

MARSHALL REPUBLICAN

Published every Thursday and entered in post office at Marshall Mo., as second-class matter.

Terms: \$1.00 Per Year in Advance

J. J. WITT, Editor. E. L. PRESTON, Business Manager. Telephone: Office, Bell, 3; Herndon, 29.

We are authorized to announce J. S. HODGE

as a candidate for the office of Recorder of Deeds of Saline county. Subject to the action of the Democratic party at Primary, August 10th. (11)

A telegram from Pittsburg states that 15,000 men are to return to work in the steel mills there. That would indicate that quite a number were laid off.

The statement of facts for public information and for the remedying of false methods is not "clamorous howling." It is time now to let the people know what they have done so that they won't repeat their foolish acts.

Sunday was church-going day in the cities and millions went who seldom or never attend. With baseball parks and race tracks closed, it is easy to get a crowd, but we fear this record attendance can't be reached with cemetery attractions.

A meteor Saturday fell on the Clarkshurg, Virginia, torpedo plant and blew it up. As big as the country is we can't see the need of falling on a lot of dynamite, but strange things do happen and we'd about as soon it fell there as anywhere—at least we don't need any around Saline county.

The Missouri Grange is raising a permanent fund to assist deserving young men to get an education and to get started in business. The money is to be paid back and passed on to the next borrower. This is both sensible and practical and we hope the fund will soon have millions. It will bring a rich harvest.

The U. S. Department of Agriculture is reported just issued may cause him to "explore" to his party, as he says horses in Missouri in 1913 averaged \$101, and in 1914 only \$93; mules \$117 in 1913 and now \$112. We wonder what benefit the farmers have received under free-trade to offset this loss in their most valuable possession?

The Republicans and Progressives are getting together in many of the states, and the candidate running in Iowa at the special election to fill the vacancy caused by the death of Congressman Pepper against the Democratic nominee is endorsed by the two factions of the party. It has been demonstrated that nothing is to be gained by continuing the fight and the factions are getting together. Warrensburg Standard-Herald.

There have been 514 fewer deaths in Chicago the past six weeks than during the same period a year ago. This is accounted for by the mild winter, which is more conducive to outdoor living and more airing of living quarters. From pneumonia alone there are 245 less deaths in the time mentioned than a year ago, exploding the theory that a cold winter is conducive to good health.

The great sugar industries of the South are making a final struggle for existence. More economic methods are to be practiced and if this will not save the industry it will have to go "by the board," a victim to free trade. It is probable the land will then be used to raise corn and hogs, bringing in keener competition for our farmers and also "cheaper living" as they voted for.

Frank Schlessor of St. Louis, who was here this week on a visit, says business conditions in St. Louis are now worse than in 1893, owing to the thousands of idle men, due to laying off at the foundries, breweries, slaughter houses and factories. The Provident Association appeal in Monday's Globe-Democrat bears out his statement, showing more appeals for help than ever before in spite of the mild weather. Fortunately through prospects are for better times.

Winter in Europe.—During January, the weather has been unusually severe in all the countries of central Europe. Disastrous floods in Belgium were checked only by a heavy snowfall and severe cold. The snow is usually heavy throughout Switzerland and southern Germany, and moderating weather has been followed by floods along the Rhine and other rivers. In Russia, blizzards

Farm For Sale.

110 acres, all fine land, seven room house, good new barn, 40 acres in wheat, balance for corn, located opposite Waverly, in Carroll county, Mo. There is no better land to be found, this is a bargain. Write or see A. Leonard, Marshall, Mo.

A. LEONARD, Marshall, Mo.

THE OLD STORY.

and intense cold have prevailed, and deaths among the peasantry from cold, starvation, or the attacks of wolves, are numerous.—Youth's Companion.

An Elkhart girl, who attended the reunion at Elmer, had her fortune told by a gypsy, who was working at that business, and charged fifty cents a shot. The girl was told that she would be married in two years, and that she would be able to pull through without a divorce. To test the gypsy's ability the young woman dressed differently the next day, borrowed her sister's baby, and again visited the fortune teller's tent. The old fortune teller took a squint at the baby, looked at the girl's palm, and said: "You have been married three years and have had lots of trouble, but sunshine is coming. Your husband's relatives have caused you much unhappiness, but you will conquer."—Elkhart (Mo.) Courier.

There were unloaded at New York's ocean port last week 200,000 bushels of corn from Argentina, and millions of bushels more have been contracted for from South American countries on account of the McKinley Tariff. This competition has already forced a decline in cash values. One New York firm contracted with Argentine dealers for 5,000,000 bushels, to be used in the manufacture of syrups, etc. Argentine farmers are in great plea over the American trade prospects and will increase their corn crops this year. So there you are, American farmers—up against it.—Greenville (Mo.) Courier.

