PERSONALS

Mr. T. O. ELLMORE, who is now actively engaged in the insurance business at LaPlata, is in town on Tuesday and dropped in to see us.

Mrs. J. R. MURKIN and her sister, Mrs. G. A. Goben, arrived home from New York since our last issue. We learn that Mr. Murkin will return in a short time, but Dr. Goben will remain until spring.

Mr. and Mrs. E. D. AMMERMAN, recently of Salisbury, in this state, are visiting his father, Mr. O. H. P. Ammerman of this city, before departing for New Tacoma, Washington Territory.

Mr. S. R. HORN has withdrawn from the Star and accepted a situation on salary at Chetopa, Kansas. He left for his destination several days ago. We wish him success.

Miss EUGENE CHANDLER is spending the present week with friends.

Our old time acquaintance, Capt. Jas. Berry, of Polk township called in to see us on Friday last.

Mr. J. S. EDWARDS, living six miles east of Trenton called to see us Wednesday. Mr. Edwards offers a fine team, harness and wagon for sale, notice of which appears in this issue of the GRAPHIC.

Mr. and Mrs. RHODES LOWE, with the two Misses Anderson and brother, of this county, accompanied by Miss Antram, of Hardland, gave the GRAPHIC a pleasant call on Monday.

Rev. J. B. MITCHELL left on the early train Monday for Jamesport to aid in a series of meetings there till the close of next week. He arranged to have his pulpit here filled next Sabbath.

We regret to learn that Mr. E. V. Blackman is confined to his house by severe illness.

O. S. BRIGHT went to Glasgow this week on business.

Mr. JACOB WITTMER, Sr., and Jacob Wittmer, Jr., Billy McKeehan, J. Dyer and G. Lynd, of Greentown, were in town Monday.

JAMES ELLISON attended circuit court at Macon this week.

Mr. W. T. BAIRD and family spent Wednesday in Macon City.

Mr. C. Timmer and family left for Macon on Tuesday, having purchased property in that place.

Mr. G. P. BRITT, of Sublette, left for Iowa on Monday evening and expects to be absent about six weeks.

Miss LENA GATES, of Barry, Ill., is visiting with her uncle, Mr. L. W. Chase, of this city. Also Mrs. S. M. Foster, of Eldara, Ill., sister of L. W. Chase and daughter of Mrs. Catherine Worman.

Another Proposition.

Court house propositions seem to be fashion just now. We learn that Mr. N. A. Baylor is also ready to submit a proposition to sell the county his fine building on the south east corner of the square at a reasonable price, say in the neighborhood of \$8,500. He claims that his offer has the additional advantage that the building already occupied and under lease to the county for some time yet, would involve neither removal or the payment of rent to the end of the lease. We presume our court will take no decisive steps in the matter until they have thoroughly looked over the field and secured the very best terms possible, and not then unless they believe such a step would meet the approbation of the people of the county.

Attention.

Once more I come with glad tidings and have placed \$80,000 worth of goods on the altar of sacrifice. The great slaughter sale has begun and I will sell my goods at poor men's prices, till my entire stock is disposed of. My prices will certainly make my competitors turn pale and tremble. Look out for my large posters, they carry the intelligence that the black flag has been hoisted on high prices. N. A. Baylor.

Looks Better.

The Church and Home comes to us this month very much improved typographically and in other respects. The present number contains a large amount of Church news and the Editorial, Home and Temperance departments are well sustained. The price of this magazine is now one dollar a year. Rev. T. J. Wheat, Editor, C. E. Wheat, Publisher, Kirksville Mo.

A Mystery.

Mr. Em. Patterson received a telegram Saturday from a point in Iowa saying that "C. L. Sullivan is dead, have a grave prepared." He telegraphed back for particulars but could get no response. So far no corpse has put in an appearance, and the matter is looked upon as somewhat "fishy." C. L. Sullivan formerly lived here.

Holiness Meetings.

The Smith Brothers who were assisted last week by Rev. Hawkins, of Kansas are still conducting "Holiness Meetings" at the Masonic Hall. The attendance for a week past has been quite large and on Sunday night the hall was crowded.

Burned.

We learn that Mr. and Mrs. Jos. Ivie's baby was quite severely burned on Tuesday by falling against a hot stove. This is the second accident of the kind that has occurred in Kirksville this present winter.

Getting even With Her.

"Is Mrs. Samuelson in?" asked Mrs. Bozumbo of the servant at the house of the former, on Austin Avenue. "No, mum, she stole me herself to tell you she wasn't in." "That's very kind in her. Please tell Mrs. Samuelson that I didn't call this afternoon."

TWO LEGGED LIVE STOCK.

The Poultry Business in Kirksville—What Shippers are Doing.

The extent and importance of the poultry business in this locality is little understood or appreciated by people generally. The item of Fowls purchased, dressed and shipped in a single season, to say nothing of the egg products and the amount consumed at home, makes a very handsome sum.

The firm of Blackman & Horne, of this place, have bought, dressed and shipped fifty thousand pounds. Averaging the amount paid at seven cents per pound net it toots up \$3,500 put in circulation in this vicinity from this one branch. In addition to this quite a number of persons have been afforded employment during the winter months and the aggregate of whose wages would considerably swell the above amount.

