The latest dodge in the betting line is for girls to bet kisses with the young men. There is something soul satisfying about this kind of a bet. Both sides are willing to pay if they lose, and there is no danger of a quarrel over a false count.

NORROW TOWNSHIP.

The general health of the neighborhood is poor, complaints being mostly of the nature of colds.

Mr. David Capps is building a dwelling house. Mr. Henry Capps was taken quite sick one day last week. Drs. Herola of Novinger, and Morrow of Kirkville, were called to see him and he is now recovering from his severe illness.

We are having extremely cold weather the thermometer registered 30 degrees below zero this morning. Sleighting was never better but the atmosphere is too cold for sleighting to be very enjoyable even with one's best gear.

The coal mines at Danford are doing considerable business, even during the very coldest weather. There is a prospect of a store and post office at that place in the near future.

Mr. Thos. Capps, who has been attending school at the Normal since the middle of last year, has returned home on account of his father's illness and will remain at home during the remainder of this year.

The Bald Knob school house caught fire on Wednesday and would have been consumed, but for the bravery of Martin Cory one of the pupils of the school, to whom the saving of the building may be principally attributed. He exhibited rare courage and bravery by getting up in the attic among the flames and applying snow, and with the assistance of other pupils soon succeeded in subduing the fiery element. The fire originated in the roof and was not noticed until it had burned through and dropped down and caught in the ceiling. The result of the fire was quite a large hole in the roof of the building, but it was repaired the same evening, consequently the school was not dismissed. J. O. T.

WASHINGTON, D. C., January 26—The Capitol building is supposed to be fireproof. The walls are of marble, the floors of tile, and the roof of iron, yet it took fire this morning in a very curious way. There is a flag pole on the top of the building, as described in this correspondence some time ago. The pole by exposure to the weather cracked this morning, as the fires in the basement were being boomed. A spark flew out of the chimney and struck in this crack. It was the only vulnerable point in the roof of the great building. This little crack is as wide as a knife blade. The wind fanned the sparks, and it set fire to the pole and slowly followed down through the opening in the roof, and so reached the interior by this curious manner. The fire dropped down through the roof and caught in a lot of flags of various countries presented to this Government by the nations, and which had been placed in this supposed safe spot for safe keeping. Luckily it was discovered before it had reached the mass of records stored on the floor near by and extinguished.

THE February number of DEMOCRAT'S ILLUSTRATED MAGAZINE contains several articles of unusual interest, among them are: "Rembrandt and his Art," "Madame Adam," "The Story of 'Throwaldsen,' and 'Old and New Industries for Women,'" by Jennie June. Mr. Barnard's serial, "A Strange Girl," is continued; and several good stories and poems, household and art suggestions, fashion and "Current Notes" give additional attraction to this excellent publication. The frontispiece is an oil picture suited to the season dedicated to Saint Valentine.

The Eastern papers now predict that there will be a revival of business in a short time. Since January 1st, about \$50,000,000 has been distributed in the way of dividends which will be put in circulation and trade will be stimulated. The country just now will put up with a large revival of business and not complain. About a million and a half of idle laborers will also be glad to return to active employment. Let the revival go right on.

OLDENTIMES

The formula by which Mishler's Herb Bitters is compounded is over two hundred years old, and of German origin. The entire range of proprietary medicines cannot produce a preparation that enjoys so high a reputation in the community where it is made as

MISHLER'S HERB BITTERS.

It is the best remedy for Kidney and Liver Complaints, Dyspepsia, Cramp in the Stomach, Indigestion, Malaria, Periodical Complaints, etc. As a Blood Purifier, it has no equal. It tones the system, strengthening, invigorating and giving new life.

The late Judge Hayes, of Lancaster Co., Pa., an able jurist and an honored citizen, once wrote: "Mishler's Herb Bitters is very widely known, and has acquired a great reputation for medicinal and curative properties. I have used myself and in my family several bottles, and I am satisfied that the reputation is not undeserved."