The Missouri Pacific-Iron Mountain has placed an order with the Baldwin Locomotive Works of Philadelphia for twenty-five huge locomotives. They will be of the Mikado type and will be used in freight service. In every detail these engines will represent the latest effort in locomotive construction. The light weight of the engine and tender will be 237,000 pounds, and when in working condition and ready for service the total weight will run close to 400,000 pounds. The weight on the drivers will be 295,000 pounds and the locomotives will have a tractive force of 50,100 pounds. The total weight of the engines will be 78 feet long they will measure 15 feet from the rail to the top of the smoke stack. They will be equipped with Schmidt superheaters, a recent invention for increasing the power of steam, and will also have electric headlights and electric cab lights. The railroad expects to receive the first of the engines by the 15th of February.

"A half an hour later a close political friend of Mr. Hamlin's who had been with me during this conference with him, and who had asked me to let him have the last words in private with Mr. Hamlin, said: 'In case the situation would develop that a compromise should be necessary wouldn't it be better that you name the man who would be a friend of yours and you make necessary arrangements to divide the revenue?'"

"This suggestion of the close political friend of Mr. Hamlin was promptly turned down and it convinced me that I was not in the race, and that something was materially wrong."

"This same close political friend further told me that he was 'grooming' Mr. Hamlin for governor—that there were differences between Mr. Hamlin, Ex-Governor Francis and the St. Louis Republic that would have to be patched up, and that in case things looked right to make the race, the appointees of Mr. Hamlin in the Seventh district would be asked for two months of their salary of campaign purposes.—Editor Warsaw Times in Warsaw Postoffice Fight.

J. W. Ritchey will have a public sale at his farm 4 miles west of Nelson, Tuesday, February 10th.

CHICHESTER'S PILLS THE DIAMOND BRAND. Sold by druggists everywhere.

POSITIVE PROOF.

Should Convince the Greatest Skeptic in Marshall.

Became it's the evidence of a Marshall citizen. Testimony easily investigated. The strongest endorsement of merit.

The best proof. Read it: Mrs. J. P. Pemberton, 776 S. Lafayette St., Marshall, Mo., says: "For years I suffered from what the doctors said was Bright's disease. They said there was no cure for me. I felt terribly bad and kept getting weaker and weaker until I had to go to bed. I grew thin then all at once, began to bleed. My face was swollen. I suffered from terrible headaches and the kidney secretions were unnatural. I had trouble with my heart also. At last I got to that point where I took no further interest in life and wished that the end might come. Seeing Don's Kidney Pills advertised, I decided to make one more effort to do something for myself, and I sent to Franklin's Drug store for a supply. I began to improve at once, and my kidneys acted more freely until they became normal and carried off the poisons from my system. I improved rapidly and after I had taken twelve boxes of Don's Kidney Pills, I was well. The cure has been permanent, and I praise Don's Kidney Pills as highly as ever. I have told many other people of this reliable kidney medicine."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Don's Kidney Pills—the same that Mrs. Pemberton had. Foster-McBarn Co., Props., Buffalo, N. Y. Adv.

LITTLE ROCK.

John Teilmeyer of North Dakota is visiting home folks.

Mr. John Fisher was buried last week near our city, 60 years and 7 months. Mr. Fisher was loved and liked by everybody and was a good christian man and he sure will be greatly missed, and we all extend our sympathy to his family.

Mrs. Edson Merrill, who was operated on some time ago at St. Louis, died there and was buried last Monday at Marshall, Mo. Mrs. Merrill and her husband lived near Little Rock and her folks north of town and wish to extend husband and folks our sympathy.

Chas. Overchroom and family took dinner with T. M. Miller and family. Mr. Scott has just moved to our city.

Mr. Dick Hays attended the funeral of his sister, Mrs. Merrill at Marshall last week.

George Pearson, Sr., has gone to Kansas City on business.

Dr. W. S. Sharp was a Marshall caller last week.

A TEXAS WONDER. The Texas wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for Missouri testimonials. Dr. E. W. Hall, 2926 Olive street, St. Louis, Mo. Sold by druggists, adv-11

Guinn, Judge second district.

BOARD OF EDUCATION. Dr. G. E. Sharp, president; Isaac Wittrop, W. S. Huston, A. Leonard, John W. Rose, L. D. Murrell; Clerk, A. B. Hoy.

CITY DIRECTORY. Mayor, Ed. H. Mitchell; City Treasurer, A. E. Swisher, Jr.; City Clerk, Chas. D. Alexander; City Attorney, A. B. James; Collector, Jas. A. Fisher. Members of the City Council: First Ward, C. C. Baruda, J. A. Mitchell; Second, S. P. Allen, R. R. Pemberton; Third, H. S. Tucker, J. E. Rose; Fourth, W. B. Welch, W. W. Winters.

