"Major Andrew Mose, the Federal inspector, was highly pleased with the efficiency of corps," said Lieutenant Eby. "There is no doubt in my mind but that we will retain our ranking of 'distinguished institution' again this year. The men drilled hard and well, and made a very favorable impression on the inspector."

**EARLIER MAIL DOWN TOWN**

**Change in Wabash Schedule Helps the Merchants.**

The new change on the Wabash Railroad time table, which went into effect yesterday, on the Centralia branch not only means more convenience for the Columbia merchants in the way of earlier freight, but in an earlier delivery of the mail brought in by the Wabash.

Until yesterday the morning train on the Wabash arrived at 8:15 o'clock. This meant that the mail was rarely brought to the postoffice before 8:30 o'clock. Often the train was late and consequently the mail was not delivered in the business section on the first delivery. Now that the morning Wabash is due in Columbia at 7 o'clock all of the morning mail on both railroads is delivered on the first delivery.

**ANOTHER COLORADO STRIKE!**

**Threat Made Today by Officer of United Mine Workers' Union.**

**By United Press**  
INDIANAPOLIS, May 4.—That the United Mine Workers' of America will call another strike in Colorado as a protest against tyrannical conditions unless John R. Lawson is accorded fair treatment and is vindicated, is the statement issued by Frank J. Hayes, vice-president of the organization. Mr. Hayes directed the last strike in Colorado.

**By United Press**  
TRINIDAD, Colo., May 4.—Application for a new trial for Lawson will be made within thirty days, according to Counsel Horace Hawkins. Hawkins is said to cite as reasons for the new trial that Judge Miller, presiding at the trial, was formerly counsel for the fuel operators and previously was openly hostile to the defendant, that the jury was placed in charge of Rockefeller mine guards and that the verdict was based on passion and prejudice contrary to the evidence. He also claims that the judge was arbitrarily adverse to the defense in rulings vital to technical points in the trial.

Lawson has been sentenced to life imprisonment, but is at liberty on bond. The defense protests that demonstrations here are planned.

**JAP IS KNOX BASEBALL CAPTAIN**

**Goro Mikanie of Kofu Leads Illinois College Team.**

It is the exception at the University of Missouri for a student of foreign birth to develop into a good athlete. Not many have been "uncovered" here. Over at Knox College, Galesburg, Ill., however, a native of Japan has been elected captain of the baseball team. His name is Goro Mikanie.

Mikanie entered Knox College as a member of the class of 1917. When the first call for baseball was given "Mike," as Mikanie is called over there, was one of the first men to come out. He had no trouble in making a place on the team. He played shortstop, and was generally recognized as one of the best college infielders in the middle West. Mikanie expects to retain his old position this year, and to pitch a little if necessary.

Mikanie was born in Kofu, Japan. He played baseball while in the grammar grades. After being graduated from high school "Mike" enrolled in Waseda University, the largest private school in the Japanese empire. During his first two years he played in the outfield, and played shortstop during his senior year.

In 1911 Mikanie came to the United States with the Waseda University baseball team at the invitation of the University of Chicago. The team toured the states for four months.

Mikanie was graduated from Waseda University in 1912. He came to America in 1913, and went directly to Galesburg, Ill., where he entered Knox College.
