

Scott County Kicker

The prince of Wales has made a good impression on the Indian rajahs by his gun shooting. He killed his first tiger the other day, near Jaipur.

The khedive of Egypt owns the most costly saddle in the world. It is made of black leather, though more gold than leather is visible, and it cost \$70,000.

Ember Mason, who lives near Independence City, Mo., has built his own coffin from a tree he planted when he first went to Jackson county, 72 years ago.

The taxpayers of Lincoln county, Nevada, are suing the county commissioners to compel them to increase the tax levy. The citizens wish to pay off the county indebtedness, which amounts to \$650,000.

The average number of residents to the acre in Paris is no less than 128. There are nearly 700,000 apartments or lodgings in the French metropolis which rent for less than \$100 a year. About 17,000 bring \$800 or more.

Russia, notwithstanding reports to the contrary, has approved the plan of a Siberia-Alaska railroad, and hence it is still within the bounds of possibility that at some time trains may run from New York to Paris. The number of things regarded as impossible is steadily diminishing.

The Japanese government is introducing new silver coins into Korea. This new coinage is of three denominations. The silver half "won" corresponds to the Japanese half yen (25 cents American currency); the 20 "chon" and 5 "chon" pieces have respectively the same value as the Japanese 20 sen and 5 sen.

What becomes of the 200,000,000 tons of coal a year now produced in the United States? Railroads, iron and steel mills and manufacturing are the largest consumers. The annual coal bill of the Pennsylvania railroad system is \$18,000,000. The domestic demand increases every year. Coke calls for 40,000,000 tons of coal this year.

The rails on the Belt Line Road around Philadelphia are the heaviest used on any railroad in the world. They weigh 142 pounds to the yard, and are 17 pounds heavier than any rails ever before used. They are ballasted in concrete, and heavy girders were used to bind them. All the curves and spurs were made of the same heavy rails, and the tracks are considered superior to any railroad section ever undertaken.

Most people who patronize the Pullman cars have no conception of the enormous profits accruing to the company. The net earnings of a steamer on an ordinary run are from \$10,000 to \$20,000 a year, or about two-thirds of the cost of the car. On limited trains between New York and Chicago the net earnings are as high as \$15,000 a year. The mileage paid by the railroad is practically sufficient to cover all the expenses of operation, including the investment and depreciation.

Americans read more than any other nation. The 40,000,000 people of the United States have not yet far from half of the 60,000 newspapers and periodicals possessed by the 1,600,000,000 inhabitants of the world. Most of our dailies, weeklies and monthlies have a larger individual circulation than Europe's. They represent a much greater investment capital and give employment to more persons. New York has more publications of all sorts than have London and Paris taken together.

Charles E. Hughes, the lawyer whose relentless and almost wizard-like questioning has unmasked a state of affairs in the insurance methods that has stirred the financial and political world to a constant ferment of explanations, said in an interview in regard to the investigation: "It has not hit at life insurance. It has merely exposed the abuses that have grown up in life insurance, to the end that they might be corrected for all time to come. The effect has been tremendous all over the world."

A new anesthetic, which will prove a great blessing to mankind and which the operating surgeon is hailing with joy, has recently been brought to this country and is attracting the favorite notice of surgeons. The medical and surgical professions of Europe and America have been stirred as never before since the discoveries of ether and chloroform by the introduction into surgical practice of this new general anesthetic, which seems to leave nothing to be desired. This new anesthetic agent, scopalamine, is an alkaloid obtained from Scopola Japonica, or Scopola carnolica.

Smoking six or eight cigars, from a clear Havana grown in Connecticut to a Pittsburgh stogie, all at the same time, is a feat performed at the department of agriculture every day. The officials wanted to test the burning qualities of different tobacco. In the absence of a "smoke squad" like Chemist Wiley's "poison squad," the trick is being done by machinery. The machine is fitted with glass tubes into which fit cigars, and the draught is given by vacuum caused by a jet of water. The machine has not been perfected so as to blow rings.

A unique series of combination national bank bills was printed at the Bureau of Engraving and Printing, which is being called jocularly "the new six-dollar bills" among the employees of the bureau. A plate maker by mistake issued to a printer a plate for one side of a one-dollar bill and a plate for one side of a five-dollar bill. The work went on all right for about an hour when the girl who assisted the printer in washing the plate after each impression discovered that the bills are printed, called for \$1 on one side and \$5 on the other.