In addition to the above we learn that during the past three months Messrs Templeman & Co., of this place have shipped about eleven thousand pounds of dressed poultry for which they have disbursed about nine hundred dollars in cash in addition to the eggs and other produce bought and shipped during the same time.

Normal Notes.

Prof. Blanton resumed his duties Tuesday morning, after an absence of several days.

Elder Russell recited from memory the entire chapter of Col. 3, for a scripture lesson Wednesday morning.

One of the Texas cow boys paid his respects to the Normal Thursday, but he was most too full of "fire water" to be very agreeable to those he visited.

A. D. Halburton, an old student, entered school Monday.

Mr. Thos. Sens, our new mayor, is doing some carpenter work on the Normal windows.

The Two Year class are devoting the half hour before school to the study of American literature.

Prof. Ross is giving some new figures in calisthenics.

If you want to see poor marching just watch some of the Normal students as they pass out of the chapel morning or evening. There is no system, time, method, beauty or anything else but awkwardness and confusion in the way they march. It will be a step in the right direction when they are given special drills in this important part of school work. This defect is always noted by visitors.

Miss Jayne's after-school sessions with the Model teachers are generally of an interesting character. Criticisms pro and con are freely given on the day's work, with a view to better methods in the future. Many of the teachers find out during the week's teaching that even Model pupils are human, as is shown by some of the criticisms.

Miss Mary Mason, of this city, accompanied by Mr. and Mrs. Planalp and their daughter, Miss Rosa Planalp, of California, visited the Normal Monday. Among the other visitors of the week we note Mr. Parsons, of the St. Louis Republic, Judge Sands, Mr. Dinsmore, Miss Thrasher and Mary Myers.

Mr. S. Dinsmore gave a very interesting and instructive "general lesson" on air in the model department Tuesday and Wednesday. He showed by appropriate experiments that air is transparent, invisible, buoyant, impenetrable, expansible, elastic and that it presses in all directions equally.

Miss Owen has consolidated the three geography classes into one, and is giving them methods of teaching, as there are about a hundred and twenty-five in the class they meet in the chapel.

Your reporter and about thirty other students embarked in sleighs and sleds Saturday night and went down to Troy Mills to visit the literary society at that place. We found an active society doing good work. We were highly entertained while there and had the best sleigh ride going and coming we have had this winter.

Found.

If you want to buy groceries cheap go to Bailey & Jennings, east side of the square.

J. S. Baker and Co. are willing to pay 50c per bushel for a few thousand bushels of good corn.

DESIRABLE PROPERTY.

FOR SALE—Desirable Residence property in Kirksville, consisting of two lots, new two story residence, six rooms, splendid cellar, pantries, clothes presses, cistern, living well, good pumps and everything in first class order. Four blocks from the square and three from public school, in good neighborhood. Will be sold at a bargain. Call immediately at this office n37-4f.

"You appear to be gay and happy," said Gilbooly to Koscisko Murphy, whom he met at a ball at the residence of Col. Yerger, on Austin Avenue. "You look well fed, are well dressed, and all that. Must have a good income I presume."

"Oh, yes," replied Koscisko, "I don't complain. I have my salary, fifteen hundred dollars; then I make five hundred dollars a year by my literary labors, that makes two thousand; then I run in debt a thousand dollars, that makes three thousand dollars. A single man who couldn't subsist on that ought to be ashamed of himself."

To Correspondents.

E. T.—Communication for our "Home Circle" received and placed on file for next issue.

Communication from Liberty township received too late for insertion in last issue is omitted. Write again.

We want a regular correspondent at Queen City, Wadsworthville and Branshear. Who will respond?

NORTHWEST ADAIR.

Items from Stahl City—Incidents and Accidents.

To-day is one of as fine days as come. Such days will call the squirrel and bee from out their winter hole.

David Ford feels as big as old Goliath, because he has caught a wife. Miss Elizabeth Burns is the lucky lady. She is a daughter of John Burns, J. H. Shibley tied the knot.

Miss Zella White is quite low with a pulmonary disease.

John Shultz, Sr., is quite sick. Mr. Pruitt, a Novinger section man, split his foot from his toes to his instep with an ax.

The old Baptists are having a two day's meeting at Red school house. Elder Price and Williams officiating.

Mrs. Wm. Matthews is nursing a felon. Doc. Pearce split the finger to the bone.

Mrs. Ross Salada has a similar pet. L. D. Hillyer's mill is so far completed that he ground corn Saturday. He hopes to be ready to grind wheat next week.

Born to Shultz, Jr., and wife, a fine large boy. John says he will train him as he should go. That means he will make a republican voter of him. We say bravo.

John Vanside had his face and ears so badly frozen that the skin is peeling off. He gave his face a coat of varnish to exclude the air, which gives him the appearance of a war chief. We sympathize with him.

J. R. Novinger sold 22 loads of coal last week, aggregating 650 bushels.

One of Sam. Robb's horses dropped dead in the wagon as he was hauling a load of wood.

