GRAPHICS

Tull's photos are the best. New Millinery goods at Mrs. Leech's. A little child of Smith Harrold died Tuesday and was buried Wednesday afternoon. The O. K. bridge across the Chariton is being rebuilt. The splendid rain Monday afternoon was greatly appreciated by all who did not attend the circus. Juno McClanahan, of Millard, left a very fine sample of corn at the GRAPHIC office this week, that was fully matured. The corn was planted June 20. A grand benefit will be tendered the Kirksville fire department by the members of the Shelburne Linn Company at the Opera House Saturday evening, October 22. Mrs. Fred Grassie was stricken with apoplexy about 4:30 o'clock Wednesday morning, and has since been in an unconscious condition. Little hope is entertained of her recovery. Congressman Mudd, of Maryland, and a Farmer Wade, of Missouri, will speak in Kirksville, Tuesday, October 25, at 7 o'clock p. m. Both are orators of national renown. All are invited to hear them. The O. K. line has finished laying new steel between Kirksville and Quincy and the track is now in excellent condition. The schedule from Kirksville to Quincy will be materially shortened at an early date. A railroad wreck prevented Maj. Brock from reaching Kirksville to fill his appointment. The crowd, however, was highly entertained for over an hour by Hon. S. M. Pickler who consented to supply the place of Maj. Brock. William Baldwin says that he is a Democrat, but he wants it distinctly understood that he will not obey the injunction to vote the Alliance ticket. There are at least three hundred Democrats in Adair county of the same mind as Mr. Baldwin. Mrs. Eads left a sample of potatoes at the GRAPHIC office Thursday that were planted July 15. The potatoes are as fine as any that are now being shipped here from the North. This is good evidence that Adair county need not have been short on a potato crop. The case of Dr. W. E. Hickman, charged with selling a machine for the manufacture of counterfeit money, was before the grand jury at Kahoka last week. No bill was found, and Mr. Hickman was discharged. An account of his arrest was published in the GRAPHIC some weeks ago. The Democratic county convention convened in Judge Ellison's office Monday afternoon. The work of the convention was short. The Farmers' Alliance ticket was endorsed throughout by the convention, as the "anti-snappers" predicted it would be, and the convention adjourned. J. M. Crawford writes from Berryville, Ark., that they are having a "good deal of politics" down there, and that the Republicans are gaining ground all the time. In September they elected a straight Republican to the most important offices in the county. He further says that the wheat crop in that section was splendid, and that times are good and his city and surrounding country are in a prosperous condition.

But everyone, even if pledged to a life of "single blessedness," is bound to be interested in weddings, and wants to know all the latest fads concerning them; and everyone will be thoroughly posted about all the details of a modern fashionable wedding, and know how to manage any style of wedding, after reading (as everyone should) the very fully illustrated and exhaustive article, "The Modern Wedding Festival," published in Demorest's Family Magazine for November. The Bible and Science. The Century Magazine will take up the Bible and Science controversy. In the November Century Professor Charles W. Shields, of Princeton, answers the question "Does the Bible contain Scientific Errors?" with an emphatic no. He says: "Literary and textual obscurities (there may be upon the surface of Holy Writ, like spots upon the sun, or rather like moles in the eye; but scientific error in its divine purport would be the sun itself extinguished at noon. Such a Bible could not live in this epoch." Professor Shields' article will be followed by one in the December Century on "The Effect of Scientific Study upon Religious Beliefs." The elegant display of carriage robes, blankets and horse furnishings in Perry's show window is an exhibition of fine taste, and is the work of Mr. Al. Emmerson, who recently came here from Maryland.
