Had Leg Broken

James Loper, son of Ammie Loper, had the misfortune to break his leg at the hip joint Friday. He does not know just how it happened. He, with some other boys, was out riding when the horse ran away with him and he says he felt himself falling and did not know anything more until his companions picked him up. The supposition is the saddle turned, as it was found under the horses' belly when he was caught, throwing him against the ground breaking the leg and rendering him unconscious. He got back on the horse and rode a mile and a half home. Dr. Richart was summoned and dressed it and he is doing fine.—Blackburn Record.

John W. Blackburn was taken seriously ill at his home Monday, supposed to have gotten to warm while helping to bale hay. At present he is much improved.—The supper given by the ladies of the Christian church last Saturday on the lawn of R. S. Cole, was very largely patronized and a sum of \$46 goes to swell the bank account of these noble Christian ladies. This supper was one of the best we ever attended in Malta Bend, the cream ices and cakes excellent and the entire arrangements were good, thereby making it comfortable and harmonious for all present.—Malta Bend Qui Vive.

Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked better—more scientifically. They are packed better—more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think **Uneeda Biscuit** the best of that food, nearly 400,000,000 packages having already been consumed.

Man Killed at Alma

Wednesday morning, Aug. 15th, the Golden State Limited train killed a section man, named Griffith, in front of the car house at Alma. The man was standing on the track fixing his scythe when struck. His death was instantaneous as his neck was broken.

Five Holt county farmers will harvest a crop of from 6,000 to 7,000 bushels of peaches this year, two car loads of packing baskets have already been received and great preparations are being made to care for the crop. The cars contained 30,900 small baskets and 3,300 large ones.

Wounded by His Wife

One of the most untimely accidents ever recorded in the annals of Carroll county, occurred at the home of Clyde Purdy, two miles southwest of Bosworth, when he was accidentally shot and mortally wounded by his wife.

The facts in the case as near as we can learn, are as follows: Mr. and Mrs. Purdy went out in the barnyard milking, when Jack Gilbeath, a brother of Mrs. Purdy, got the revolver that was kept at the house, loaded it and stepped out to kill a mink, returning he failed to take the cartridges out and hid the revolver on the dresser in the room. When Mrs. Purdy returned, thinking the revolver was unloaded as usual, she picked it up, pointed it at her husband and fired, the ball striking the unfortunate man in the lower lip, lodging against his spine between his shoulders, which resulted in his death.

Deceased was a young man about 21 years of age and had been married about nine months when he met his untimely death.

Away With the Clock Key!

'T WAS EVER THUS:

The plow boy hopes to become a School Teacher;

The school teacher aspires to be an Editor;

The editor wants to be a Banker;

The banker a Rail Road President would be;

The railroad president desires to become a Trust Magnate;

The trust magnate looks forward to the time when he can have a farm and enjoy the free life of the Plow Boy.

But all will be content with life's vocation if they will come to me and get one of my Perpetual Self Running Clocks, no springs to break, no keys to lose, no forgetting to wind the clock.

But a never ending happy thought will inspire you as you look at the wonderful piece of mechanism, pointing its finger at the dial of time, while a mellow toned cathedral tolls the hours as they are passing by.

You may take a free test for 30 days in your home at my expense; if you like the clock, keep it—if you don't, send it back, costs you nothing to prove its value.
