THEY say that the Italians in this country are getting naturalized at a rapid pace, in order to escape getting drafted into the service of their native land in the event of hostilities. There's patriotism for you!

In the sixteen ex-slave States the growth in population in the past ten years has been 23.4 per cent among the whites and among the negroes only 1.4 per cent. These figures ought to lay the bugbear of ultimate black domination.

The fact that the German emperor kissed his mother on her return from France by way of England is given international importance. It is supposed the French heard the smack and found a rebuke in it for their treatment of the lady.

FATHER IGNATIUS, the bare-footed monk, has begun revival services in Philadelphia. There can be no doubt in the world that the City of Brotherly Love needs all the assistance that the English clergyman can give her in the way of converting sinners. There is a heap of them over there.

It is said that an enormous reservoir of clear, fresh water has been discovered 220 feet below the surface of the Desert of Sahara. It has long been a dream of scientists and capitalists to irrigate this great waste, and possibly the water for this purpose may lie beneath its barren sands.

THE Kentucky constitutional convention cost that state \$200,000, but the money will be well spent if the people accept a constitution which revokes lottery characters, limits legislative sessions to 60 days and provides that school monies shall be distributed to whites and blacks alike.

INDIA is once more giving trouble to England. In the previous disturbances in India in the past quarter of a century Russia's hand was traced, if British reports were true. Thus far, though, the Muscovite has not been mentioned in connection with the present one.

A BURIAL at sunset is quite common, and there is a certain fitness in consigning the worn-out body to the earth at that hour. But funerals at midnight, however, are rare. General Pike's interment is one of the few in recent times, and the description of it is something new in obsequies.

INQUIRY into the subject of explosions in mines being caused by dry coal dust has led to some very valuable experiments and plans for clearing the galleries of foul air. One of these consists in moving water butts through the affected localities. The coal smut collects in the water, and the air is thereby cleared before the danger limit is reached.

ACCORDING to the list usually given by the Roman catholic authorities, Leo XIII. is the two hundred and sixty-third on the roll of popes. For many centuries past the Italians have furnished nearly all the popes. Ever since the death in 1523 of Adrian VI., who was a native of the Netherlands, every occupant of the papal chair has been an Italian.

THE New York Assembly has passed bill by a vote of 69 to 4 reducing the legal rate of interest from 6 to 5 per cent, and it is believed that it will pass the Senate. As the millions of dollars now in the savings banks draw 4 per cent and the money is generally loaned at 6 the new law will necessitate an entire readjustment of interest rates.

THE Czar of Russia is said to have a fondness for rising early in the morning, and going about the market places of St. Petersburg. He would doubtless on these excursions take a basket with him and do part of the family marketing were it not for prudential considerations. As soon as that habit should become known, he would be afraid of little dynamite shells in the potatoes, turnips, beets and onions.

AN ambitious boy somewhere in the east is dying from the results of eating tacks, iron filings and other succulent dainties in emulation of the dime-museum "human ostrich." Between sleep-fasters and glass-eaters the fool-killer is being deprived of much of his regular work. The Detroit sleep-fasting contest has been unluckily, a big success. Two of the contestants will probably suffer from more severe mental derangements than the most sanguine expectation could have looked for.

GEORGE STARK a fireman on the Cincinnati, Wabash & Michigan railway, died in horrible agony at Anderson, Ind. He was an inveterate cigarette smoker and an excessive use of them is said to have caused his death. A short time after his death his body turned a livid green. Physicians claim his death was due to arsenical and nicotine poison.

CAPT. DEVILLE, surveyor general of Canada, discredits the correctness of the discovery made by Ensign Moore, of the United States coast survey, to the effect that an error in delimiting the international boundary gave the United States a slice of Canadian territory equal to that of Rhode Island. On the contrary, a survey made by the Canadian government at Port Moody indicated that Canada had secured a quarter of a mile of American territory for a distance of several miles.

TO IMPORT NEGROES

Colored Men and Italians Being
Brought Into the Coke Fields by
the Operators.

There Are En Route by the Car-load
and Will Take the Places Which
the Strikers Vacated.

SCOTTDALE, Pa., April 20.—This was another lively day in the coke region. Numerous mass meetings were held, and preceding the wholesale evictions which will occur to-morrow, they are taken with significance.

With a brass band to stir up their spirits, a mass meeting of several hundred strikers was held at the Summit plant, where the imported foreigners have been at work. Every effort was put forth to get the Italians to attend, but without avail. They are quartered in what is known as the "soup house," near the Summit plant, and are heavily guarded by deputy sheriffs to prevent interference from the strikers. Twenty-four of these Italians were at work at this mine yesterday. The strikers held their meeting on the public road and exercised great precaution to keep off the company's premises. After addresses by Parker and others, they passed resolutions to remain firm.

Another enthusiastic meeting was held at Whitney, and addressed by Master Workman Wise, William Hay and Albert Burrien, an interpreter. Italians are also at work there, and the meeting was called for the purpose of getting them out on a strike. To-night the labor leaders say they hope that Gov. Pattison will come to the region as intended, and make a rigid and searching investigation of affairs. They claim that the strikers are accused unjustly of many occurrences, and that nothing barring an investigation will bring out these facts.

