Robbing Yourself

That is just what you are doing when you fail to get regular and sufficient sleep. Your body requires this unconscious period for repair work; without it your nerve energy becomes exhausted, and you are tired, worn-out, nervous, excitable; have headache, neuralgia, indigestion, poor appetite, or other ailments caused by a lack of nerve force. Make it your business to sleep. If you are restless, take Dr. Miles' Nervine; it soothes and strengthens the nerves, and brings sweet, refreshing, life-giving sleep, and gives the organs power to work naturally. Try it to-day.

"I had a severe spell of fever, which left me in a very weak condition and very nervous. I had severe spells of headache and neuralgia, and could sleep but very little. Every effort that was made to recover my strength was of no avail until I began taking Dr. Miles' Restorative Nervine. After I commenced to take the Nervine my sleep was profound and restful, and the pains in my head, as well as the neuralgia pains, left me to a certain extent and I grew gradually better."

MRS. E. E. GILBERTSON, 821 Berylan Ave., Belvidere, Ill.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind

NELSON