GENTRY MURDER IN CHICAGO

NO TRACE FOUND OF THE FUGITIVE MURDERER.

The Police Think That Frank J. Constantine, Accused of Crime, Has a Criminal Record.

Chicago, Jan. 8.—Investigation by the police of the murder, at her home on LaSalle avenue, of Mrs. Arthur W. Gentry, has resulted in developments that lead them to the belief that Frank J. Constantine, accused of the murder, had a criminal record previous to this crime. Letters found in the fugitive's trunk, written by his parents from New Rochelle, N. Y., seem to indicate that Constantine fled from his home to escape the results of a crime, though it seems clear that his parents did not know what caused him to leave home. The diamond ring pawned by Constantine at a Clark street pawnshop was much too large for Constantine's finger. Constantine posed as a son of wealthy parents who sent him money regularly, and the police are now working on the theory that he did this in order to divert suspicion from himself of other misdeeds.

Efforts to locate the driver of the cab that conveyed Constantine to the pawnshop have been, so far, unsuccessful, and no further trace has been found of the fugitive.

SHIVERED WHEN COLD CAME

Earthquake Shocks Felt in Western Missouri, Eastern Kansas and Southern Nebraska.

Kansas City, Mo., Jan. 8.—A distinct earthquake shock, with a motion from north to south, lasting for twenty-three seconds to one minute in duration, was felt in western Missouri, eastern Kansas and southern Nebraska at about 6:17 o'clock Sunday evening. The territory affected extends from Nebraska, on the north, nearly to the Oklahoma and Indian territory line on the south, and from Salina, Kas., on the west, to Kansas City, St. Joseph and Joplin, Mo., on the east. With the exception of knocking plaster from the walls at some points in Kansas, no damage was reported, although persons ran to the streets at some places in fear that their houses would tumble in.

THREE PERISHED IN A FIRE

A Girl of Seventeen and Two Women She Tried to Save Caught in a Death Trap.

St. Louis, Jan. 8.—To save Mrs. Pauline Hermann, a helpless invalid, from death in a fire in a boarding house, Saturday evening, Miss Jewel Reed, 17 years old, after reaching the street in safety and giving the alarm, ran back through a barrier of flame and smoke and, with Mrs. Laura Pulvermacher, sister of the bedridden woman, attempted to carry Mrs. Hermann from the building, when all three perished in a bathroom, in which they were forced to take refuge when the fire cut off their escape.

Mrs. Emma Hilger, aged 38, another sister of Mrs. Hermann, frenzied with fear and the pain of burnt face and hands, leaped from a rear window of the second floor to a paved yard and was seriously injured.

THREE TRAINMEN KILLED

Collision, During a Blizzard, East of Corry, Pa.—St. Louis Wholesale Merchant Injured.

Corry, Pa., Jan. 8.—Philadelphia and Erie train No. 4, running 45 miles an hour, collided with a light engine at Horn's Sidings, ten miles east of here, Saturday night, in a blizzard, and three trainmen were killed and 21 persons injured. When the crash came the smoker and day coach, which were filled with passengers, were telescoped, and women and children were buried under wreckage in the cars. Conductor Morgan and brakemen worked heroically, and with axes cut several injured from the wreckage.

Among the injured was Samuel Epstein, of St. Louis, a member of the wholesale dry goods firm of Epstein & Whisler, who left St. Louis for the east last week on a business trip.

APPEAL TO THE PRESIDENT

Women's Club Petitions the President to Save the Life of Mrs. Tolla.

Hackensack, N. J., Jan. 8.—An appeal to save Mrs. Antoinette Tolla from being hanged on January 12 is said to have been sent to President Roosevelt by the Susan B. Anthony club of Cincinnati. In this appeal the following question was asked: "Can a woman be hanged in New Jersey for defending her honor in her own home?"

Mrs. Tolla, who is a young woman, shot an Italian who, she said, attempted to attack her in her own home. A jury found her guilty of murder. Mrs. Tolla still entertains hope that the United States supreme court will intervene and grant a stay of execution in her case.

