

U. D. CLUB TROUBLE TO A VOTE THURSDAY

Final Decision, However, Will Be Left to Board of Curators.

HIT 'MULLIGAN STEW'

Club Members Allege That Cafeteria Is Favored Over Them.

Democracy, Mulligan stew, tough meat, adding machines, soap and Stephens College were all discussed in the examination of Stanley Sisson Friday night for mismanagement of the University Dining Club.

The final result of the meeting was that the proposition of whether the Cafeteria and the University Dining Club be entirely separated and put under different managements, or whether the club organization be done away with and both the club and the Cafeteria be put under University management, is to be voted upon Thursday and the result sent in a petition to the Board of Curators for the board to decide.

The examining body was composed of representatives from the Cafeteria, the club, persons from both sides who had not expressed opinions and the members of the dormitory board.

The petition from the club asked for the dismissal of the present manager and the entire separation of the Cafeteria and the University Dining Club. It is said that the present manager could not show where the money went, that the bad food was sent to the club and the best part to the Cafeteria, that the necks and wings of chickens were sent to the Club and the legs and best parts to the Cafeteria, that mops, brooms and soap used by both were paid for by the club, and that the best cuts of the meat were sent to Stephens College, which does its buying through the club.

Cafeteria Sends Counter-Petition. A counter-petition from the Cafeteria branded as false the statement that the Cafeteria was getting the best part of the food. It declared that the club petition was the result of a few dissatisfied and jealous members of the club.

Here is some of the evidence in the examination of Mr. Sisson: Member of the U. D. Club council—Our men don't have any way of checking up the money spent from the service fund, the \$25 that is paid in by each club member at the beginning of the year.

Member of dormitory board—The University sends a statement once a month.

Councilman—Well, we are told we don't have anything to do with that, so that cooks us.

Member of board—All you have to do is send one of your councilmen to check over the statement.

Member of council—It is evident from the records that all of the money paid in to the board fund of the club, \$1.75 a week, is not spent for board. We don't get \$1.75 worth of food.

Sisson—If part of the expenses were not paid from the board fund, the service fund would have to be made more and this would keep men away from the club.

"How About the 'Mulligan'?" Councilman—How about this bad smelling meat. We get the bad part of the meat at the club.

Sisson—The Cafeteria gets the same kind of meat, cut from the same piece. It is eaten without any remarks by those at the Cafeteria.

Councilman—Well, why didn't the manager cut out Mulligan stew? Nobody eats it.

Member of club—I'm surprised at the kick on Mulligan stew. The board at the club has been better this year than ever before.

Councilman—All of the tough meat is sent to the club.

Sisson—No, it is divided. The Cafeteria gets tough meat for hamburger. Cafeteria representative—I don't know anything about the tough meat, but I have eaten chicken neck at the Cafeteria.

In the examination Mr. Sisson explained that the meat was kept in the University cold storage, and that Stephens College paid for this privilege and that it was charged a half cent a pound more than the meat cost to make up for any loss to the club.

A PLEASANT DAY, IT SAYS

Forecast for Today Calls for Warmer Weather.

Here is the official weather forecast for today: "Fair and warmer; moderate winds."

LESS DUST THIS SUMMER

New Flusher Is Expected to Make It Cleaner Down Town.

Due to the untiring persistence of the street committee of the Woman's Civic League, Columbia has a \$1,000 street flusher that will keep the business district of the city in good condition this summer. Mrs. W. T. Stephenson, as chairman of the street committee, solicited and collected all the subscriptions to pay for the flusher and it has already been at work several days.

Mrs. Stephenson said yesterday morning that not much work could be done with the flusher until the streets had been cleaned. They are in such a condition now that it is feared flushing would stop the sewers. But the committee on the cleaning of streets is working on plans and it is hoped that Columbia's streets will soon be in good condition.

"Since the merchants are the ones who gave the money," said Mrs. Stephenson, "it is only the business district in which the flusher will be used."

