THE COUNTY COURT.
The regular August term of county court met Monday. Since the first days are mostly consumed in making allowances to paupers, the Kicker will hold the proceedings and print them in full next week.

What the people are perhaps most anxious to hear about is how the auditing muddle is progressing. There are no new developments along this line.

The men from the state department left last week. What they did, or why they left, no one on the outside seems to know. But one of two things seems probable. Either it was decided that the county court could not be bluffed, or else the men did not audit the books for more than about two years back—which would be about the same as no audit at all. They were not here long enough to do more. The county court is ignorant of their action as you are.

But since the county court has been ignored in the matter, the court may decide to ignore the report of the state auditor. In that event I suppose he can submit his report to those who petitioned him—and draw his pay.

On the other hand there has been no action taken in the appellate court to compel the officials to surrender their books to the county court—owing to the illness of the wife of one of the attorneys employed by the court.

However, there seems every reason to believe that the matter will be brought before the appellate court during this month. But it may be three months, or longer, before a decision is reached.

THE SUBS.
J. W. Jacob of Fernfield is the only one to report with two subs. The rest have been lazy. However, mail has brought some.

SAME OLD STORY.
On an inside page at the bottom of column in small type, I discovered the item in the Globe-Democrat of Tuesday:

Webster Springs, Va., Aug. 1. Sentences were imposed on five members of the West Virginia Legislature, convicted of bribery in connection with the election of a United States senator early in the year by Judge O'Brien in the Superior Court today. The sentences follow:

Delegates S. U. G. Rhodes, Rank Duff and H. F. Asbury, six years each in the Penitentiary; State Senator B. A. Smith, five years six months, and Delegate David Hill, five years.

In addition the five are disqualified for life from holding any public office or office of trust.

Notice that the name of the United States senator in whose interest these men were bribed is withheld.

And although convicted and sentenced, I'll bet 30 cents not one of those chaps goes to prison.

Who bribed them? Is it not a little remarkable that we should be told so little about a matter of this character?

Of course the senator who got his job thru the votes of these crooks is in Washington making laws for us.

THERE IS A REASON.
Farmington Times.—Mullhall may be a great liar and all that, as any man engaged in the lobbying business and general political agency of the American Manufacturers Association must necessarily be, but exposition of the whole high-handed business and the hundreds of letters that he has turned over to the Senate lobby investigating committee tell a story that confirms much of what he has told. Few Democrats are smirched by the tale he unfolds, but quite a number of Republicans high in the party and public positions have been badly damaged by the exposure.

The Democrats seem to take great pride in the fact that fewer Democrats were caught than Republicans. But to do this they must ignore the fact that the Republicans were wholly in control at the time to which the Mullhall exposures relate. There would be little incentive to bribe a Democrat who is powerless. And the Democrats were powerless in national affairs prior to March 4.

Things were quite lively around the Frisco depot Saturday evening. Eight wagon loads of canteloupes were awaiting baskets to arrive by express over the L-M. at 4 o'clock—then to be packed and shipped over the Frisco that evening. The Frisco train arrived, but the Mountain was late as usual. Agent Grant Ragains secured permission to hold the train. At 5 o'clock the L-M. train arrived and the farmers grabbed the baskets, transferred them to their wagons and the work of nailing on the handles, packing and putting on the lids began in earnest. By 6-30 two cars of canteloupes were billed out and half the supply yet remained. CALLED HIM AN INFIDEL.
"In the days of savagery the strong devoured the weak—actually ate their flesh. In spite of all the laws that man has made, in spite of all advance in science, literature and art, the strong, the cunning, the heartless, still live on the weak, the unfortunate and the foolish. True, they do not eat their flesh; they do not drink their blood; but they live on their labor, on their self-denial, their weariness and want. The poor man who deforms himself by toll; who labors for a wife and child thru all his anxious, barren, wasted life, who goes to the grave without having had one luxury, has been the food of others."

"HE HAS BEEN DEVoured BY HIS FELLOW MAN."

"The poor woman, living in the bare and lonely room, cheerless and fireless, sewing night and day to keep starvation from a child, is slowly being eaten by her fellow man."

"When I take into consideration the agony of civilized life—the number of failures, the poverty, the anxiety, the tears, the withered hopes, the bitter realities, the hunger, the crime, the humiliation, the shame, I am almost forced to say that cannibalism, after all, is the most merciful form in which man has lived upon his fellow man."

Slavery includes all other crimes. It is the joint product of the kidnapper, the pirate, thief, murderer and hypocrite. It degrades labor and corrupts leisure.

With the idea that labor is the basis of progress goes the truth that labor must be free. The laborer must be a free man.

I would like to see this world, at least, so that a man could die and not fret that he had left his wife and children a prey to the greed, the avarice, or the cruelty of mankind.

There is something wrong in a government where they who do the most have the least. There is something wrong when honesty wears a rag and rascality a robe; when the loving, the tender, eat a crust, while the infamous sit at banquets.

The laboring people should unite and should protect themselves against the idlers. You can divide mankind into classes—the laborers and the idlers, the supporters and the supported, the honest and the dishonest. Every man is dishonest who lives upon, the unpaid labors of others, no matter if he occupies a throne.

We need free bodies and free minds—free labor and free thought—chainless hands and fetterless brains. Free labor will give us wealth. Free thought will give us truth.

There will never be a generation of men until there has been a generation of free women—of free mothers.

When women reason, and babies sit in the laps of philosophy, the victory of reason over the shadowy host of darkness will be complete.

The rights of men and women should be equal and secured; marriage should be a perfect partnership; children should be governed by kindness; every family should be a republic; every freeman a democracy.—Robert G. Ingersoll
