

Scott Countyicker.

PHIL. A. HAZEN, Publisher.

BENTON, MISSOURI.

Calendar for December 1901 with days of the week and dates.

TOPICS OF THE DAY.

Chauncey's Responsibilities. Senator Dewey is trustee for estates aggregating \$200,000,000 in value...

Two-Penny Meals for London Poor. A corporation in London is venturing upon the gigantic task of providing 3,000,000 of two-penny meals daily for the masses of the hungry...

The Streamless Life. With free rural mail delivery, cheap telephone service and regular deliveries from the stores, there is a prospect that the American farmer may soon be suffering from a lack of exercise.

The Man of To-Day. "The man of to-day," says Evangelist Williams, who was in charge of the revival at Wellington, Kan., spends six nights a week in lodge rooms riding the goat, and leaves the lamb of his bosom at home to bleat with the kids.

Enforcing a Large Contract. According to recent news the Philippine commission has decided to prepare a law enforcing compulsory vaccination everywhere in the archipelago. That means 10,000,000 located on 400 islands. As fast as vaccinated they should be required to take the oath of allegiance.

A Kitchen Worth \$5,000,000. The most valuable kitchen in the world belongs to the shah of Persia. With its outfit of cooking utensils and dishes it is said to be worth about \$5,000,000. Even the cooking pots are lined with gold and the plates and dishes used at the royal table are of solid gold, incusted with precious stones.

After 40 Years of Toil. Thomas B. Townsend, of New York, after 40 years of incessant toil, has just finished his compilation of newspaper and magazine articles about the great civil war, and has placed them on a series of shelves in the Columbia university library. There are 121 books, 2 1/2 feet square and a foot thick, which contain over 100,000 pages.

Samples of Clever Fighting. There is still enough war in the Philippines to give the American troops there splendid chances for the display of valor and strategy. The exploit by which a handful of men scaled an almost perpendicular cliff and surprised the garrison of a fortress, which was believed to be impregnable, was one seldom surpassed by the best fighters of any age or country.

Great Anxiety Vanishes. The rural carrier who has feared that the extension of the classified service to include him will make it necessary for him to pass an examination in Latin, geography, spelling, and transportation methods may now rest in peace. It is announced that the carriers will be chosen for greatest fitness for the work from the vicinage of the route he is to serve.

Too Much Fuss About "Germs." A physician writing to the London Times says: "Everything we eat and drink and wear runs the gauntlet of germs to an extent which nervous people had better not contemplate. Far too much fuss is made of them. If we listened to all these scares there would be nothing left to do but get into a bath of carbolic acid and stay there until starvation freed us from the dangers of life."

Tobacco as a Revenue Producer. Internal Revenue returns for the last fiscal year show that more than \$62,000,000 on account of the "weed" were turned into the treasury, being an increase of \$3,000,000 over the previous year's receipts. There was a notable decrease in the consumption of the cheapest class of cigarettes. The domestic production of tobacco in its various forms (including 8,500 tons of snuff) was 160,000 tons.

Only Fourteen Survived. It would be hard to find in the whole history of African exploration a story of more hardship and suffering than that told by Maj. H. H. Austin, of the British army. Last December 59 men set out under his command from Omdurman to survey the line of demarcation between Abyssinia and the British sphere of influence in that part of Africa. Recently 14 haggard men reached a little Portuguese settlement on the east coast. They were all that had survived of the expedition.

See Home in Lee's Statue. Hundreds of pounds of honey have been discovered in the great equestrian statue of Gen. Robert E. Lee at Richmond, Va. Both the horse and rider are hollow, and it appears that ever since last summer bees have been going in and out at the parted lips and nostrils of Gen. Lee and his horse. The bees are also making honey constantly. There is no way of getting inside the statue without damaging it, and the bees will be left alone in their iron home.

LATEST NEWS FROM MISSOURI

Interposed in Missouri History. The annual meeting of the Missouri State Historical society convened in Columbia Thursday. E. W. Stephens is president. An address of welcome was delivered by President Jesse, of the state university, and response by Gov. Dockery. Prof. E. M. Violette, of the state normal school at Kirksville, read a paper on the "Early Settlements in Missouri." H. E. Robinson, editor of the Maryville Republican, on "Two Missouri Historians." F. A. Snimon, of Sedalia, who recently gave to the society his collection of Missouri writings valued at \$25,000, read a paper on "Glimpses of Old Missouri from Explorers and Travelers." "Missouri's Influence on American History from 1840 to 1861" was discussed by Charles W. Harvey. President John W. Millon, of Hardin college, Mexico, read a paper on "Loan Office Certificates in Early Missouri History."