M. U. TENNIS MEN WIN

C. C. Woods and Gene Swarts Take Valley Championship at Lawrence.

The Missouri tennis team won the Missouri Valley championship yesterday at Lawrence, according to a telegram received by Prof. C. L. Brewer. C. C. Woods won the singles championship, and Woods and Gene Swarts took the doubles.

A week ago the same men defeated Kansas in a dual tournament here.

1,110 MILES BY MOTORCYCLE

H. J. Lamade Plans Long Trip After Commencement.

A 1,100-mile trip on a motorcycle is planned by Howard J. Lamade, a senior in the School of Journalism of the University. Mr. Lamade lives in Williamsport, Pa. Instead of going home by railroad, he expects to make the trip on motorcycle.

Mr. Lamade estimates the distance from Columbia to Williamsport at 1,100 miles. He will give himself nine days in which to make the trip. The first day he expects to go from Columbia to Hannibal, the second from Hannibal to Ottawa, Ill.; the third day through Chicago to South Bend, Ind.; from South Bend through Elkhart, Ind., to Toledo, Ohio the fourth day; from Toledo to Cleveland the fifth day; from Cleveland to New Castle, Pa., the sixth day; from New Castle to Pittsburg the seventh day; from Pittsburg to Johnston the eighth day; from Johnston to Williamsport the ninth day.

Some days Mr. Lamade expects to travel much farther than others, owing to the road conditions. The roads are bad between Columbia and Hannibal and the country between New Castle and Williamsport is mountainous and is hard climbing for a motorcycle.

Mr. Lamade probably will leave Thursday or Friday following Commencement. His only baggage will be a small hand bag.

AT THE CHURCHES TODAY

The Rev. C. H. Winders of Indianapolis, Ind., a former pastor of the Columbia Christian Church, will preach there at 10:45 o'clock this morning. He will preach the baccalaureate sermon to the graduating class of Christian College at 8 o'clock tonight at the Christian Church. Bible school will be at 9:30 o'clock this morning, Christian Endeavor at 6:45 o'clock tonight and prayer meeting at 8 o'clock Wednesday night.

Sunday school will begin at 9:30 o'clock this morning at the Methodist Church, preaching at 10:45 by the Rev. C. W. Tadlock, whose subject will be "The Marks of Service." The young people's meeting will be at 7 o'clock tonight followed by a sermon from the pastor at 8 o'clock on "A Disciple's Spiritual Decline."

Sunday school will be at the Presbyterian Church at 9:45 o'clock this morning, at 11 o'clock the pastor, Dr. W. W. Elward will speak on "Where to Draw the Line." There will be no preaching services at night. The Y. P. S. C. E. will meet at 7 o'clock.

Sunday School will be held at the Episcopal Church at 9:45 o'clock. The regular morning services will be at 11 o'clock.

ORANGE VEGETABLES IN BOY'S GARDEN

Carl Gundelfinger, 15 Years Old, Grows Little-Known Plants.

KOHLRABIA ANOTHER

And Cantaloupes That Grow on Bushes Are Also in His Back Yard.

Orange and lemon vegetables, cantaloupes that grow on bushes, dills for dill pickles, a German turnip that grows above the ground and sweet lavender to make sachet bags are among the many vegetables that Carl Gundelfinger of 714 Missouri avenue, a 15-year-old sophomore at the Columbia High School, has in his garden. Every inch of the garden; 97 feet by 25 feet, is utilized and kept in good order by the young gardener, who planted it himself.

He became interested in raising a garden after reading about R. B. Price, Sr., president of the Boone County National Bank, who spends his spare time in working a garden. Carl spends on an average six hours a day on his. He works as early as 6 o'clock in the morning and then in the afternoon from the time he returns from school until darkness comes.

Among the interesting vegetables he planted is kohlrabi, a cross between a cabbage and a turnip, which grows above the ground. It is a German vegetable, according to Mrs. Bertha Gundelfinger, Carl's mother, that is not often raised by the Americans as they haven't learned its use very well yet. The orange and lemon vegetables have a color similar to those fruits when they ripen. They are used for preserving and pickling.

