GRAPHICS.

Subscribe for the Weekly GRAPHIC in time to begin with the new story. Remember the new story will begin next week, subscribe for the GRAPHIC and begin with the first chapter.

Our readers will be glad to learn that Prof. McFadden is very much better and will be able to be out in a couple of weeks.

If you have a neighbor that borrows your GRAPHIC every week, tell him that he can get the eight page paper for one dollar.

W. W. Mathews, of Nineveh town ship, is building a fine residence, J. B. Porter is also building a new house on his large farm northwest of town.

We are thankful for the interest that is being taken by our friends in increasing the circulation of the GRAPHIC. The list grows longer daily.

The meeting at the Christian Church still continues with in increased interest. Up to Wednesday night, there had been sixty eight additions.

The American Agriculturist, printed in either English or German and the Weekly GRAPHIC one year for two dollars if you subscribe before Feb. 1st 1886.

Farmers will notice, by comparing our last week's market report with the report of this week that there has been an advance nearly all along the line. This is encouraging.

H. P. Ellis has added a nice line of groceries in connection with his feed store, and will sell everything down to bed rock for cash. Coal oil 15c per gallon; Arbutuoke oil 15c per package or seven for \$1.00.

Some person left a pound of powder in our office a few days ago. We did not throw it in the stove, but laid it carefully away and if owner will call for same he has our permission to carry it out of the house.

We publish the stock law again this week and would advise our readers to lay the paper away for future use. The stock law as published, is only in force in this county against sheep and wine in the townships which voted in September.

Mr. G. W. Tull dropped in on us rather unceremoniously last Saturday afternoon. He has spent the past four months in "Old Virginia," and he went there with the intention of locating on the woodings of the West proved too strong for him and he had to return. He will locate in Trenton for the present and we can assure the people of that thriving city that a better social and business gentleman could not locate among them.

LOW DOWN BUSINESS. Among some of the meanest things that any man, woman or child can do is to tell things which are not so, or in other words to wilfully lie. We mean just what we say and refer to certain unprincipled competitors who, because they cannot meet prices fairly, will resort to low down tricks. Telling honorable men and women to "look out for a certain low priced house and be sure when you buy a certain number of pounds of goods that you get it," and "they would sell you one article and give you another." What mean, contemptible, little business this is. No one but a sneak would think of doing this. And now, friends, we leave this for you to prove by weighing every article, counting and measuring, and not listen to men who will lie with ease and you had better watch him.

The trouble arises just here. When we changed from the long credit, bloodsucker way of doing business, which makes good men pay dishonest men's debts, to a STRICTLY CASH business others saw they could not stand it and hence, like throwing a stone among a lot of dogs, the one it hits yelps. We have been in business nearly ten years and expect to be here ten more, and will sell you more goods for your money than any credit house can. Because we would not consent to hold our goods up to some one's else price then they are mad and take this method of revenge. It is all right. Straws show which way the wind blows, and we are going right on and sell our goods for our own money and if we see fit to give them away whose business is it? Come and buy and see if you don't save money.

Respectfully, HALLADAY BROS.

The "Old Commoner" as the friends of Thaddeus Stevens, the distinguished Congressman were fond of calling him, once wrote to a fellow member who was suffering from indigestion and kidney disease, "Try Muesler's Herb Bitters, I believe it will cure you. TO OUR READERS.

We cannot too strongly urge upon our readers the necessity of subscribing for a family, weekly newspaper of the first class—such, for instance, as The Independent, of New York. Were we obliged to select one publication for habitual and careful reading to the exclusion of all others, we should choose unhesitatingly The Independent.

It is a newspaper, magazine, and review, all in one. It is a religious, a literary, an educational, a story, an art, a scientific, an agricultural, a financial and a political paper combined. It has 32 folio pages and 22 departments. No matter what a person's religion, politics or profession may be, no matter what the age, sex, employment or condition may be, The Independent will prove a help, an instructor, an educator. Our readers can do no less than to send a postal for a free specimen copy, or for thirty cents the paper will be sent a month, enabling one to judge of its merit more critically. Its yearly subscription is \$3.00, or two years for \$5.00.

Address, The Independent, 251 Broadway, New York City.
