Tonic—Alterative

What is a "tonic"? A medicine that increases the strength or the tone of the whole system. What is an "alterative"? A medicine that alters or changes unhealthy action to healthy action. Name the best "tonic and alterative"? Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. Ask your doctor about it.

Bilious attacks, sick-headaches, indigestion, constipation, dizzy spells—these are some of the results of an inactive liver. Ask your doctor if he endorses Ayer's Pills in these cases. The dose is small, one pill at bedtime.

ECZEMA

Also called Tetter, Salt Rheum, Pruritis, Milk-Crust, Itching Skin, etc.

ECZEMA CAN BE CURED TO STAY. When I first cured, I never dreamed I could be cured and not merely patched up for awhile, to return worse than before. I remember I made this broad statement after putting ten years of my time on this one disease and handling in the mean-time a quarter of a million cases of this dreadful disease. Now, I do not care what all you have used, nor how many doctors have told you that you could not be cured—all I ask is just a chance to show you that I know what I am talking about. If you will write me TO DAY, I will send you a FREE TRIAL of my medicine, guaranteed to cure you, or I will continue you more in a day than I or anyone else could in a month's time. If you are disgusted and discouraged, I dare you to give me a chance to prove my claim. By writing me to-day you will enjoy more real comfort than you had ever thought this world holds for you. Just try it and you will see I am telling you the truth.

Dr. J. E. Conaway, 439 Park Square, Sedalia, Mo. References: Fitch National Bank, Sedalia, Mo. Could you do a better ad than this notice to cure your sufferer of ECZEMA?