"We are trying them for the first time," Mrs. Gundelfinger said. "I ate some of them years ago in New Jersey. They were growing like gourds and were good to eat off the vines."

The blossom of the sweet lavender will be used for filling sachet bags and the leaves for flavoring. Carl has also planted some anise, the seeds of which will be used for flavoring like sage. The dills they are growing will be for dill pickle.

The new cantaloupe is a novelty, according to Mrs. Gundelfinger, as the melons grow on bushes instead of vines. There are three kinds of Southern vegetables in the garden that will stand frost and are improved by it. They are winter greens—the cardoon, the collard and the brussel sprout, which is a cross between the cabbage and the cauliflower. Besides these there is a summer succession of greens—spinach, summer radishes and turnips.

Along a woven wire fence on the north of the garden are planted some telephone peas. They grow five feet high and cross and recross their "wires." They yield all summer if they are continually picked. To save space the young gardener planted four varieties of radishes in the same rows. The earlier varieties make room for the next, as they are pulled as they get big enough to eat. Around the edge of the garden cabbage and tomatoes are set out.

The other vegetables in this well-kept garden are potatoes, sixty-day cabbage, turnips, rhubarb, onions, lettuce, radishes, mustard, bunch and pole beans, spinach, bunch peas and tomatoes.

TWO BACCALAUREATE SERMONS

Commencements at Girls' Schools Begin Today.

The commencement exercises of Christian and Stephens Colleges will begin today with the baccalaureate sermons.

At the Christian Church tonight, the Rev. Charles H. Winders of Indianapolis, formerly of Columbia, will give the baccalaureate sermon for the graduates of Christian Church. There will be special music with solos by K. L. Alexander and Miss Edna Vosseller. Prof. Henry V. Stearnes will be the organist.

The Rev. Ralph E. Bailey of Jefferson City will preach the baccalaureate sermon for the Stephens College graduates at the Baptist Church at 11 o'clock this morning.

Doctor Fairchild Is Better. The condition of Dr. A. H. R. Fairchild who underwent an operation at the Parker Memorial Hospital Friday morning is much improved.

HOW M. U. HAS FARED DURING THIS YEAR

College of Agriculture Took 42 Prizes; Enrollment Greater by 224.

ONE DEBATE VICTORY

Tigers Lost Some Big Games in Football, Basketball and Baseball.

The University added forty-one prizes to its list this year by its show steers, dairy and stock judging teams; won one interstate debate; increased the University enrollment by 224 students; won a majority of the football games; only lost six of the eighteen basketball games; have so far won three outdoor track meets and lost one indoor; won the first four places in the Missouri Valley cross-country meet last fall and lost the Missouri Valley baseball championship Friday.

The University was represented in the American Royal Live Stock judging contest at Kansas City and at the International Live Stock judging contest at Chicago. In the American Royal stock judging contest the live stock judging team ranked fourth. In the International Live Stock judging contest the Missouri team ranked third, in competition with eleven other teams. In the individual competition in the international contest, men representing the Missouri team ranked fourth and eighth.

At the Chicago Show.

In the National Dairy Show at Chicago in which fourteen state teams were entered the Missouri dairy team ranked fifth. In Jersey cattle Missouri took first. Missouri made the highest individual score in Jersey cattle and second in all cattle.

The prizes won by the show steers and exhibited by the University are: Championships, 3; firsts, 16; seconds, 5; thirds, 7, and fourths, 2.

In the interstate debates Missouri won from Colorado and lost to Kansas and Texas. Not one of the Missouri debaters had had any previous experience in intercollegiate debating, while all of their opponents were experienced.

The enrollment of the University increased 224 this year. There are 3,081 enrolled here and 206 in Rolla, a total of 3,287.

A Summary of Football.

The loss of the games with Kansas and with Ames were the hardest defeats of the season. The 29-0 score with Ames looked the worst of any of the results. The Tigers won a majority of the games, but lost the biggest one—the Kansas game.

