WILSON GIVES IT UP

MEXICO TO BE LEFT TO ITS OWN DEVICES BY THE UNITED STATES.

ENVOY LIND IS RETURNING

President Informally Read His Message on the Situation to the Senate and House Foreign Committees.

Washington, D. C.—President Wilson read to the members of the senate committee on foreign relations and the house committee on foreign affairs—Republicans as well as Democrats—the message on the Mexican situation which he will deliver in person to a joint session of both houses of congress.

It is a message of friendship, not hostility, and precedes a policy of absolute noninterference. It proclaims to the world the sympathetic feeling that the United States government and the American people have for their neighbors in the rebellion torn republic south of the Rio Grande; it records the views of the United States on constitutional government, its unalterable opposition to governments set up by the irregular and arbitrary acts of ambitious individuals, and finally announces that the government of Victoriano Huerta shall not be recognized.

The efforts of the United States to bring about a peaceful settlement of the difficulty through the representations made by John Lind, special envoy of President Wilson, are outlined, as well as the answer of the Huerta government.

The President's message received practically unanimous approval. The future course of this government will be one of non-interference, in the hope that the effect of its present efforts and the pressure of foreign governments will constitute a moral suasion that ultimately will bring about peace in Mexico. The message makes it plain that there will be no lifting of the embargo on arms.

Secretary Bryan sat beside the President as the latter read his message.

A message from John Lind, personal representative of President Wilson in Mexico, said that he had said good-bye to Foreign Minister Gamboa, and had left the City of Mexico. Negotiations so far as Mr. Lind is concerned have been terminated. The United States will receive any further proposals through Charge d'Affaires O'Snaughnessy of the American embassy.

STILL SELL THEIR CATTLE

All Records at the Kansas City Stockyards for a Single Day Were Broken.

Kansas City.—The cattle market here has broken a record. Thirty-eight thousand cattle were received at the yards in one day recently, which is the largest number ever received in the city in the same time.

The previous record was made October 5, 1908, when 33,340 cattle were received. The same day is also record day in the five Western markets—the receipts totaling 83,000, of which nearly half were marketed here. The receipts here are more than half of the total number of cattle received in the six days last week.

The market is steady to fifty cents lower. Several loads of prime Missouri steers weighing 1,060 and 1,300 pounds sold for \$9.

ELECTION LAWS PROPOSED

The Senate Committee is Drafting a Bill for Choosing United States Senators.

Washington, D. C.—To forestall further disputes over the election of senators in accordance with the recent direct election amendment to the constitution, the senate elections committee is preparing to propose a certain regulatory legislation.

Senator Walsh of Montana and a subcommittee are working on a bill which will provide an extension of state laws for electing representatives in the various states to the election of senators. This not only would authorize governors to call special elections to fill vacancies but would authorize the election of senators at the regular elections.

Frosts at Cleveland, O.

MADE GOOD ROADS

A HEARTY RESPONSE IN MISSOURI TO GOVERNOR MAJORS' PLAN.

OBJECT LESSON TO NATION

A Quarter Million Men Made Four Hundred Miles of New Roads in the Two Days—Kansas Governor Helped.

Jefferson City, Mo.—Based on telegrams received from counties scattered in every portion of the state, Governor Major said that one quarter million would be a conservative estimate of the number of men who toiled upon the roads and highways of Missouri, in answer to his proclamation.

The governor estimates that the value of the work that was done will be at least one and a half million dollars.

"Missouri's two good road days have been a success exceeding even our anticipations," Governor Major said. "From the telegrams I have received one-quarter million will be a conservative estimate of the number who turned out to work on the roads of the state the first day. That number was increased the second day, judging from the telegrams and telephone messages received.

"The value of the labor alone in the two days will be \$1,000,000. More than \$200,000 has been raised in the various counties and cities of Missouri and spent for material and road supplies. Thousands of teams have been worked. Tons of cement have been put into bridges and culverts. This will add another half million dollars to the total amount of improvement that has been done and will be done on the two road days. And that is putting it small.