St. Louis to New York by Trolley. Pana, Ill., Jan. 8.—All that is needed to connect St. Louis with New city by an electric railway is a link of a few miles between Mattoon and Hillsboro, Ill., and a meeting of the business men of this city was held for the purpose of organizing a company that will connect up the trolley system.

To Celebrate the 2,000 Mark. Columbia, Mo., Jan. 8.—The state university is preparing to celebrate the attaining of the 2,000 mark in enrollment. The number of students who have matriculated since June 1 is 1952.

Editor Father of Triplets. Topeka, Kas., Jan. 8.—Hugh W. Amick, editor of the Westmoreland Recorder, is the father of triplets, three boys. So proud was Editor Amick that he immediately wrote a letter to President Roosevelt asking him to submit names for the boys.

Denied a New Trial. Decatur, Ill., Jan. 8.—In the circuit court Judge Johns refused a new trial to Ray Brom, charged with the murder of R. L. Roberts, a Wabash engineer, in this city two years ago.

J. CABELL BRECKINRIDGE

SON OF FORMER VICE-PRESIDENT IS DEAD.

He Served in the Confederate Army, Attaining the Rank of Colonel Major for Gallantry.

New York, Jan. 8.—J. Cabell Breckinridge, son of the late John C. Breckinridge, who was vice-president of the United States in the administration of James Buchanan from 1857 to 1861, died, Monday, at the home of his son-in-law, John C. Ten Eyck, at Yonkers, N. Y. He was 61 years of age.

Mr. Breckinridge came north a few days ago in the hope that a change of climate would improve his health. He declined steadily, however.

Mr. Breckinridge was born in Lexington, Ky., and when the civil war broke out enlisted as a private in the confederate infantry. He was promoted for gallantry on the field until he became a brevet major. After the fall of Richmond, Maj. Breckinridge went to Arkansas and later to St. Louis, where he engaged in business. He was appointed surveyor general of the territory of Washington by President Cleveland in 1885, serving through Mr. Cleveland's term.

MAY BE A GIANTIC FRAUD

The Norfolk & Western Stock Forger Probably One of the Most Gigantic Swindles.

New York, Jan. 8.—The Norfolk & Western stock forger, who on Saturday was supposed to be a piece of ordinary crookedness in the financial world, has developed into what probably is one of the most gigantic swindles of the age. The immensity of the fraud became known despite the most stringent efforts to conceal it, and Wall street stood aghast at the knowledge of a crime that in all probability has netted its perpetrator millions of dollars, and that has worked false paper into the strong boxes of nobody knows how many banks and trust companies that even now do not know that the "securities" on which they advanced money are forgeries.

Instead of there being only a few hundred shares of the counterfeit stock afloat, it is likely to run into many thousands, and a systematic search will be begun at once to discover, if possible, the extent of the bogus paper.

LOSS TO THE EMPIRE STATE

The State Normal College at Albany, N. Y., Partially Destroyed by Fire—Loss, \$200,000.

Albany, N. Y., Jan. 4.—Fire broke out Monday night in the north building of the State normal college on Willett street, north of Madison avenue, and at 10:30 had entirely destroyed the north building. It spread to the residence of President William J. Milne, and threatened to spread still further under the sweep of a stiff northwest wind. The other buildings were saved with the utmost difficulty.

One fireman was seriously injured by falling debris. The loss, it is believed, will reach or exceed \$200,000, against which there is an insurance of \$50,000, permitted by a special act of the legislature.

An immense stained glass memorial window, given to the college by the students and alumni, was destroyed.

ELEVEN CLERKS RESIGNED

Missouri Pacific Clerks Object to Working From Sixteen to Twenty Hours a Day.

Nevada, Mo., Jan. 9.—Eleven clerks in the Missouri Pacific office of the Kansas City and Joplin division, have resigned because they were obliged to work every day from 16 to 20 hours under Superintendent Stapp, with no overtime.

They assert that they worked all night on January 4, and until six o'clock the next morning, so that the monthly reports might be forwarded to General Superintendent De Bernardi. The men are satisfied with their salaries, but not with their hours, and resigned to better their conditions.

FIFTEEN PERSONS PERISH

Terrible Results of a Landslide at Haverstraw, N. Y., Which Destroyed a Dozen Homes.

