

## ALL OVER THE COUNTY

### The News of Neighboring Towns Briefly Told

The American Legion are putting on a big Fourth of July celebration at Browning. There are to be many attractions, including a ball game.

Potato raisers in the region of Sumner have reported to the Star that potato bugs are greater in number and fuller of pep this season than was ever known.

The Sumner Star says the wolves are getting so bold in Grand river bottom that they come into the farmers' yard and fight with the dogs over the scraps from the table.

The Gazette calls upon the people of Brookfield to get behind the authorities and give all the assistance possible in ridding the town of bootleggers which are said to be overrunning Brookfield.

Mrs. Sig Steiner of Marceline has been appointed state fair commissioner for Linn county. Her duties will be to acquaint the people of the county with the program and leading features of the state fair to be held at Sedalia, August 19 to 26.

According to the fish and game laws of Missouri, no person needs a fishing license to fish in their own county, but they do have to have a license to hunt, and on taking out a hunting license, he is allowed to fish and hunt in any county in the state.

Marceline Journal:—The American Legion has named a committee headed by C. M. Kendrick to erect a monument in Ripley Square to be unveiled Armistice Day. The design will be a doughboy going over the top, life size, with bayonet and it will be made of bronze. It will be 15 feet high, and the name of all local ex-service men will appear on the monument.

Linneus News:—"The happiest man to enter our sactum this week was T. T. Peek, manager of the Anderson Produce Co., who came in Wednesday to tell us of the arrival at his home that morning of a fine twelve pound republican boy. Peek admires General John J. Pershing and has named the boy John Pershing Peek in honor of Linn county's illustrious soldier and general."

The Gorin Argus says that recently on the Santa Fe, which passes through that town, there was a freight train of 170 cars besides the caboose. The train is said to have started on the division with 190 cars, but had to set out ten at one point and ten at another, and when it passed through Gorin it had 170. This is said to be a record on that division, and is a record for many entire railroad systems.

The industrial rehabilitation work being carried on in Missouri under the direction of State Superintendent of Schools Sam A. Baker, has been unanimously endorsed by the Missouri state federation of labor which recommends co-operative understanding between the committee on education of the federation, the city central labor bodies and the several trades that may be now, or in the future will become, interested to see that efficient training be given the young men of this state who were injured in

industrial plants during the world war.

Daily Argus:—It will be interesting to the former school-mates and friends of Jack Rummell to learn that he will be graduated tomorrow from the University of Pennsylvania in Philadelphia, in the medical course, getting his M. D. degree. Jack has spent two years in Philadelphia, after having been graduated from Missouri University. He will arrive home at Columbia, and after visiting the family will enter St. Luke's Hospital at St. Louis and take his interne work for a year. As "Jack" grew up here in Brookfield, there are a large number back in the old home town to wish him success in his profession.

### Methodist Episcopal Church

Edward R. Kelley, Pastor.

Next Sunday morning Mrs. J. L. Carothers will bring the message. Sister Carothers is well known in Laclede and should by all means have a good hearing; and we are safe in predicting that she will bring a message of vital interest and importance to those attending.

The Epworth League will meet at 7:15 as usual.

Regular preaching service Sunday evening. Rev. J. L. Carothers of Las Animas, Colo., will preach at that time. God has done wonderful things for Brother Carothers for which we should be glad; and we are certain he will sound no false note in the message he will bring us at the evening hour.

The pastor, with the approval of Dr. English, the district superintendent, will preach in the Methodist church at Marceline Sunday morning in the absence of the pastor, Dr. Wyrick.

The concert to be given under the auspices of the Epworth League on Saturday evening of this week, and conducted by the M. W. College Concert Co. will be free. There will be no admission, but a silver offering will be taken during the entertainment.

Choir practice Friday evening under the direction of Sister Shell, at 8:00 o'clock.