"Missouri has shown the Nation an object lesson in road building. At least 400 miles of new road have been built. Repairs have been made upon hundreds of other miles of our highways. Hills have been dynamited off the entire state over."

Governor Major received "returns" from road day at the executive mansion, where he was entertaining Governor Hodges and Mrs. Hodges of Kansas. It was just like an election night—only it is doubtful if ever any bulletins were watched with closer interest than this road bulletin.

HENSON LEAPS FROM TRAIN

The Alleged Kansas Cattle "Rustler" Made His Escape While Being Taken to Garden City.

Garden City, Kan.—C. C. Henson, charged with stealing cattle, who was found at Grand Forks, N. D., while being returned to Garden City in charge of Deputy Sheriff Reeves, escaped from a train. Reeves, wearied with a vigil of three nights, slept. His prisoner taking advantage leaped from the train at Offerle. Four autos bearing Garden City men left in search of the fugitive. Feeling against Henson is high.

SEND TROOPS TO MEXICO

A Resolution Offered by Senator Penrose Requires Army to Protect Americans.

Washington.—American troops for police duty in Mexico for protection of American lives and property and an emergency appropriation of 25 million dollars to be expended under the direction of the President for that purpose, were proposed in a resolution by Senator Penrose. He did not ask the Senate to pass his resolution and it went over.

A concerted effort on the part of Republicans and Democrats to support President Wilson in his Mexican policy and to carry to the world the definite idea that the President has the full support of the American people at once became apparent.

TELEGRAPHIC BRIEFS

The motor boat bandit is the latest, according to the police of the Chicago suburb of Windsor Park, which fronts on Lake Michigan.

His attempt to repair a leaking gas pipe caused the death of Otto E. S. Hemminghoeser, probably fatal injuries to his wife and almost the complete destruction of their home at St. Louis.

The first test of the constitutionality of the California alien land law will be begun at Los Angeles within the next few days by H. Taniguchi, a wealthy Japanese, according to his attorney, H. A. Chamberlin.

Eight persons were injured, several of them perhaps fatally, when a Missouri, Kansas & Texas passenger train from Sedalia and a local freight train met in head-on collision at the foot of Dock street in St. Louis.

HE'S BACKING UP

HUERTA MAY RECONSIDER THE UNITED STATES PROPOSALS FOR PEACE IN MEXICO.

WILSON'S MESSAGE DELAYED

President to Withhold Communication to Congress to Give the Mexican Government Time for Action.

Washington, D. C.—The Huerta administration in Mexico may reconsider its rejection of the American proposals to restore peace in Mexico and arrange a new basis for negotiations with the United States.

Strong intimations to this effect reached official Washington along with the information that the financial condition of the Huerta administration was such that a crisis was imminent.

Should the Huerta government decide to enter into a new basis of discussion, withdrawing its contentions as expressed in the Huerta note replying to the proposals communicated by Mr. Lind, President Wilson in all probability will not read his message to both houses of congress as he intended.

The President made no effort to prevent the house from adjourning until Tuesday. It had been supposed that he would read the message Monday and would ask the leaders in congress to arrange a joint session. Failure to send any word to the leaders was interpreted in official circles as meaning that the United States had practically given the Huerta government until Tuesday to make up its mind finally as to what it would do.

It is positively reiterated that the United States will continue to insist on the resignation of Provisional President Huerta or an announcement of his intention to do so, as well as his elimination from the presidential race in the subsequent election.

**Raps Wilson Mexican Plan.**  
London, Eng.—The Saturday Review, in a leading article, savagely attacks President Wilson's Mexican policy. It says President Wilson "Unconsciously is playing the game of those in the United States who want control of Mexican politics in order to fill their own pockets."

A RECORD IN EXPORT TRADE

Department of Commerce Says that July Business Was Best in History of the Nation.

Washington.—As an international department store the United States is rapidly becoming the shopping center of the world, for in July the business done with other nations exceeded all records for any single month in the history of the Nation. The balance of trade was all in favor of American manufacturers and producers.