STATE CONGRESSIONAL AND SENATORIAL. Major; Lieutenant Governor, William R. Painter; Secretary of State, Cornelius Roach; Treasurer, Edwin P. Deuel; Auditor, John P. Gordon; Attorney General, John T. Baker; Superintendent of Public Schools, W. A. Evans; Inspector of Grains, James T. Bradshaw; Public Service Utility Commission, John M. Adkinson, chairman; John Kennish, P. B. Shaw, Frank Wightman and Wm. F. Woerner.

The 7th congressional district is composed of Howard, Saline, Lafayette, Pottis, Benton, Hickory, Polk and Greene counties; C. W. Haslin, congressman. The 10th senatorial district is composed of Saline, Pottis, Benton and Hickory counties, Louis Grother, senator.

RURAL CREDITS

HOUSE LEADERS MAKE PLANS FOR PASSAGE OF CREDITS BILL.

WASHINGTON, D. C., Feb. 5.—Plans for placing a rural credits bill on the administrative programme were tentatively agreed on to-day by the House Democratic leaders. It was decided that the measure should be framed by the subcommittee of the Banking and Currency Commission now investigating the subject, for introduction in the House by April 1. The measure then will take its place with the administration antitrust bills to be pushed at every opportunity.

Representative Bulkley of Ohio, chairman of the subcommittee; Representative Underwood and President Wilson have gone over this plan and agreed that it should be carried out if possible. Senator Owen, in charge of the bill in the senate, will be consulted and an effort made to insure early action in that body.

Speedy action in the House on the Shuckelford Federal good roads bill, appropriating \$25,000,000 for Government aid to the States in building post roads, also is contemplated. Mr. Underwood said that as soon as practicable the special rule already framed by the Rules Committee, limiting general debate on measure to seven hours, would be put through the House.

In order not to interfere with appropriation bills and the antitrust programme, eight sessions of the House will be held later.

INCALLED FOR LETTERS.

Remaining in the Marshall, Mo., post office, February 11th, 1914. If not called for in two weeks will be sent to the dead letter office at Washington, D. C.

Ladies—Prestover, Miss Mavis Virginia. Gentlemen—Belok, H. E.; Range, J.; Reeves, J. A.; Western College of Photography; Wills, Edd; Worker, Will. C. B. BACON, P. M.

Frank W. Campbell's little son has chicken pox and not small pox, as has been reported. The only two cases of small pox that has been reported are Will Blosser and the negro man near the water works. The physicians we have talked to think there is no reason for alarm.

Mrs. C. M. Silfe is in Harrisonville having been called there on account of the birth of a grandson. The babe was born to Mr. and Mrs. George Whitby a few days ago, son-in-law and daughter of Mr. and Mrs. Silfe.

Mr. and Mrs. C. L. Bell have gone to Chicago on a business trip in the interest of the Myers & Bell dry goods establishment.

Changeable Climate

IS A CONSTANT THREAT TO THE HEALTH OF THE PEOPLE.

Dr. Hartman, of Columbus, Ohio, discusses an important health topic. He says:

Yes, it is the climate, not the germs, that we have to fear in this country. The germs are present, to be sure, and are of some significance in diagnosis. Climate, a changeable climate, is the true cause of disease. The atmospheric pressure varies, the humidity of the atmosphere changes. Every day the temperature rises and falls. All this presents to the body very great trials to adjust to.

The area of high pressure forms in the northwest. Moves rapidly southeast, subjecting millions of our population to its influence. The result is, thousands upon thousands of people catch cold. A small per cent. of these thousands do not get well of their cold. It goes into pneumonia, or chronic catarrh, or bronchitis, or laryngitis, or pleurisy.

Now, what I am getting at is this. These climatic changes are inevitable. No one can prevent them. The very best we can do is to prepare for them, defend ourselves against them. Good health is the best preventive. The very best, vigorous health, with excess vitality, this is Nature's own preventive and protection.

We do not all have this, however. Some of us must have assistance. The assistance that I use for myself, would recommend for my friends to use, my neighbors and my countrymen, is Fe-ru-na. Keep Fe-ru-na in the house.

If the children indicate they are catching cold, give them Fe-ru-na. If the parents, the grandfather or grandmother, present those symptoms that are so well known which precede a cold, a few doses of Fe-ru-na and the deed is done.

Some people are very subject to colds. Others who have weak lungs and are timid about our winter weather, take Fe-ru-na off and on during the whole winter season. The plan is a good one. The medicine is inexpensive. It does no possible harm to the system. It keeps the appetite regular and keen. It assists digestion and helps the user through the inclement weather of winter.

Ask Your Druggist for Free Pe-runa Lucky Day Almanac for 1914.

Public Sale!

We will have a public sale, at the Dr. Phelan farm, 5 miles southwest of of Marshall and 2 miles southeast of Shackelford, on

Thursday, Feb. 26th, 1914,
