

THE WEEKLY GRAPHIC

T. E. SUBLETTE, Proprietor.

KIRKSVILLE, MISSOURI.

FRIDAY, OCT. 25

GRAPHICS.

Mrs. Leech for Millinery. Circuit court begins next Monday.

Read Paulding & Co's ad in this GRAPHIC.

Don't forget Dr. Johnson extracts teeth without pain.

L. C. Sigler's new delivery wagon is a beauty.

The work of maccadamizing High street is progressing rapidly.

The city council did some more business (!) at its last meeting.

L. C. Sigler, who has been dangerously ill for several weeks, is again able to be out on fine days.

Mr. Frank Spitzer left a sample of the finest sorghum we have seen at the Graphic office Thursday of last week.

Joseph Marquess will have a sale of horses, cattle and hogs at his farm 1 1/2 miles north of Sublette, Tuesday, October 29.

The School at Oak Grove is proceeding nicely under the supervision of Mr. Carothers, of the Kirksville Normal school.—Gallatin Democrat.

Prof. Dobson and family feel very grateful to the people, and the fire company who worked hard and carefully to save goods and building.

The Kirksville postoffice has been made an international money order office, and persons desiring to send money to foreign countries can now do so through this office.

Dr. Willard has strawberries set out September 1 that are bearing. He brought one of the berries to the GRAPHIC office Thursday, that is larger than a quail egg.

Stanton has the finest line of queensware, lamps, and glassware in North Missouri. He has English porcelain ware, 100 pieces in a set, as low as \$8. Mr. Stanton will be delighted to have the ladies call and take a look at his goods.

Cards are out announcing the marriage of Miss Rosamond M. Woolley, of this city, to Mr. I. Lee Gilmore, of Kansas City, at the home of Mrs. A. M. Potter, 601 Washington street, Tuesday, October 29, at 9:30 A. M.

D. R. Shoop left second crop peaches at the GRAPHIC office Saturday that were as large as marbles, and L. F. Hubbard left second crop apples that were as large as hens eggs. The latter were of the early June variety, and were almost matured.

T. W. Fry has purchased an interest in the O. K. barber shop and began work Wednesday. Mr. Fry is an excellent workman, and that shop now has three of the best barbers in North Missouri. All work attended to with neatness and dispatch.

A family by the names of Davis consisting of two men, two women and four children reached Kirksville from Iowa en route to Macon county three weeks ago. They stopped in the north part of town to stay over night, and next morning one of the men was sick with fever, which developed into typhoid. One after another of the other members became sick until all were down. Monday evening the man died. As they were out of money a canvass was made among the citizens, and \$50 cash was subscribed and turned over to the Mayor to use in supplying the needs of the family. The man was taken to Love Lake for burial.

During the past week more than 200 head of cattle have died in Western Kansas from eating the second growth of sorghum, which is poisonous. The crop of sorghum is very large in Western Kansas, and the second growth is exceedingly rank. Many farmers turned their cattle into the fields to eat it down and death has resulted in nearly every case. In Phillips county nearly fifty head died from this forage, while reports from other counties state that the loss has been heavy. In Stanton county a herd of forty fat steers died within two hours after eating sorghum forage. Those who have lost cattle from this cause surely are not readers of the agricultural papers, for warnings loud and long have often been given by the press.

PERSONALS.

A. Bowen was at Queen City Wednesday on business.

E. E. Shoop, of Willmathville, was in the city Tuesday.

Hon. William Sears, of Macon, was in the city Wednesday and Thursday.

Mr. and Mrs. Bob White, of Macon, spent several days in Kirksville this week.

Rev. Morgan left Monday for St. Jo. to attend the State convention of the Baptist church.

Henry Eckert is building a new residence one block east of the square on Harrison street.

Charles Dickson, of Pure Air, was in the city Wednesday, and made the GRAPHIC a business call.

Mr. A. B. Dawson left at the GRAPHIC office one day this week, a fine specimen of the Kleler pear. The tree on which it grew yielded two or three bushels, and the fruit is as fine as any shipped to this market.

Had there been no water works in Kirksville last Friday night the fire started in Kellogg's ware house would have swept everything to the southern limit of town, and a loss of many thousands sustained. As a business investment the water works are a great success.

The fire company deserve the thanks of the city for their prompt response and excellent work when the fire alarm calls them out. It is work without compensation on their part, and the citizens should see that they are supplied with the necessary clothing to protect them from the wet and cold.

Gene Panchot one of the fire company, while making a run for the engine house on his bicycle Sunday morning, struck Mr. Michael Clem and knocked him down, injuring him so badly that he was confined to the house for several days this week. For a time it was thought that his injuries were of a very serious nature, but he is now able to be out.

A prairie schooner drawn by four yoke of cattle was an object of considerable attention on our streets Tuesday. They belonged to Geo. Nichols who moved from Schuyler to Ripley county a year ago. He is now going back to old Schuyler to locate. The only live stock he possessed besides the cattle was two hounds, and he sold them to Dr. Goben before he left town.

Two Fires

Sunday morning shortly before 7 o'clock Prof. Dobson's house caught fire in the roof. The fire was discovered by Mr. Dobson who thought he smelled burning soot and went out to investigate. The fire alarm was sounded, but owing to the fire department having to wait for a livery team to draw the hose cart, the fire had gained great headway before a stream could be turned on. While waiting for the fire company the greater part of the furniture, books, clothing, carpets and bedding was removed from the building. As soon as the hose could be attached to the hydrant two streams were turned on the burning building, and the flames were very soon under control, but the entire upper story was burned away. During the progress of the fire several serious accidents were narrowly averted. H. M. Patterson was injured by a falling chimney, but not seriously. The building was insured for \$1850, and contents for \$1000. Prof. Dobson and family are now keeping house in the residence of Prof. Ross.