The first game of the season was with Central College. This game was easily taken with a score of 53-7. The Rolla Miners were next and the Tigers won again 14-0. The brightest spot in the season was when the Varsity team went to Oklahoma with all the odds against it and won the game by a score of 14-0.

That Nebraska Game.

While the Tigers were defeated by Nebraska, the defeat was counted almost a victory, for the Cornhuskers scored only one touchdown and it largely by good luck. Had Missouri played the football all through the season that they did against Nebraska, Kansas would not have had a chance for victory and Ames would probably have been defeated.

November 9 the Tigers met the Drake team at Des Moines. The score, 17-14 in favor of Missouri, is no indication of the comparative strength of the two teams for in all stages of the game except the last quarter, the Missouri boys clearly had the Bulldogs outclassed. Missouri easily won from Washington the next Saturday 33-0.

The Kansas game was the great disappointment of the year. The Tigers did well in the first quarter. Shepard made one of the prettiest drop kicks ever seen in a Missouri Valley game. This was the only score made in that period and the Missouri rooters were confident of victory. But early in the second quarter, Weidner of Kansas made a place kick from the 35-yard line tying the score. Soon after that trouble for Missouri began. The Tigers seemed powerless against the Minnesota shift used by the Jayhawkers, a play that the Nebraska team had failed to work against them consistently. The Kansas men used the play almost at will

(Continued on page 4.)

AWARD FOOTBALL TROPHIES

Prof. C. L. Brewer Calls Spring Practice Most Successful Yet.

"The spring football practice this year has been the most successful yet held by the Tigers," said Prof. C. L. Brewer yesterday. An unusually large squad has been out and the men have been practicing about six weeks.

Seven trophy cups will be presented to the men who make the best showing in practice. Five of them have already been awarded. The winners are: Captain C. R. Wilson, H. R. Clay, H. L. McWilliams, L. W. Lucas and William Dunckel.

Dunckel won his cup for the best work at forward passing. McWilliams won as the best backfield man. Lucas won for his work at place and drop kicking.

H. F. Schulte has had charge of the practicing squad this spring.

FIFTH WIFE FOR GOODWIN

Actor Marries Marjorie Moreland of Los Angeles.

NEW YORK, May 24.—Report was received here today that Nat Goodwin had married again. This time it was Miss Marjorie Moreland of Los Angeles. Miss Moreland is Mr. Goodwin's fifth wife.

WIN IN 12 INNINGS

Woolsey's Single Defeats Kansas in Over-Time Game.

It took the Tigers twelve long innings to win from the Jayhawkers yesterday. The score was 3 to 2. It was one of those long exciting games full of hitting, running and great catches. Woolsey singled over second base in the twelfth inning and scored Gray, who had just walked and stole second. Bishop, who made a great catch of Brainard's long fly in the fourth inning, tried hard to get Woolsey's hit but barely touched the ball as it hit the ground. Two were out before Gray got on base.

Missouri's two other runs came in the first inning. Gray hit through second and stole on the first ball pitched. Woolsey hit an Gray went home while Woolsey took second. Tommy Hall then hit to left field and Woolsey went to third. Hall stole second and Woolsey scored on a passed ball.

Ward, first man at bat for Kansas in the second inning, walked. Bishop hit to Rollins street, allowing Ward to score. Bishop took second on the throw-in to catch Ward, Wilson tripped to left field and Bishop scored.

In the first inning Hicks tried to steal home as Angerer was delivering the ball to the batter, but Hall ran up and caught the ball for an easy out as Hicks slid home.

In the eighth inning Gray made one of the best catches of the season when he ran far in and took Bishop's fly just before it touched the ground. In the twelfth inning Gray ran back and got another long fly from Bishop's bat that looked like a home run. Capp ran up on the right field hill and caught Wilson's long fly.