New York, Jan. 9.—At least fifteen persons are believed to have been killed in a landslide which tore off the edge of a street of Haverstraw for two blocks late last night and carried with it a dozen houses to a pit 100 feet beneath. The houses were wooden, and all caught fire immediately after the land gave way. The work of extinguishing the flames was made impossible, for the reason that the landslide broke the water mains and shut off the supply of water.

To Establish Texas Boundaries

Washington, Jan. 9.—Mr. Stephens, of Texas, has introduced a bill authorizing the president, in conjunction with the state of Texas, to determine and establish the boundary lines between the territories of New Mexico and Oklahoma and the state of Texas.

Col. Vespasian Warner's Fortune

Chicago, Jan. 9.—Under the will left by his father, who died December 21, at the age of 96, Col. Vespasian Warner, of Illinois, commissioner of pensions, inherits a fourth interest in an estate worth about \$2,000,000.

Duelists Horribly Cut

Lawton, Okla., Jan. 9.—After a long and desperate fight over crops, in which a knife and other instruments were freely used, between Cleo Roach, a farmer near Cloud Chief, and a renter whose name has not been learned, both were horribly cut and may die.

Poase Guards Territory Negroes

Tulsa, I. T., Jan. 9.—Five negroes terribly beat Josh Bender, a construction foreman, and are now in jail, guarded by a posse of United States marshals.

Monster Parade of Hebrews

New York, Jan. 9.—Arrangements have been made for a parade of more than 100,000 Hebrews through the streets of the east side on January 22 in honor of the memory of those killed during the riots in St. Petersburg a year ago.

The Best Missouri News

is a Prosperous Country. Good financial conditions, prevailing in the northwestern part of the state, constituted a subject upon which W. L. Buehler, state bank examiner, made the following statement: "I find," said he, "that the farmers in what possibly is the richest agricultural section of the country are in better shape financially than I have ever known. Despite the reported low prices in live stock, there seems to be a greater number of cattle than ever before. The farmers raised big corn crops up there this year, and they seem to want to feed it out rather than to sell it. The deposits in all the banks of that section are extremely large."

Less Beer Was Consumed. The state beer inspection tax yielded \$22,390.28 less during 1905 than during 1904, according to the figures of the state treasurer's office. The state tax on beer is half a cent per gallon, and it thus appears that more than 4,000,000 gallons less beer was consumed in Missouri during 1905 than in 1904. The beer tax in 1904 yielded the state a revenue of \$37,311.55, while during the year 1905 but \$27,021.27 was collected, showing the loss of \$22,390.28 in revenue. The 4,000,000 gallons shortage would have retailed at 80 cents a gallon, aggregating a total of \$3,200,000, which amount has been saved to the people during the year 1905. The decrease in the consumption of beer is said to be a direct result of Sunday closings.

A New M. S. U. Debate Plan. Dr. J. C. Jones, acting president of the University of Missouri, has announced the establishment of a state inter-high school contest in debating and essay. The first annual contest between the approved high schools of Missouri will be in Columbia the last Saturday in April 1906. This contest will be on the same day as the inter-high school athletic meet at Columbia. The winners of the contest, one boy and one girl, will be awarded scholarships in the university to the value of \$125 each, with exemption from all fees except laboratory fees.

Chancellor Denounced Football. Chancellor Chaplin, of the Washington university, St. Louis, talked on football to the State Teachers' association. He dilated upon the evil results of the game, which he declared was attended with disasters tending to make it unpopular, even were it a game in more general vogue. He advocated the substitution of the Association game, or the Rugby game, declaring that under the rules of the latter the objectionable features could scarcely be eliminated or abolished.

Vandiver Accomplishes Something. Superintendent W. D. Vandiver, of the state insurance department, has given out a statement concerning insurance matters in which he declared that he will hold insurance companies to their promises to stop the practice of rebating, and that it is gratifying to him to know that the Missouri companies have decided to stop the practice of writing special contracts. "Honest business is to be the motto in Missouri this year," he says.

Money Orders Had Been Raised. A stranger giving the name of John W. Wilson, who is supposed to be an ex-convict recently released from the Nebraska penitentiary at Lincoln, is charged with passing four money orders purchased at Lincoln that had been raised from \$6 to \$60. In each instance small purchases were made at St. Joseph stores and the raised money orders tendered in payment, the purchaser receiving the difference in cash.

