

The Howard Union.

Francis M. Taylor, Editor and Proprietor.

Glasgow, Mo.

THURSDAY, SEPT. 14, 1865.

The examination of Finley and Johnson, the two men whose arrest we noticed last week on the charge of horse-stealing, resulted in Johnson being released and Finley being bound over in the sum of \$600 to answer at the next term of our Circuit Court.

Another charge for robbery of Fielding Shipp, of this county, in 1863, was also preferred against Finley. On this he was bound over in the sum of \$800 to answer at our next Circuit Court. He gave bail in both cases.

See advertisement of Mr. Louis Fischer in another column. He is a skillful workman, with many years practical experience in the Tailoring Business. He also keeps on hand the best description of Goods for Gentleman's wear.

For the Howard Union.

The following correspondence may be interesting to the public:

Glasgow, Sept. 9th, 1865.

Hon. R. F. WINGATE, Attorney General: Do the restrictions of the new Constitution apply to Sabbath-school teachers? Please reply officially.

J. A. QUARLES.

JEFFERSON CITY, Sept. 9th, 1865.

J. A. QUARLES: My reply is, No!

R. F. WINGATE.

We notice a call published, signed by Rev. C. A. Bateman, Secretary and Missionary for Missouri, for a General Convention of the Baptists of the State of Missouri, at Hannibal, Mo., Sept. 20th, 1865, in which "all loyal Ministers and members of the various churches of this denomination, are earnestly invited to be present at its deliberations." This call is made by twenty clergymen, representing St. Louis, Hannibal, N. G. River Association, Platte River Association, Blue River Association and East Fork Association.

Considerable activity prevails among some of the boys of our town in the fishing line, and they meet with considerable success. Since the river has fallen the fish seem to be plenty, and bite freely. Some of those caught are of large size, weighing from forty to seventy pounds.

NEW STORE AND NEW GOODS.—GEORGE PHIPPS, Esq., after considerable labor and expense in completing his new store-room in this city, has it now ready for business. It is fitted up in the neatest and most convenient style for mercantile purposes,—in fact, its equal is seldom met with in this section of the State. To keep everything up in corresponding style, he has just purchased in the New York market one of the finest and most complete assortments of merchandize, which he is now unpacking and placing on the shelves. Give him a call and examine his new Goods. Notice his advertisement.

A OOPY OF SUSPENSE.—The length of the new suspension bridge, which is soon to span the Ohio River, will be fifteen hundred and fifty-seven feet, being about two hundred feet longer than the Niagara Suspension Bridge, and longer than any wire suspension bridge in the world.

PAID.—The St. Louis income lists have just been published, and the park-payers take the lead. One of them heads the list with \$400,000; two others follow with \$200,400 each; a fourth comes in with \$176,000; and so on, scaling downward to the lowest which is \$28,000.

The preachers of Monroe county not being able or willing to take the oath, have resolved with great unanimity to suspend their functions for the present—so far as preaching or solemnizing marriages are concerned. This is the most prudent and wisest method for them to pursue. Father Phelan, pastor of a Catholic congregation, however, pursues a contrary course, and intends to go on preaching regardless of the oath.

A Sabbath School of the M. E. Church will be organized in this place at the Boy's Academy on Sabbath next, at 9 o'clock A. M. Preaching at the same place at 10 1/2 A. M. by Rev. D. A. McCARDY. The public are respectfully invited.

Mr. Wm. A. Carr, who resides ten miles southwest of Springfield, Mo., has threshed this year's crop of wheat from 120 acres. The yield was 1,800 bushels of good wheat (fifteen bushels per acre), which, the Patriot states, is the largest crop raised in that region within its knowledge.

The Springfield, Mo., Journal, of the 25th ult., says the Court House, together with all the records of Christian county, were burned Sunday night last. Supposed to be the work of an incendiary. The loss to the county is almost irreparable.

From the appearance of the columns of the Weston "Border Times," it would seem that the Sheriff is about to sell a good portion of that county out for debt—some very closely printed columns of that paper being filled with Sheriff Sales, besides a goodly number of Trustee's sales of real estate for debt.

