, but was pardoned by Gov. Mellette a short time before he ceased to be governor of Dakota Territory. Greene, who was in this suit, was opposed to the Creel gang, and the land in question was claimed as part of the Creel heritage on Devils Lake. After McWeeney's death his widow carried on the suit, but the last hope of securing the property vanished with the decision announced.

The Oneida Watchman has received information that the Chicago and Northwestern company has concluded to continue its line from Gettysburg to Pierre, and that the line when constructed will cross the Okoboji near Clifton. It is thought the survey will be made and grading commenced early in the spring. The reason for building this short line is to connect the north country with the Black Hills extension at Pierre and to prevent the Manitoba from building its surveyed line from Aberdeen to Pierre.

While oiling the shaft of an ore crusher in the Old Abe mine at Lead City, the clothing of William Fullerton became entangled in the machinery, and he was whirled around the rapidly revolving shaft for some time before he was discovered and the belt thrown off. When taken out it was found that his lower limbs were terribly mangled, the flesh torn from one hand and one rib broken. Maj. Martin, of Texas, in speaking to a friend of his yesterday, said: "Everybody used to have a great laugh on me two years ago, because they said I had not sense enough to turn out the gas, but blew it out. ## THE GERMAN AND HIS CLOCK.

The story is told of a German who took the hands of his clock to the maker to have them fixed, because they did not keep proper time. Of course, the clock maker demanded the works, as in them lay the trouble. Balls and blotches, pimples and other eruptions on the exterior tell of a disordered condition of the blood within. Be you man or woman, or child, if you have these indications, be wise in time and take Dr. Pierce's Golden Medical Discovery. It puts the liver and kidneys in good working order, purifies the blood, cleanses the system from all impurities from whatever cause arising, and tones up the functions generally.

"Golden Medical Discovery" checks the frightful inroads of Scrofula, and, if taken in time, arrests the march of Consumption of the Lungs, which is Lung-scorfula, purifies the blood, thereby curing

all Skin and Scalp Diseases, Ulcers, Sores, Swellings, and kindred ailments. It is powerfully tonic as well as alternative, or blood-cleansing, in its effects, hence it strengthens the system and restores vitality, thereby dispelling all those languid, "tired" feelings experienced by the debilitated. Especially has it manifested its potency in curing Tetters, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Goitre, or Thick Neck, and Enlarged Glands.

"Golden Medical Discovery" is the only blood and lung remedy, sold by druggists, and guaranteed by its manufacturers, to do all that is claimed to accomplish, or money paid for it will be promptly refunded.