Mined 5,000,000 Tons of Coal. State Coal Mine Inspector R. S. Thomas gave out the following information relative to coal mining in Missouri during 1905: The coal mined would reach 5,000,000 tons, an increase of five per cent over 1904. Thirty-five more mines produced coal than in 1904. Fatal accidents show the same increase as tons of coal produced.

Burlington Plans Improvement. J. M. Gruber, general manager of the Burlington lines east of the Missouri river, is authority for the statement that the Burlington will undertake the reconstruction of the Hannibal bridge at Kansas City, the building of extensive freight terminals in Clay county, and a new freight house in the west bottoms.

Girl Dies from Tetanus. Miss Alice Meriwether, daughter of William Meriwether, a prominent farmer near Whiteside, died of lockjaw. The young lady while in the yard stepped on a nail which penetrated deep into her foot, causing serious injury, from which she recovered tetanus.

Was a Meat Packer in 1857. Benjamin Ullman, aged 81 years, a prominent and wealthy resident of St. Joseph, who was born in Philadelphia and engaged in the meat packing business in St. Joseph in 1857, is dead as the result of a fall on the pavement sustained several weeks ago.

Found It Guilty of Murder. In the year just closed 18 men have been tried in the criminal court at Kansas City upon the charge of murder and 17 of them were convicted. Five were convicted of murder in the first degree.

Fell into an Old Mine. Mrs. Nancy McClure, aged 65 years, fell 90 feet into an abandoned mine at Neck City, northeast of Joplin, and was instantly killed. Mrs. McClure lived at Galena.

Burglars Set at Liberty. Arthur Lindsay and Lee J. King, sent from Scott county in 1904 to serve three years each, have been pardoned. They were convicted of burglary and larceny, having forced their way into an express office.

Want Executions at Penitentiary. A resolution offered at the convention of the State Sheriffs' association of Missouri that the legislature be requested to pass a law requiring executions to take place at Jefferson City was adopted unanimously.

Boy Killed While Hunting. Ray Morris, 15 years old, son of John Morris, living east of St. Joseph, was accidentally shot and almost instantly killed by his cousin, Ben Wilkinson, 19 years old, while hunting near the One Hundred and Two river.

Horseman Charged With Forgery. J. H. Robinson, aged 33 years, a former well-known horseman, who is charged with swindling the First National bank of St. Joseph, out of \$500 on a bogus check ten months ago, has been captured at St. Joseph.

RELATED OF ROYALTY.

The Duke of Abruzzi is reported to be organizing an expedition to explore Central Africa.

The Kaiser already has six autos, and now has ordered seven more in one lot. Meanwhile his horses are eating their heads off in the stable.

Lord Elgin claims to be the direct descendant of the male line of King Robert the Bruce, whose sword and helmet are kept at Broomhall. He is a grandson of Queen Victoria.

Baron Pronay, a millionaire member of the Hungarian upper house, has promised to give away his entire fortune, except about \$75 a year each for his wife and daughter, to recoup officials who are dismissed for refusing to pay the taxes collected into the government treasury.

The earl of Lytton will try the experiment of giving his tenants an opportunity to live on their own free hold land and with that object he has sold at auction 107 plots on his Knebworth estate on easy terms. Knebworth has been the home of the Lyttons since the time of Henry VII.

Baron Alphonse De Rothschild gave legacies to 119 men and women who have done things to benefit the world in one way or another. These people have now got together at Paris and published a book of eulogies on the dead banker. In token of his generous patronage of the arts they also wish to put up a monument to him in the French capital.

The duchess of Sutherland, who has recently had a play produced on the London stage, is an author as well as a dramatist. She began early with a book on "How I Spent My Twentieth Year." Since then she has written one or two novels and some short stories, and has contributed various articles to the discussion of social questions, in which she is much interested.

Grand Duchess Marie of Russia is the only daughter of Grand Duke Paul, brother of the late Grand Duke Sergius. The former was banished from Russia after his second marriage, which was regarded as a scandal, and his little daughter became the ward of Grand Duke Sergius, who, it will be remembered, was assassinated some months ago. The youthful grand duchess is only 15, very pretty and sweet looking, and she is generally designated the Cinderella of Russian princesses.