Peden May Be Released. According to a dispatch from St. Louis it appears that although the writ of habeas corpus for the release of S. C. Peden, one of the St. Clair county judges, was refused by Judge Thayer there, it is probable that Judge Peden will soon be released. In the hearing Judge Peden's attorney asked for the discharge of Peden on the ground that he had complied with Judge Phillips' mandate, by agreeing to vote for the tax levy to pay for bonds for the railroad that was never built. It was shown that Peden had written to Marshal Durham last June making such an offer. Marshal Durham testified in the hearing that he had shown Peden's letter to Judge Phillips, but the judge said he could take no judicial notice of it. Judge Thayer held that Judge Peden had not properly gone about the proceeding to secure his release. He declared that the evidence failed to show that the imprisoned county judge had gone into court before Judge Phillips and expressed a willingness to obey the mandate. This is taken to mean that should Peden present himself before Judge Phillips and in the proper form agree to obey the mandate of the court he may be released.

May Mean a New Deal. A recent dispatch from Washington said: It is reasonably certain that William G. Boyd will be nominated surveyor of customs at St. Louis in place of C. H. Smith. This will end the bitter fight that has come before the white house for years. It indicates political changes of importance not only in Missouri, but to the republican party elsewhere. The surveyorship was made the issue by which the power of Keown, national committeeman, was to stand or fall. It was so accepted by both sides. Keown is defeated and with his fall it is believed there will be another republican machine headed by the state chairman, Akins. Probably it will be a Roosevelt reorganization, at least that is the opinion of politicians here.

Unusual Damage Suit Decided. Judge Sherwood, Judge Gantt and Judge Burgess, of the supreme court, were in the circuit court at Jefferson City in the suit against them by Joseph Roberts, a convict, for refusing him a hearing of his application for release from the penitentiary on a writ of habeas corpus. Roberts is in the penitentiary on a six-year sentence from Buchanan county for having burglar tools in his possession. Two weeks ago his attorney sued the judges of the supreme court for \$3,000 damages each for denying Roberts a writ of habeas corpus to test the burglary law and release him from prison.

Oldest Locomotive Engineer. William Best, a farmer in Gentry county, 88 years of age, is believed to be the oldest locomotive engineer in the United States. He ran the first passenger engine between Philadelphia and Trenton in 1831 and 1832, and was paid a salary of \$40 a month. Shortly afterwards he gave up his position, and during the nearly three-score and ten years that have elapsed since he has been a farmer. His home is near the Little Gentry county village of Alantus Grove.

To Abolish 30 Post Offices. The postal service in Jackson county will be placed under the rural free delivery system on February 1, the post office department having fixed the date for the change, which has been under contemplation for some time. Under the new order 39 post offices in the vicinity of Kansas City will be abolished and the delivery made direct from the Kansas City office.

World's Fair Souvenirs. The St. Louis exposition company has sold 600 cords of wood cleared from the wilderness in Forest park, to be used in making gravels and other souvenirs of the world's fair. A local concern has bought the entire cord wood product, and immediately will commence the manufacture of souvenirs.

Louisiana Purchase Flag Day. Gov. Dockery issued a proclamation designating Friday, December 20, 1901, as Louisiana purchase flag day. It is requested that the national flag be generally displayed and other appropriate ceremonies observed.

Gov. Dockery Pleaded. Gov. Dockery went to Marshall to consult with the board of managers of the state feeble-minded colony. He expressed himself as pleased with its management.

Killed by a Horse's Kick. Henry Wegs, aged 50 years, a farmer near Mount Sterling, was kicked in the stomach by a horse and died from his injuries.

Horse Breeders Meet. Thoroughbred horse breeders of Missouri held a meeting at Mexico Wednesday. The object of this organization is to seek such legislation as will benefit the breeders of Missouri.

Young Woman Loses an Eye. Miss Clara Knox, who resides near Apex, was thrown from a horse, striking on her face in such a manner that a blood vessel in her right eye burst. It was necessary to have the injured optic removed.

Public Hospital for Hannibal. A. R. Levering, one of Hannibal's wealthiest citizens, will give to the city a \$25,000 hospital building. An entire block, an ideal situation, has been purchased by Mr. Levering as the site of the new building.

Child Played About the Stove. The two-year-old daughter of Mr. and Mrs. L. W. Pickett, who live in Harlem, died from the effects of burns received while playing about a stove in the back yard of her father's home.

THE FAMINE IN RUSSIA.

Food Distribution and Other Government Means of Relieving Distress.