This evening there is great activity all along the line. The coke companies will make persistent efforts to

RESUME MORE OF THEIR PLANTS to-morrow, and the labor leaders are out to a man in the hope of defeating the movements. The Cambria Iron company will make an attempt to rekindle the fires in some of its plants, which have been idle two weeks. The eviction movement will be fully inaugurated, and it is expected that some of the distressing scenes of 1881 and 1886 will be re-enacted. That many families will resist seems to be the general impression. Several hundred eviction notices were served by the coke companies on strikers between this place and Broadford last night. At Summit and Morgan's 200 papers were served. They will all expire this week, and the labor officials think that their tents will arrive in time to afford shelter to all the families. The Morewood notices expired to-day, and evictions will take place to-morrow.

From a source believed to be trustworthy it was learned to-day that colored workmen would be shipped into the region during the coming week. It is stated that the strikers at Summit and Broadford obstinately refuse to return to work, and their faces will be filled with negroes. One hundred and ten of them will be given employment at East Slope, Broadford, and about one hundred at Summit and adjoining plants. Imported Italians and negroes will likely be the weapons of the different companies to break the strike, and carloads of them are expected. Agents are known to have been in search of such material for some time. The importation of new men may tend to arouse the passions of the strikers. The different companies have fully decided to post the notices at the different works, stating their withdrawal from the position that there would be no discrimination against the strikers.

BULLETS AS TICKETS.

Lialion Begun in Germany Ends in a Double Tragedy in Gotham.

NEW YORK, April 19.—When the steamship Elder swung out from her pier in Hoboken to-day, several of her crew were swabbing up big pools of blood in the steerage. A double tragedy had been enacted there half an hour before. Philip Ohnacker had killed Mrs. Catherine Barth, and then sent a bullet through his own weak brain. Both were dead before the report of the pistol had ceased to reverberate through the steerage.

Two children are left in Germany to mourn the death of the woman. She has a husband there, too, but it is not likely that he will shed tears over her taking off, because she let him and the children to come here with Ohnacker.

The suicide was a soldier stationed at Mines, and, listening to the persistent pleadings of the woman, came with her to this country, where they lived as man and wife. They lived on a farm near this city, and the woman, tiring of her lover, neglected him in many ways, and finally announced her intention of returning home.

Ohnacker tried to change her purpose, and followed her to the steamer's dock to renew his pleadings. He had no money to purchase a ticket to accompany her, and, driven to desperation, said she should not go. For reply, she walked aboard the steamer and into the steerage. He followed her. When they got down stairs his face was white and set.

"You shall not leave here," he said to her, "unless we go together."

"But you have no passage ticket," she said to him.

"This will pass us," he replied, drawing a revolver from one of his pockets. While the woman stood rooted to the spot with fear, Ohnacker pointed the revolver at her and pulled the trigger. The bullet struck her over the right eye and crashed into her brain. Death was instantaneous. Ohnacker then placed the muzzle of his revolver against his left temple, and again a report rang out. Ohnacker toppled over and fell just beside the woman, stone dead.

Electrocuted.

CHATTANOOGA, Tenn., April 20.—While playing a hose on a ladder at a fire to-night Fireman Charles Werner fell dead to the pavement, killed by an electric light wire.

A Hopeless Case.

PARIS, April 20.—A report on the Panama canal has been sent to the liquidator of the company, M. Monchicourt by Lieutenant Wise, who has been negotiating with the Columbian government to prolong the concession. The report is a voluminous document. It was apparently prepared with the object of concealing, amid an endless mass of words and reiterated expressions about sanguine prospects, the actual hopelessness of any further enterprise in that direction. M. Monchicourt personally considers that the report offers a favorable basis for the new financial operation.

CLOSE CALL FOR FIREMEN.

A Score of Them Injured at a Fire in Boston.

BOSTON, April 20.—A fire occurred early this morning in the Chipman building at Court and Hanover streets. It is a five-story brick structure, and is principally occupied by Bailey & Rankin, jobbers and retailers of carpets. The loss on the building is \$5,000, and to the tenants \$15,000, all of which is covered by insurance.

While the fire was at its height the roof fell without warning to the men who were pouring streams upon it from underneath. Beams and burning timbers impinged nearly twenty firemen, several of whom were enabled to escape immediately without injury. The lines of hoses from the engines were at once directed to that part of the building where the accident had occurred, and in a few minutes the debris was cooled sufficiently to permit of the release of the men beneath it.

Chief Engineer Webber was among those who were caught, and although bruised and burned he did not relinquish his command, and at this afternoon announced that he was all right and ready to return to duty. Through a hole made in the roof, District Chief Reagan was one of the first to emerge, and his injuries, although painful, are not serious. Capt. Willett, who followed him, was injured about the back and shoulders. The next officer rescued was Capt. Griffin, who had been pinned down by heavy timbers, which had to be sawed apart before he could be released.

