The balls on New Year's Eve were well attended, The Battery ball at Turner Hall was the largest and was certainly a complete success both in a social and financial way. Frederick Tiede, of Lafayette, died very suddenly of heart disease last Friday afternoon. He was sitting in a chair at the time and up to the moment of his death had been in apparently good health. When his heart began to fail him, he fell back in his chair, made one or two short gasps for breath and died with no signs of great pain. He was 70 years of age and has always been a citizen of good standing and repute among his neighbors. At a recent meeting of the Milford Farmers' Alliance the following resolutions were adopted: Resolved, that our representative be instructed to use his influence and all honorable means to have the law passed again that every township should support its own poor. Also to have a law passed, that half the amount of the saloon license go into the county treasury. The Bowen-Collins case, in which the former was charged with criminal assault, was decided in the supreme court last week in favor of Bowen. It will be remembered that at the time of the notorious slugging attack in St. Peter, Bowen went before a justice of the peace in a different ward than that in which the assault occurred and pleaded guilty. He was fined, but the amount did not suit Editor Collins, who accordingly brought the matter before the grand jury. Bowen was indicted. His attorney urged the plea of former conviction in the justice court, but the court ruled against him. He then requested that the case be certified to the supreme court. This was done with the above result. The syllabus of the decision is as follows: "A justice of the peace has jurisdiction to make a warrant in a criminal proceeding returnable in a city ward adjoining that for which he was elected, and to there proceed to judgment. Such a judgment, even though erroneous, will sustain a plea of former conviction. The order sustaining the demurrer is reversed."

A man droye through the city Saturday with a load of household goods packed in a "prairie schooner," headed east. He had in his possession a calf. Someone asked him where he got it, and he replied that he traded a farm in Dakota for it. This astonished the questioner and he asked how large a farm. The man replied, "There was to have been forty acres in it, but the man I traded with couldn't read or write so I made it eighty." Dakota land has not risen any in value the past two days.—Mankato Free Press.

Judge Collins handed down five decisions in the supreme court Monday morning. The most interesting case was that of P. V. Collins against T. E. Bowen. When Collins was running the St. Peter Tribune, he engaged in a newspaper war with Bowen, then editor of the Sleepy Herald. Finally Collins made statements so strong that Bowen journeyed to St. Peter to demand an apology. Upon Collins' refusal to apologize, Bowen treated him to a thrashing. He was arrested and fined and was also sued by Collins for damages. The jury found for Collins and Bowen appealed. The syllabi follows: First—An action brought in the district court for the county in which but one of three defendants resides is properly triable in said county, notwithstanding the death of said defendant before either of the three appear or answer in the action, where no steps are taken to change the place of trial, as provided in section 1, chapter 132, General Laws 1881, or in section 1, chapter 25, id., extra session. Second—Judgment was entered in the action before appellant noticed a motion for a new trial. Held upon the facts as the appeared from the record, that there was unreasonable delay in moving before the entry of judgment, and that because of the delay, fault and laches of appellant prior to judgment the trial court was justified in refusing to consider the motion upon its merits. Order and judgment affirmed.

THE PROPOSED RAILROAD.

A Consensus of Expression from our Manufacturers as to its Probable Effect.

The Review has interviewed the men who are engaged in manufacturing in this city in regard to their views on the proposed building of the St. Paul, New Ulm and Southwestern and was successful in securing answers from nearly all. The question asked in each case was,—Will the building of the St. Paul, New Ulm & Southwestern be beneficial to the city or to your business in particular? The answers received were as follows: Empire Mill Co.—Will not reduce freight, since all railroads are pooled and all freight rates fixed at the head office in Chicago. It will give better accommodation no doubt, but it is not worth a bonus. The present of the right of way and depot grounds is all the company should ask of the city.

Manager of New Ulm Vinegar Works.—Will certainly be a benefit to us as it will facilitate our shipments to stations on the Milwaukee and St. Louis roads and, if extended south, will open new territory for sales. I am not prepared to speak of its effect on the city. Cannot see, however, wherein it will be of harm.

Chas. Hauenstein, representing Hauenstein's brewery.—The road cannot but be beneficial to us in many respects. The principal reason to us for desiring it is that it will do away with all the hauling by team that is now necessary to sell our products in neighboring towns on the St. Louis road.

New Ulm Roller Mill Co.—Will not affect our business. Do not think it will help the city.

Otto Schell, manager of Schell's brewery.—Think it will be of material benefit to both New Ulm and our business. It is worth the bonus.

Eagle Roller Mill Co.—The St. Paul, New Ulm and Southwestern Railway would be of benefit to the mills as well as the city, if it runs to Omaha. If built only from New Ulm to the Twin Cities, then we do not see where the city or mills are to derive any benefit.

New Ulm Elevator Co.—In our opinion it will neither benefit nor damage the New Ulm Elevator Co., as our business is all done outside of New Ulm.

The census returns on the mortgage indebtedness of the country are decidedly suggestive. The calamity orators have been assuring us that the farm mortgages of Kansas, Illinois, Indiana, Ohio, Michigan, Iowa and Wisconsin footed up about \$5,000,000,000. The census returns, in this matter of mortgages, show that the total mortgage indebtedness of the whole United States does not exceed \$850,000,000, and three-fourths of this was for money to make needed improvements. The calamity orators have been placing the farm mortgage indebtedness of Illinois alone at \$1,000,000,000! The calamity orators are big figures, but there is "heap lie" about them."—Minneapolis Journal.