The following may be of interest to our readers as it has to do with Rev. J. L. Carothers and his wife who have just closed a most successful meeting at Cheney, Kansas, before coming here. One of the Cheney papers speaking of the last Sunday evening service, says: "It was a wonderful occasion. A large congregation taxed the capacity of the house. Brother Carothers gave us a sermon which for vivid picture of eternal woe we have seldom heard equalled. About thirty knelt at the altar and found their savior." What an opportunity for Laclede to use these Spirit-filled people for a week or more!

### A "Result Meeting" in Millinery

The millinery leaders will have an all-day meeting with a picnic dinner in the city park at Linneus, Monday, June 19.

Many of the 300 hats made by the women will be on exhibition.

Miss Mary E. Robinson from the college of agriculture will give new suggestions on millinery which will be very instructive. There are 13 of the 21 Farm Bureau communities working on millinery. Eleven of these have trained leaders who are taking a very active part in helping women of their community understand the art of millinery.

Everybody is invited to bring their baskets and come to see the results.

### Candidates a Plenty

Offices in Missouri do not seem to be seeking the man this season. Thirteen candidates have filed their declarations with the secretary of state for their party nomination for United States senator. The state never had such a surfeit of candidates for that office. Eight of the thirteen candidates are republicans. Four of them are residents of St. Louis. The democrats have three candidates and the socialists and socialists-labor one each.

Approximately 300 candidates, the largest number in the history of the state, have announced themselves for the various offices for which nominations will be made in August.

The large number of republican candidates seeking the nomination for United States senator has created an interesting situation among the politicians throughout the state.

There are three women candidates filed for congress in the state and one woman candidate for the state senate.

In this congressional district there are six candidates for congress. Those who have filed are E. Y. Keiter, of Moberly, for the republican nomination, and Ralph Lozier, Carrollton; J. H. Whitecotton, Paris; Clarence Ragsdale, Moberly and W. W. Rucker, Keytesville; for the democratic nomination, and Elias R. Anderson, Galt, socialist.

In this the sixth senatorial district Walter Brownlee of Brookfield has filed for the democratic nomination and George H. Cox of Meadville for the socialist.

### Baptist Church Notes

E. M. Conway, Pastor.

Sunday was a banner day all around. Sunday school went one higher than the previous high record.

The children at the evening hour did real well especially in building The Perfect Life.

Our meeting is in progress, and while the attendance has been fair yet it is not up to expectations. Let everyone make an effort to come every remaining service.

It is through an oversight on the part of the pastor that mention was not made concerning the profession of little Lucile Reed on Sunday June 4th, sooner.

Next Sunday is Decision Day. May we not have a number to stand out in Decision for Christ.

### Much Lower Prices

We can, and do, make much lower prices than our competitors for the following reasons: 1st. We buy material in large quantities and get extra special discounts, while they order one pair at a time and pay about twice as much. 2nd. We buy our material in either rough or semi-finished condition and do all the special grinding ourselves, while they have to pay a high price for all this work. 3rd. If a glass proves to need some change after having been worn a few days, we step into the grinding room and re-grind it without cost, while they must throw it away and order a new one. Of course they must charge extra to begin with to cover this loss.

### Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.

Circulars free. All Druggists.  
 F. J. Cheney & Co., Toledo, Ohio.

## A Notable Victory

The Methodist of northern Missouri, comprising the Missouri Annual Conference, are justly proud of the victory which they have won in their financial campaign for \$175,000 to enable them to complete their new hospital building. The city of St. Joseph came to the final rescue and backed the proposition in fine shape, and Rev. Kelley, pastor of the local Methodist Episcopal church, received a "wire" from Dr. W. F. Burris yesterday which stated: "Gone over the top with several thousand to spare."

During the campaign for the \$175,000 we published a cut of the building as it will appear when completed, and we are taking the liberty of reproducing the cut in this issue of The Blade. The building, when completed and fully furnished, will cost \$850,000, and the Board of Trustees have decided to furnish the building entire when it is completed. This, we think, a very wise step.

Rev. Kelley wants us to say that he appreciates the fine backing he had in Laclede to help save this institution to protestantism in north Missouri.

## Flour, Feed, Country Produce.

Expansion Flour	-	\$2.10
