Fortunes Spent in Trousseau. The elaborate trousseaux of members of the smart set would have made a queen bride of a century ago open her eyes with amazement. It is an ordinary thing for the daughter of a millionaire on getting her bridal trousseau ready to order 20 or 30 hats, trimmed with ostrich and other feathers, to harmonize with as many gowns. Every gown needs a distinct hat. The equipment of a rich bride is looked on as incomplete if it does not contain at least 30 gowns and such a trousseau does not mean the bride will get no more dresses for a year. When lingerie and little ornaments also are taken into consideration, it is plain a young girl in New York's smart set must spend many thousands of dollars for her outfit and several women have spent \$50,000 to \$100,000.