St. Petersburg, Dec. 9.—The ministry of the interior recently issued the following statement about the famine: "Five and a half million pounds of winter grain and three millions of summer grain has been purchased and forwarded to the needy districts. The total grain purchased are given as exceeding 16,000,000 pounds, for which ten million roubles has been expended. The entire famine fund so far disposable is 14,214,358 roubles. The original estimates of grain to relieve the famine districts are now found to be excessive and they have consequently been reduced in a number of cases."

"Conditions in Asiatic Russia are still bad and much relief will be sent there. Petitions for an official proclamation of famine from Asiatic Russia were received from 27 districts and were granted in 22. "Private reports which have appeared in the press from time to time are not nearly as optimistic as the governmental. Hunger and disease have been reported much more prevalent than the ministry of the interior admits."

"In addition to direct help for the famine districts, indirect help has been granted in several forms. Workmen traveling to public works will enjoy the moderate emigrant rate, and materials needed for the works, as well as grain, will be distributed at greatly reduced tariffs."

CUT THE GORDIAN KNOT.

Australia Passes an Industrial Arbitration Bill for Settling Labor Difficulties.

Sydney, N.S.W., Dec. 8.—By the passage of the industrial arbitration bill through its final stages, the government has placed a law upon the statute books, the working of which will excite interest throughout the world. This bill not only compels reference of all disputes between employers and employees to a competent court, with power to enforce its orders and award, but makes a strike or a lock-out, before or pending such reference a misdemeanor, punishable by a fine or imprisonment.

The court which will pass upon these disputes is to be presided over by a judge of the supreme court, and will have most extensive powers, including the power to declare a standard wage and to direct that, other things being equal, an employer shall give preference to unionist over non-union laborers. There is no appeal from the decisions of this court.

SOUTH SEA HOTEL BURNED.

Two Persons Suffocated and Several Firemen Injured—Guests Escape in Their Night Clothes.

London, Dec. 9.—The Queen's hotel, at South Sea, was burned down yesterday morning. Forty of the guests escaped from the building in their night clothes. Two chambermaids were suffocated and several firemen and others were injured. The Queen's hotel was a fashionable resort. Among those rescued from the building were Rev. Thomas Teignmouth Shore, canon of Worcester and chaplain-in-ordinary to King Edward and his wife; Maj.-Gen. Francis William Collis and Col. and Mrs. Charles E. Stewart, retired, and Col. and Mrs. Luxton.

RECONCENTRATION CAMP.

Will Suggest the Distribution of Refugees in the Settled District—Holland's Demand.

London, Dec. 9.—It is reported that when parliament reassembles the British government will bring forward a new proposal in regard to the reconcentration camps in South Africa. It is believed that this proposal will suggest the distribution of the refugees in the settled districts. According to the Standard, Holland has asked the power to support her in a demand that the people in these camps be brought to Holland.

QUEEN WILHELMINA'S AIDE.

Mystery Surrounds the Condition of Maj. Van Tets Wounded by Prince Henry.

Amsterdam, Dec. 9.—It is impossible to obtain confirmation of the reported death of Maj. Van Tets, aide to Queen Wilhelmina, who is said to have fought and been wounded in a duel with Prince Henry, the queen's consort. The Amsterdam Telegram asserts Maj. Van Tets passed a quiet night Saturday night; that Prof. Nart has performed an operation upon him and is satisfied with his patient's condition. At the hospital in Utrecht, however, and in official circles, no information on this matter can be obtained.

Ready to Build Turkish Cruiser.

Constantinople, Dec. 9.—The Cramp ship building company has notified the ports that it is ready to commence building a cruiser for the Turkish government, and has asked the government to send officers to supervise the vessel's construction.

The Duchess of Marlborough's Visit.

London, Dec. 9.—The papers announce that when the duchess of Marlborough, formerly Miss Consuela Vanderbilt, visits the United States with her children this winter, she will spend Christmas with her father.

To Prosecute County Mayo Officials.

London, Dec. 9.—The government has decided to prosecute Conor O'Kelly, M. P., chairman of the Mayo county council, and several officials of County Mayo under the crimes act, for holding meetings and delivering intimidating speeches in defiance of the orders of the police.

British Imports and Exports.

London, Dec. 8.—The November statements of the trade of Great Britain shows a decrease of \$1,522,500 in imports and \$1,782,000 in exports.

ST. LOUIS WORLD'S FAIR.

Items Indicating Progress of the Work of Preparation and Publicity.

MATTERS NOT BEING ALLOWED TO DRAG.