District Engineer Creswell was one of the last ones taken out, and it took nearly an hour to reach him. His right leg was crushed by a heavy beam, and for a long time it was doubtful if he could be saved, as, in spite of the best efforts of the firemen, the flames steadily crept toward him, and it looked as if they could not be checked. He was finally taken out to the roof of the Crawford house, lowered to the floor below, where he was placed upon a stretcher and taken to his home. His leg was only badly strained and bruised, and his other injuries are only slight.

District Chief H. W. Pope of Charleston had his hand badly cut by glass and was severely hurt in the back. Eleven other firemen were slightly injured. Assistant Engineer John Long was seriously injured by being struck in the abdomen by a piece of hose which blew off its coupling.

MURDERED FOR HIS MONEY.

A Cold-Blooded Crime in Michigan Which Has Just Come to Light.

WEST SUPERIOR, Wis., Special Telegram, April 19.—A young man arrived here to-day from Michigan who tells a story of a cold-blooded murder.

The murder is of recent occurrence and up to the present time has never appeared in print. The names of the murderer and his victim are withheld by the young man, who hopes to see the murderer brought to justice. He feels certain that the murderer came this way. It is thought the man has been seen in Superior, and the authorities are at work in company of the stranger.

The story of the murder is this: In a Northern Michigan logging camp were employed two Swedes. When the camp broke up this spring these two fellows set out together and alone for the nearest settlement. They were paid off before starting and preceded the rest of their camp fellows.

A few days later, when others from camp passed over the trail, they discovered the body of one of their Swede comrades of the winter. The man had been murdered with an axe and robbed of his money, supposed to be about \$100.

The supposed murderer is minus the half of one finer of his left hand, and it is believed a slight wound supposed to have been inflicted by his victim in his struggle for life.

TO SAVE HER LOVER.

A New York Woman Seeking the Release of Her Intended From an Asylum.

CINCINNATI, April 20.—Five weeks ago John B. Ransley, a wealthy confectioner, was sent to Longview asylum. He had gone to New York and made wild contracts, which threatened to swamp his fortune.

He had also engaged himself to Miss Edith Speers of that city. Miss Speers followed him here with the intention of baffling the efforts of his relatives to put him in an asylum. Ransley, however, acknowledged his mental weakness and Miss Speers consented to his confinement.

Yesterday, however, she swore out a writ of habeas corpus, alleging that Ransley has recovered his senses. Miss Speers has been in this city ever since her lover was committed. She has visited the asylum several times, and is now firm in the belief that Mr. Ransley has recovered his normal condition of mind.

A few days ago C. W. Baker, counsel for Miss Speer, received a letter from Mr. Ransley, begging that he be restored to liberty. This nerved Miss Speers to make another attempt. The superintendent and directors of the asylum have been made parties defendant.

Furnishes a Clue.

MILWAUKEE, April 20.—N. D. Hooker, a young university student at Madison, was in the city last night and threw some light upon the disappearance of John K. Fish from Chicago. He says that Fish was in Madison last Sunday, and was spoken to in the Capitol Park. Three years ago, he declares, he was a roommate with young Fish, and that the latter at one time wrote to him that he contemplated suicide and disappeared for about a week.

Chicago, April 19.—Although he disappeared more than a week ago, John K. Fish has not yet been communicated with by his friends, and nothing new has been learned of his present location. It was reported to Mr. Fish, Sr., to-day that the young man applied at a hotel at Madison, Wis., a week ago last night or a room, but could not obtain one on account of the crowded condition of the house. Sunday morning early he was seen in the Capitol Park. Further traces of his movements at Madison will be sought. The young man, who is the son of General Solicitor Fish, of the St. Paul road, is twenty-one years old and six feet two inches high. He had been seen suffering from the grip, and it is believed left the city in a semi-delirious condition.

Bullets for Seven.

PARIS, Texas, April 20.—To-morrow morning seven men will be shot to death at Oconulgee, the capitol of the Creek nation, in accordance with the law of the nation. The men are Ross, Riley, Jeff Brown, Douglas Brown, Codge Barnett, Pars Johnson, Lake, Andy and Price Johnson. They were tried at Oconulgee last week and a verdict of death returned by the jury. They were convicted of the murder of Robert Reed and Riley Walls in the Creek nation, Oct. 20, 1889. The condemned men are negroes, and their victims were Creek Indians.

Coal Heavers Strike.

CLEVELAND, Ohio, April 20.—Three hundred coal heavers employed at the docks of the Cleveland & Elyria and Erie railroads, Tod Stambaugh & Co., and Pickard's, Mather & Co., went on strike to-day. They want an increase to 13 cents a ton for handling coal. They were paid last year 13 cents, what they ask for now.

Murderous Feet Longue.

WASHINGTON, Pa., April 20.—The family of Rev. W. S. Fleming, consisting of Rev. Fleming, his wife and little daughter and Mrs. Fleming's sister, Alice Williams, were poisoned to-day by eating beef tongue. Their condition is extremely critical.