The Quincy Herald learns from a friend from Lorange, Mo., that a stabbing affray took place in that city, on the night of last Sabbath, which resulted in the killing of ex-Mayor Triplett, an old citizen, and in the severe wounding of Samuel Stores, by a man by the name of Simms.

Bishop Smyth (Catholic,) of Dubuque, Iowa, the burning of whose stable, carriage, and horses was noticed some time since, has had his losses made good by the voluntary contributions of his fellow-citizens. During his recent absence new buildings were put up in the place of those destroyed, and a carriage and horses given him.

The corner stone of the new Catholic church in Canton, Mo., was laid on Sunday the 20th. In consequence of a pressure of duties devolving upon Archbishop Kendrick, he was unable to be present. But the ceremonies were conducted by Rev. Father James O'Brien, whose able and interesting discourse was well received by a large auditory.

One hundred colored persons of Lynchburg, Va., will be sent to Liberia by the Colonization Society in November; other persons who may apply will also be sent there.

ANNUAL FOOD FOR ONE MAN.—The statistics of the Commissary Department in the Army go to prove that each individual consumes about two and a quarter pounds of dry food daily, about three-fourths vegetable and the remainder animal, making an annual consumption of eight hundred pounds. Of fluids, including every variety of beverage, he swallows about 1,500 pounds.

THE SINGER FAMILY SEWING MACHINES.—An advertisement in another column announces a reduction in the prices of these universally popular machines. They are produced by the Singer Manufacturing Co., of New York, and sold by Edwin Dean, general agent in St. Louis. Descriptive pamphlets, circulars, and price-lists can be obtained from him. Prices have been reduced so as to place these invaluable machines within the reach of every family, and no prudent family should be without one. The Singer machines were the first invented, and they are constantly receiving improvements, and the company is determined that no other machine shall ever equal theirs for all kinds of work. Those who have been led to believe that the Singer Family Sewing Machines cannot do better work than that done by hand should call at the St. Louis agency, and see them stitch, hem, fell, braid, tuck, bind, gather and cord the finest or coarsest goods.

The Macon Times says there will be sixty building erected in that city the present season.

A census is being taken of the colored people of Memphis, and enough has been developed to show that the aggregate number of blacks will overreach twenty thousand; it is said it will reach twenty-five thousand.

NEW EGGS IN WINTER.—Let your hens have plenty of clean water. Feed scraps of meat, potatoes, cabbages, grass, and other vegetables; also let them have plenty of old mortar, shells and bones. Boiled food, not hot, is always good. Thus by proper attention your hens will supply you with eggs all the year round.

The Congregation of Sacred Rights, at Rome, has just published a form of blessing to be used by telegraph. The clergy are to assemble at a telegraph station, where a certain amount of chanting, &c., is to be done, and prayers put up, in which among other appropriate passages from the Scriptures, is this, from the 104th Psalm: "Who walketh upon the wings of the wind; who maketh His angels spirits, His ministers a flaming fire."

The ladies of Fayette, by private subscriptions and a festival, have raised near \$350 for the purpose of building a fence around the city cemetery, which will be constructed at once.

The old effort to form a new county out of parts of Chariton, Macon and Linn counties, is again agitated by parties interested.

Two clays from Ray county, named Frank Davis and Garland Parker, were arrested at Chillicothe last week, on the charge of horse stealing; the Circuit Court being in session the first was sentenced to the Penitentiary for two years. Parker was held for trial at the November term of the Court.

A Chicago policeman, named Hall, while arresting a ruffian, Wednesday morning, was set upon by two brothers, named Tracy, who attempted to rescue their comrade. They were about to murder the policeman when the latter drew his revolver and killed them both.

Nearly ten thousand acres of land have been leased to colored people near Vicksburg this year, and most of it is under successful cultivation.

Winans' "cigar ship" will be launched in a few weeks from a London yard. The rivets that fasten her are counter sunk, so that her outside is perfectly smooth. This fact, her peculiar shape, and the immense power expected to drive her, raise hopes of an extraordinary rate of speed. Her engines are three cylinder, to be driven at high pressure, turning one steel shaft, which revolves through the whole length of the vessel, projecting from the fine points at each end, where it carries a screw.