SOME STAMP NOTES. At a recent London auction sale a 12 penny, 1851 Canada, imperforate on laid paper, realized \$200.

Of the three provisional stamps recently issued in the Danish West Indies made by overprinting four, five and eight-cent values "5 BIT, 1905," none are now obtainable.

A book will soon be issued by the Junior Philatelic society of London "The Stamps of the United States," treating in a popular style our regular postal issues.

Chock is a French possession on the Red sea, and it is reported that its capital city is a village of huts. It is nevertheless civilized enough to have postage stamps as witness 32 different varieties during the years 1852, 1893, 1894.

A very efficient committee has been given charge of arrangements for the annual convention of the American Philatelic association to be held in Boston next August. As the leading stamp society in the country a very large attendance will be planned for.

The earl of Crawford is adding to his laurels by calling at the islands of Tristan da Cunha in the capacity of mail carrier. One thousand miles west of Cape of Good Hope, isolated as they are, the barely 100 inhabitants of this group of islands will appreciate the favor done them.

It looks as if John P. Green, United States postage stamp agent, will be minus a job one of these days, the recent reorganization of the post office department leaving nothing for him to do. When the next appropriation is made there is no salary in it for a stamp agent. That works in future will be under the stamp division.

The public is warned against writing cards in the face of pictorial cards intended for parties in the Netherlands. The Dutch postal law provides that in case there is writing on the face of the card the recipient is fined in the sum of six cents, our money. The card with writing on the face is regarded as a letter undepaid and the rule of assessing double postage applies. The same rule also applies if the words "Post Card" are not printed on the face.

Neptune's Year. A year on the planet Neptune is a little longer than 166 earth years—it is 60,000 days' long.

How Food Heeded Off the Insidious Disease. The happy wife of a good old-fashioned Mich. farmer says: "In the spring of 1902 I was taken sick—a general breaking down, as it were. I was excessively nervous, could not sleep well at night, my food seemed to do me no good, and I was so weak I could scarcely walk across the room."

"The doctor said my condition was due to overwork and close confinement and that he very much feared that consumption would set in. For several months I took one kind of medicine after another, but with no good effect—in fact, I seemed to grow weaker."

"Then I determined to quit all medicines, give up coffee and see what Grape-Nuts food would do for me. I began to eat Grape-Nuts with sugar and cream and bread and butter three times a day."

"The effect was surprising! I began to gain flesh and strength forthwith, my nerves quieted down and grew normally steady and sound, sweet sleep came back to me. In six weeks' time I discharged the hired girl and commenced to do my own housework for a family of six. This was two years ago, and I am doing it still, and enjoy it." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book "The Road to Wellville" in plain.

Lydia E. Pinkham's Vegetable Compound

is a positive cure for all those painful ailments of women. It will entirely cure the worst forms of Female Complaints, Inflammation and Ulceration, Falling and Displacements and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life. It will surely cure.

It has cured more cases of Female Weakness than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels Tumors in an early stage of development. That

causing pain, weight and headache, is instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the female system. It cures

Irregularity, Suppressed or Painful Periods, Weakness of the Stomach, Indigestion, Headache, Nervous Prostration, Headache, General Debility. Also

Dizziness, Faintness, Extreme Lassitude, "don't-care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, sleeplessness, flatulency, melancholy or the "blues," and backache. These are sure indications of Female Weakness, some derangement of the organs. For

Kidney Complaints and Backache of either sex the Vegetable Compound is unequalled. You can write Mrs. Pinkham about yourself in strictest confidence.

LYDIA E. PINKHAM MED. CO., Lynn, Mass.

SICK HEADACHE

Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Heartly Eating. A perfect remedy for Biliousness, Stomach, Dizziness, Headache, Nausea, Bloating, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.

SMALL PILL. SMALL DOSE. SMALL PRICE. Genuine Must Bear Fac-Simile Signature.

Small Pills. Small Dose. Small Price. Genuine Must Bear Fac-Simile Signature.

Kemp's Balsam

Will stop any cough that can be stopped by any medicine and cure coughs that cannot be cured by any other medicine. It is always the best cough cure. You cannot afford to take chances on any other kind.

KEMP'S BALSAM cures coughs, colds, bronchitis, grip, asthma and consumption in first stages.