Friday, December 20, Will Be an Interesting Day, When Ground Will be Officially Broken With Appropriate Ceremony and With Prominent Witnesses.

St. Louis, Dec. 8.—The past week has witnessed a number of interesting advance steps in Louisiana Purchase exposition matters, among them the following: Jamaica made a very creditable exhibit at the Columbian exposition, and her governor has written that he is considering the matter of a representation for Jamaica at the Louisiana Purchase exposition in 1903.

A World's Fair commission has been formed in Laclede county, Mo., with a view of making an exhibit of the county's products. The executive committee has authorized the sinking of an artesian well on the World's fair site. The well will have a six-inch bore.

One of the effects of the World's fair enterprise was shown in the November receipts of the St. Louis post office, which were \$26,134 larger than the November receipts of 1900.

The North Carolina auxiliary committee has issued a stirring appeal to North Carolinians everywhere to assist in getting up a World's fair exhibit for the old North State.

The Louisiana Purchase Exposition Co. has been requested to invite the Argen Order of Canada to the St. Louis World's fair. The members of the order are mostly descendants of the governors, military commanders and other officials of Louisiana before its transfer to the United States in 1803.

At the meeting of the executive committee on December 5 a letter from John Hay, secretary of state, was read, showing that several foreign countries had already favorably replied to the invitation to participate in the St. Louis World's fair.

President Roosevelt, in his first annual message, referred to the Louisiana Purchase with such patriotic appreciation of its importance as "the great turning-point in our development," and so heartily commended the World's fair, which is to commemorate its centennial anniversary, that President Francis promptly wired him a congratulatory message.

United States Ambassador Powell Clayton has forwarded to the Louisiana Purchase exposition officials copies of official correspondence with the Mexican government, showing that the president of the Republic had accepted President McKinley's invitation, and announced that Mexico would not only participate as a government in the St. Louis World's fair, but would invite her people to send private contributions to the exhibits.

The World's fair executive committee has appropriated \$5,000 to be expended in securing a prize design for a Louisiana Purchase exposition symbol, the prize to be awarded by a jury of two artists, two sculptors, two architects and one historian. The board of lady managers, at their informal consultation in New York, on December 5, with the national commission for the World's fair, declared their intention to make earnest efforts for a comprehensive display representing the progress of woman's work in literature, science, art and the leading industries between 1803 and 1903.

In a lecture to the Chicago Chapter of the Daughters of the American Revolution, December 5, Dr. Edmund J. James, vice-president of the Illinois Historical society, assured his hearers that "Illinois will see to it that the history of the entire northwest shall be set forth at the St. Louis World's fair in painting, sculpture, historical collections and decorations in the Illinois building."

The honorary commission of the Louisiana Purchase exposition, appointed by Gov. Toole of Montana, met in Helena, December 5, to discuss plans for raising a state exhibit fund, pending an appropriation by the legislature. The plan of raising \$50,000 by assessments on the counties, they were to be reimbursed by the legislature, met with most favor. Gov. Toole will attend the "Ground Breaking" in St. Louis on December 20.

The committee on ceremonies is in receipt of advices indicating that governors of the Louisiana Purchase states, members of congress, bodies of military school cadets, and other organized bodies, both civic and military, are looking forward to participation in the ground-breaking ceremonies on December 20.

Speech Warmly Commended.

London, Dec. 8.—The evolution of the prince of Wales from a sailor into an orator causes more comment and satisfaction than any event of the week. His Guildhall speech was perfectly free from that platitude quality usually noticeable in royal utterances in England. His declaration that the old country must wake up if it wanted to hold its own almost took his hearers' breath away, but it has produced in all sections of the press praise quite untainted by servility.

Bank Teller Killed by Train.

Kansas City, Mo., Dec. 9.—Sherry W. Marshall, receiving teller of the National Bank of Commerce for several years was struck by a Wisco passenger train from which he had just alighted at Leary, Kan., last night, and died yesterday of his injuries.

The St. Louis Seaman.

St. Louis, Dec. 8.—Edwin Schlegel, the seven-year-old son of Julius J. Schlegel, was found to death under the wheels of a Transit car Saturday morning.

DISCHARGED FROM CUSTODY.

Chicago American People Sentenced for Contempt, by Judge Hancock, Released by Judge Dunne.

Chicago, Dec. 8.—Andrew M. Lawrence, managing editor of the Chicago American, and H. S. Canfield, a reporter, who were sentenced recently by Judge Hancock to 30 and 30 days respectively in the county jail for contempt of court, were discharged from custody by Judge Dunne.