The Chillicothe Chronicle says the Grand Jury of that county has indicted a merchant of that place, for voting falsely at the late election.

PALMER & Co., have just received a new and desirable stock of Goods from the Eastern markets. See advertisement in another column.

"With malice toward none, with charity to all, with firmness in the right, as God gives us to see the right, let us strive on to finish the work we are in, to bind up the Nation's wounds, to care for him who shall have borne the battle, and for his widow and his orphan, to do all which may achieve a just and lasting peace among ourselves and with all Nations."—[Abraham Lincoln.]

Mr. DIETRICH, the great statistical authority of Europe, estimates the population of the world at 1,300,000,000, of whom twenty five per cent. are Christians. Half of the latter—652,500,000—are Roman Catholics.

The report that General Lee is engaged in writing a history of the late war is contradicted. He has, however, received numerous handsome offers from publishers on both sides of the Atlantic, but has, so far, uniformly declined all of them.

LETTER FROM PRESIDENT JOHNSON.

A rupture between the Provisional Government of Mississippi and the U. S. Military forces in that State occurred a few weeks ago. Gov. Sharkey, as Commander-in-Chief of the militia of the State, issued an order requiring the organization of a company of militia in each county of the State. By authority of the War Department, Gen. Slocum annulled the order of Gov. Sharkey, and prevented the organization of the militia. The Governor appealed to the President and received the following letter in reply.

JACKSON, Miss., Sept. 8, 1865.

Gov. Sharkey publishes the following dispatch from President Johnson: "It is believed there can be organized in each county a force of citizens of militia, to suppress disturbance, preserve order, and enforce the civil authority of the State, and of the United States, which would enable the Federal Government to reduce the Federal forces from the State, thereby reducing the enormous expenses of the Government."

If there was any danger from the organization of the citizens for the purpose indicated, the military are there to detect and suppress, on the first appearance of any movement insurrectionary in its character. One great object is to induce the people to come forward in defence of the State and the Federal Government. Gen. Washington declared the people, or the militia, was the right arm of the Constitution. As soon as it is practicable, the original design of the Government will be resumed under the principle of the great chart of freedom handed down to the people by the Founder of the Republic. The people must be trusted with their Government, and, if trusted, my opinion is they will act in good faith, and restore their former Constitutional relations with all the States composing the Union.

The main object of Maj. Gen. Carl Schurz's mission to the South was to aid, as far as practicable, in carrying out the policy adopted by the Government for restoring the States to their former relations with the Federal Government. It is hoped that such aid has been given.

The proclamation authorizing the restoration of the State government requires the military power to aid the Provisional in the performance of his duties as prescribed in the proclamation, and in no manner to interfere or throw impediments in the way of the consummation of the object of his appointment, at least without advising the Government of the intended interference.

(Signed) ANDREW JOHNSON.

FIGHT IT OUT ON THAT LINE. A planter of the parish of Iberville, La., has addressed the following communication to the Freedmen's Aid Association of New Orleans:

GENTLEMEN: I am a planter of twelve years' experience; this year I am working twelve hands, six men and six women; my laborers are to get one fourth of the net proceeds of the crops. They have a full understanding of the interest in the said crops. Our contract was made on the 1st of February last, and the result so far is a complete success. We have to-day 85 arpent of cotton; 25 arpent of sugar-canes; 75 arpent of corn—all in perfect condition. I don't mention the vegetable crops.

Under the old system ten arpent to the hand was considered a fair result, and more than three fourths of the plantations failed to come to that standard.

My laborers are all good people, behaving well, having good common sense; they are honest and true to their family. Besides the crop in common, they have raised for their private account small crops of corn and vegetables; they have poultry, &c., of their own.

Not a single difficulty has occurred among them since they have agreed to work on my farm.

Thus is the whole labor problem solved. Deal justly, give the freedmen some interest in their work, and there will be no trouble. In this case fifty per cent. more of ground is cultivated than the same number of hands cultivated under the old system, and the probability is that the planter will make that per cent. more.