Several Colliers at Stahl told a boy who was working about the mines that he should join the brotherhood of the coal miner's union. They had a brand made and while initiating him in to hokas pokas of the order, they burned him so badly that he had to take his bed. From the way several of the citizens talk the miners will have fun out of the other corner of their mouths before they are through with it. X.

Southeast Adair.

Graphic Correspondence.

No cases of sun stroke have been reported in this vicinity for some time past.

Mr. Jap Howk had a valuable horse so badly crippled a few days since that it is feared he will die.

Mr. R. M. Brashear is feeding a fine lot of steers on his farm in Wilson Tp. this winter. Mr. Shade who formerly lived in Kirksville, has charge of the farm and stock. Mr. Shade is a worthy man and a good citizen.

Several nice dinner were prepared by citizens in our various neighborhoods during the holidays, in which turkey bore a conspicuous part as an edible. Your reporter had the honor of partaking at one of these splendid dinners. Thanks.

A small log dwelling on the farm of Mr. J. C. McCoy and occupied by Cartie Stull and family, was burnt, together with all its contents on the evening of January the third. The family were away on a visit when the fire was noticed by neighbors but to late to subdue the flames or save the contents of the house.

Death has again made himself manifest in our midst, by removing from the family circle of our esteemed citizen Mr. Jackson Garlock, one of its fairest flowers, his oldest daughter, some ten or twelve years of age, died Jan. 4th, and was buried at the Union Cemetery on the 5th. We tender them the sympathy of the entire community in this their sad bereavement.

Notwithstanding the fact that the great Wiggins, and other famous weather prognosticators have come to grief. There are others less unknown to fame, who rashly predicted a mild open winter for the year 1884, but since the late polar manifestations they have given up the prophet business in disgust and have retired to warmer quarters, and may now be found toasting their attenuated shins by the genial warmth of a hot stove.

A spelling school was held at the Gopher Hill School house, in Dis. No. 2, on last Wednesday evening, which was well attended and highly enjoyed by all those present. Mr. John Reynolds, the teacher in that district presided.

Can't somebody start something to set the political pot boiling. Something that will have a tendency to arouse the dormant energies of the politician and stir up the festive office seeker. Anything will do for a change that has a tendency to raise the temperature and modify the winter's cold.

I have been searching my dictionary through and through, hoping to find words whereby I could convey some high sound phrases on paper, by which I might execute some literary flambé on ice, as it were, but in vain. There is nothing more adequate to indicate what I would relate than good plain old fashioned English. E. P. Jan. 4th, 1884.

Communication from Liberty township received too late for insertion in last issue is omitted. Write again.

We want a regular correspondent at Queen City, Wadsworthville and Branshear. Who will respond?

Kirksville Public Schools.

At the close of the first term of our public schools, I prepared a set of questions for the pupils of the Benton and Washington buildings. These questions covered, not only the work passed over this year, but all previous work. The corresponding grades in each building were examined on the same set of questions; the paper graded by a disinterested party and then returned to me from which I have prepared a summary of the work done in the 3rd to the 8th grades inclusive. By this report it will be seen that there are almost twice as many pupils in the north ward, as there are in the south, but the division is about as it should be, at present, owing to the greater amount of room provided by the Washington building. However the fewer pupils in a class, the greater chance the teacher has to reach each pupil; and this must be taken into account in the following report. If our rooms would admit an equal division of the pupils, much better results could be obtained.

Below, the respective grades are compared as to the number in the class, average grade of class, and the highest grades obtained by any member of each class with the name of the pupils obtaining such grade. The low averages of some classes may be accounted for; partly by pupils not remembering the work done prior to this year, and partly by the irregular attendance of some pupils, who lower the grade of the class.

Greentown.

GREENSTOWN, Mo., Jan.

The weather is softening under the ening influences of Gov. Sol.

The ice harvest is being rapidly nered and is of an excellent quality.

Mr. W. B. Reynolds shipped a car load of fatted swine to the St. Louis market yesterday.

Mr. G. Dierling, of Queen City was at the same time a shipper of a car load of choice cattle to the same point.

Our little village has been the loser of a valuable citizen in the person of Mr. R. R. Wells who goes to seek a home in the Lone Star state. But while we regret his loss from our midst, we rejoice in the fact that his new home friends will find in him those sterling qualities that contribute to weave the more durable warp and woof of friendship as acquaintanceship grows older.

Mr. M. Speer, an old landmark of this place, went this week to the scenes of his new home at Coffeyville, Kansas.

Mr. John Finch, an aged and useful citizen of this neighborhood, who has been lingering under pains and illness for some months, died last Friday morning. To those bereaved of father, friend and companion in this demise we extend our fullest sympathies.

Coasting by moonlight is a pleasant pastime with our young people. The celestial visitor—comet—may be easily seen on clear evenings about 9 o'clock at an angle of 45 degrees in the southwestern heavens.

County Court Proceedings.

JANUARY 7, 8, AND 9, 1884.

R. M. Toler, road declared a public highway.

Wm M Gates, bond to school funds for \$800 approved.
