MARKET REPORT.

KANSAS CITY Stock Yards, May 25.—Steer trade began to show more activity last Wednesday, and a part of the early losses of the week were regained in the last days. Butcher grades participated, but stockers and feeders dragged to the close, and finished weak to a quarter lower. A feature at the yards last week was the annual visit on Tuesday, of members of the senior class of the Department of Animal Husbandry, of the Kansas State Agricultural College. Receipts today are only 6,000 head, and beef grades are strong to 10 higher, yearling steers and heifers 10 to 15 higher. Some middle weight steers, 1,119 lbs. average, sold at \$9.15 here today. At a recent meeting of International Live Stock Show directors, it was decided to bar steers 3 years old and over from competition in car load classes. This publicly marks the passing of the big weight animals. Fed Colorados stopped at \$8.60 today, same notch in which the same cattle sold a week ago. North Texas and Oklahoma fed steers sold in the quarantine division here today at \$7.00 to \$8.20. Stockers and feeders are stronger today. Features are the extraordinary demand for high class stockers, and the comparatively small number of that kind coming, the latter a customary condition at this season. Best stockers sell up to \$8.25, fair to good \$7.25 to \$7.75, feeders up to \$8, prices about like a year ago. Hog news was better today Illinois and Iowa shippers celebrating the close of the corn planting season with a run of 56,000 head at Chicago. That was enough to remove all spring from the market, and insert leaden weights instead, and sales here were largely 10 lower, receipts 9000, top \$8.27 1/2, bulk sales \$8.10 to \$8.25. Local prices are only 7 1/2 cents under Chicago today, and prices here are running considerably above up river points, although weights since the first of the year average 20 lbs. lighter per head than at St. Joseph, and 35 lbs. lighter than at Omaha. Heavy hogs, therefore, sell exceptionally well here. Sheep and lambs have lost their bloom, particularly lambs, which are off 10 to 25 cents today, best springs \$8.75. Sheep are holding up better, clipped Texas ewes at \$5.35 and wethers at \$5.70 today, weak to 10 lower. Goats are steady, some brushers at \$4.40 today, close to a record price, and fat goats worth around \$4.50. Receipts are 11,000 today, and contain no first class wooled Colorados, which are quotable around \$9. J. A. Richart, Market Correspondent.

Backache is often present day and night.

Headaches and dizzy spells may occur.

Weakened kidneys should receive quick help.

Don't delay! Use a special kidney remedy.

John L. Jones returned from St. Louis, Saturday, limping considerably as the result of an accident while in the city. The company now has 5000 tons of ore on the dump and will start it through the pulverizer as soon as the machinery is installed. The ore on the dump assays about \$20 to the ton which will pay the company a handsome margin of profit.

A vein of ore still richer, lies under the vein now being worked.

That Weak Back

accompanied by pain here or there—extreme nervousness—sleeplessness—may be faint spells—or spasms—all are signals of distress for a woman. She may be growing from girlhood into womanhood—passing from womanhood to motherhood—or later suffering from that change into middle life which leaves so many wrecks of women. At any or all of these periods of a woman's life she should take a tonic and nerve prescriber for just such cases by a physician of vast experience in the diseases of women.

DR. PIERCE'S Favorite Prescription

has successfully treated more cases in past forty years than any other known remedy. It can now be had in sugar-coated, tablet form as well as in the liquid. Sold by medicine dealers or trial box by mail on receipt of 50 cents in stamps.

Miss Elizabeth Lorrain of Berkeley, Cal., in a recent letter to Dr. Pierce said: "I was completely broken down in health, I wasaching and had painlover my body and was so nervous that I could scarcely if anyone talked to me, but I had the good fortune to meet a nurse who had been cured by Dr. Pierce's Prescription. I have never had an occasion to consult a physician since—am in excellent health."

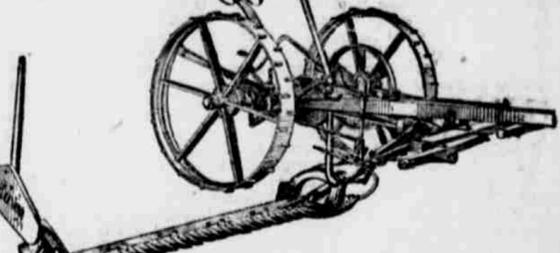

At 10 o'clock Saturday morning, May the 23d, there was gathered in the high school auditorium, a fine representation of Saline young people who are reaching out after the higher, better things in life. It was a notable gathering in that it was the first graduating eighth grade exercises held in the county in which the rural and city schools combined.

Certificates of promotion were given to one hundred and fifty or more and about sixty-five were to the pupils of the eighth grades of Marshall.

The occasion was an inspiring one and to those of our county and city present, it was evidence of the increasing and abiding interest of the banner county and its capitol in educational matters.

County Superintendent Lynch presided, and during the exercises made a brief but to the point talk.

After a selection by the high school violin club, directed by Mr. Vawter, Rev. W. H. Williams, pastor of the First Baptist church made the invocation.
