**If You Were an Expert,
What Car Would You Buy?**

The time has passed when aut mobiles can be sold to you on their appearances or claims. This is a day when you and every purchaser must be shown what the car for which you pay your money will actually perform; what it will do. Beware of an automobile salesman who attempts to beguile you with a pleasing story. Tell him to show the goods and *prove* to you that his cars are worth the money. Find out whether his car is a real car or only an assembled automobile built to sell.

You have a right to your money's worth, but it is up to you to see that you get it. Deeper than all appearances, there are a few expert tests which ought to be applied to every car.

Who makes the car? Is it an assembled car or made from top to bottom by one manufacturer? What kind of a guarantee is on it? Does the manufacturer respect his own product with a real guarantee, or does he want you to take the chance? What do parts cost you and how conveniently can you get them? How many cars of this make are in service and how many are giving satisfaction? Questions like these go deep into the heart of the case, and if you put them rigorously upon any car you will find out with a certainty whether or not that car is worth its price.

We are selling Studebaker E-M-F "30" and Flanders "20" cars because we know that, dollar for dollar, their equal is not sold in the market today. The records of many thousands of cars in all kinds of service have convinced us absolutely. Studebaker E-M-F "30" and Flanders "20" cars are built to run, and because they run they sell. If we cannot prove to you under the most searching test that Studebaker cars are absolutely the best automobile values in the market, we do not want your business; but we can prove it, and your neighbors who drive these cars will tell you the same thing.

Be an expert when it comes to buying a car. You can, by getting from us some further ideas on real tests of an automobile. Clip the attached coupon and send it to us now because we have something new to tell you which you ought to know, whatever car you have in mind.