In granting a writ of habeas corpus to the reporters the court said that the case hinged on whether the case on which the Chicago American commented had been disposed of by Judge Hancock or was still pending.

Judge Dunne held that in the case in which the Chicago American commented had been disposed of by Judge Hancock or was still pending. Judge Dunne held that in the case in which the Chicago American commented had been disposed of by Judge Hancock or was still pending.

Judge Dunne admitted that the articles and cartoon which Judge Hancock objected to were clearly calculated to intimidate and coerce the court, had the court not already rendered its decision. Judge Dunne admitted that the cartoon in evidence was probably libelous and the articles possibly so. Harsh criticism, Judge Dunne remarked, is one of the incidents and burdens of public life. "I see no reason," he said, "why a judge should be offered a different remedy for attacks in the public prints than a president, or a governor or a congressman. Criticism of a public official, if just, will do good; if unjust, will do no harm."

NATIONAL NAVAL RESERVE.

Association of Naval Militias of the United States Indorse Congressman Fear's Bill.

New York, Dec. 9.—The Association of Naval Militias of the United States have just concluded here a series of meetings at which discussions were held on the bill introduced in congress by Representative Fear, of Illinois, which provides for the organization of a national naval reserve.

Lieutenant Commander Southland presented the views of the navy department with regard to the question, and after some discussion, the Fear bill was indorsed with several modifications. These modifications are on lines suggested by President Roosevelt in his message.

Another matter considered was the question of taking steps toward the securing of the abolishment of the rank of "naval cadet" in the navy and substituting in its place the rank of "midshipman," but nothing definite was decided on.

MURDERED A MINISTER.

An Expelled Member of a Methodist Church Shoots and Kills His Former Pastor.

Brookside, Ala., Dec. 9.—Rev. J. W. Bradford, Methodist minister at this place, was shot by R. D. Coffman, justice of the peace, yesterday afternoon, and died two hours later.

Rev. Mr. Bradford was returned here as the Methodist minister for another year. While at Sunday-school yesterday morning Rev. Mr. Bradford called attention to this fact, and remarked that he hoped all the relations between himself and his congregation would be pleasant and adding, it is alleged, that their relations would be pleasant if they would stop such men as Coffman from lying about him and the church.

Coffman was once a member of Rev. Mr. Bradford's church, but had been expelled on some charge. After the shooting Coffman surrendered to Deputy Sheriff Armstrong. A warrant had been sworn out charging him with murder.

AN APPALLING WRECK.

Passenger Train Jumps a Switch, Killing One and Injuring Eighteen Persons.

Macon, Ga., Dec. 9.—The Central of Georgia railroad passenger train from Savannah, after crossing the river entering Macon, at four o'clock yesterday morning, with about one hundred passengers, jumped a switch upon a high embankment. The engine and tender parted from the train. An appalling wreck ensued. The baggage and express cars were thrown into a culvert and burned. The second-class coach was thrown on its side and burned. The first-class passenger coach fell over the embankment. The Atlanta sleeper, filled with passengers, caught fire and was destroyed. Two sleepers were saved. The members of the Walter Mains circus were aboard. The only person killed was Julia Boynton, colored, of Columbus, Ga., but 15 others were injured. The mail was saved, but in a badly damaged condition.

THE WORK OF THREE ROBBERS.

Looted the Bank at Archbold, O., of Two Thousand Dollars and Escaped.

Delta, O., Dec. 8.—Three robbers broke into the Bank of the Archbold Banking Co., located at Archbold, this county, Friday night, and secured about \$2,000 in gold and currency. The bank vault contained only a small chest which was completely destroyed. After the robbery the thieves stole a horse and survey and fled.

Other Killed by Piston Rod.

Buffalo, N. Y., Dec. 9.—The body of F. H. Pinkerton, 28 years old, of Ashland, O., was brought into port yesterday on board the propeller Henry W. Oliver. Pinkerton, who was an older, was struck by a rapidly-moving piston rod and instantly killed.

Three Victims in Chicago.

Chicago, Dec. 8.—Railroads at grade crossings claimed three victims Saturday. The dead were Mrs. Julia Alvord, E. A. Foster and Joseph Liberman.

DR. LYDIA E. PINKHAM'S

Vegetable Compound for Female Weakness

DR. LYDIA E. PINKHAM'S—Health is the greatest boon bestowed on humanity. The greatest health is that which comes from a healthy system. Dr. Lydia E. Pinkham's Vegetable Compound is a health-giving medicine. It cures the most stubborn cases of female weakness and makes them well and cheerful and makes them well and cheerful and makes them well and cheerful.