"Dutch" Angerer pitched the entire game, making twenty-one innings for him in two days. He struck out nineteen men in the twelve innings, striking out seven straight in the fourth, fifth and sixth innings. Buzick struck out five men.

Missouri.

Table with columns AB, R, H, O, A, E and rows for Hornback, Gray, Woolsey, Hall, Helmreich, Taylor, Brainard, Palfreyman, Angerer, Capp.

Totals.....39 3 7 36 12 2

*Went in for Helmreich in eighth.

Kansas.

Table with columns AB, R, H, O, A, E and rows for Somers, Hicks, DeLonge, Ward, Bishop, Wilson, Buzick, Coolidge, Ebnother.

Totals.....41 2 5 35 20 4

Struck out by Angerer, 19; by Buzick, 11.

(Continued on page 2).

ONLY ONE CONTEST AT POLLS TOMORROW

In Three of Four Wards Democratic Nominees Have No Opponents.

ELECT 6 COUNCILMEN

Prof. W. J. Shepard to Run Independently Against J. B. Gant.

After tomorrow Columbia will again have a full City Council. The candidates have made no pre-election promises about resigning but it is generally understood among the voters that they expect to serve "for a while."

The contest for councilman from the Fourth ward between Prof. W. J. Shepard and J. B. Gant will be decided. This is the only ward of the four in which there is any opposition. The candidates nominated in the other three wards at the Democratic primary are practically assured of election. Professor Shepard is an independent candidate while Mr. Gant is the Democratic nominee.

Professor Shepard says he is not doing much campaigning but that if elected he will give his best effort for good and efficient city government.

"I see no reason for drawing parallels in such an election as this," said Professor Shepard.

"In regard to present city problems I stand for one authoritative head of the water and light department. There should be no politics in the selection of the head of this department. A good efficient man should be put in the position with the understanding that his tenure of office is permanent so long as he gives satisfaction."

"I am running as a Democratic nominee for councilman," said Mr. Gar yesterday in regard to his candidacy. I have no definite statements to make at present, as I do not know enough about the particulars of the question now confronting the city. I intend to do my best to support the best interests of the city in case I am elected.

Mayor W. P. Moore and James Stockton, justice of the peace, have named the following judges of the special election tomorrow:

First ward: W. D. Morris, N. A. A. ton, S. G. Tipton, William McCask W. E. Fay and J. T. Cooper. Second ward: R. L. Withers, W. Kelliher, Rev. Edmund Wilkes, Alexander Stewart, J. A. Nichols and J. Palmer.

Third ward: Virgil Potts, B. F. Ve able, A. F. Dinwiddie, Jacob Sellings H. G. Kohlbusch and C. W. Furney.

Fourth ward: T. W. White, R. Lonsdale, J. N. Fellows, C. B. Rollis S. P. Bewick and Simeon Hedrick.

The polling places will be: First ward—Belden Hall. Second ward—Courthouse. Third ward—Crews livery barn. Fourth ward—Corner Conley a Hitt street.

THE MIKADO IS MUCH BETTI

Jap Ruler Out of Danger Now, Is Believed.

By United Press.

TOKIO, Japan, May 24.—After passing a favorable night the Mikas Yoshihito, whose condition was thought serious, is today believed to be out of danger. The eight attending court physicians report that he awoke this morning after a good night's sleep with a temperature 99, pulse 26 and respiration 76.

As a result of his improved condition, an order was issued today allowing the reopening of the theat and public places which were closed two days ago when it was feared that the Mikado's condition was serious.

A GATHERING OF KINGS

Royal Couple Married in Berlin Today.

By United Press.

BERLIN, May 24.—What was perhaps the most notable gathering of royalty in years took place today when Princess Victoria Luise, daughter of German Emperor, was married to Prince Ernst of Cumberland, Duke Brunswick. It was the most brilliant ceremonial Europe has seen in years and the assembled guests comprised all the rulers of Europe or their representatives. Kaiser William of Germany, King George and Queen Mary England, Czar and Czarina Nicholas Russia were among the guests.
