

COLUMBIA AWAITS SEASON'S BIG THRILL

Rooters See Tigers in Last Scrimmage Before Duel With Kansas.

TEAM IN GOOD TRIM

Schulte Announces Probable Lineup—Missouri Must Battle With Beef.

Missouri football followers, anxiously holding their breath until Thanksgiving Day, were given their last glimpse of the Tigers yesterday afternoon until the padded warriors trot out on Rollins Field next Thursday.

About 300 of the faithful ones were on hand to watch the Tigers scrimmage. Nothing especially new was offered by Coach Schulte, but the Tigers appeared to be in fine trim. They worked well against the freshmen and scrubs and by the use of straight football scored several touchdowns.

Groves and Giltner emerged from the tussle with injuries that may slow them up for a short time, but will not keep them out of the big game. Giltner's knee, which was jarred so seriously in the Washington contest as to keep him out of a couple of games, suffered another slight injury. Groves was taken from the field with a bad shoulder and arm, but it is thought that the injuries will heal in a few days.

No Missouri Bear Stories.

Missouri cannot be accused of springing any bear stories this year. Practically all of the men are in good shape and no one has attempted to hide the fact. Pittam, White, Prestoa and Van Dyne are being bothered with "charley horses," but it is not believed they are permanent.

Schulte has taken such care of the men this year as to put them in condition at the time of the big conflict. Yesterday Schulte did some talking. He didn't predict which team would win the laurels, but he gave a few of his opinions.

K. U. Has the Edge.

"Kansas has the edge on us," he said. "I expect a close game, but I think the odds are on the Jayhawks. The Lawrence team is a third better than it was last year both on offense and defense. Moreover, the Kansans will outweigh us about twenty pounds to the man."

When asked as to the probable lineup of the eleven that will meet the Kansans, the Tiger coach said that, according to his present guess, the following men would start the game: Speelman, le; Groves, lt; Muir or Van Dyne, lg; Hamilton, c; Preston, rg; McAnaw, rt; Giltner, re; Stanowski, qb; Reppy and Collins, halves, and Rider, fullback.

Columbia and the University have been living and breathing football for the last week. On the streets, between classes, in the shops and the clubs they all talk of Speelman, of Collins, of Groves and the others with whom will rest the fate of "Old Mizzou" on Turkey Day. And let it be said that the atmosphere which hangs over the town is not one of pessimism or doubt.

Look for Close Contest.

Most of the followers of the game concede that it will be a mighty close contest. They recognize the big fact that the Tigers will look diminutive beside the beefy pupils of Olcott. But more than one Missouri team has been outweighed by Kansas in the past. They say that Schulte has developed a top-notch line out of comparatively green material and they think that line will make good.

The Tigers were light last year, but Schulte had a thing or two up his sleeve and the little McCook Field party was not altogether pleasing to the Kansas lads.

It may be the same story this year, they say, despite the fact that on paper and past performances the Olcott team looks superior.

But it'll all be settled before another Sunday. And in the meantime townspeople and students will have football on the menu three times a day, with heavy lunches between times.

Cadets in Blue Uniform Now.

The cadet corps put on blue dress uniforms Friday, and will wear them the rest of the winter. A regimental parade was practiced in preparation for one to be given next Wednesday afternoon for the entertainment of visitors in Columbia.

THEY SAY—

"The call of Columbia was too strong for me to resist," said Odon Guitler, Jr. "I was away from here for nearly twenty years, but last June I returned and have again made my home here. This in itself shows what I think of Columbia."

"I am glad to be back. I find this a better town to live in than any other I have been in—and I have lived in Kansas City, St. Louis and St. Joseph."

TODAY—AND NEXT THURSDAY!

CANADA MAY ADOPT SOME M. U. COURSES

C. F. Bailey, Minister of Agriculture, Says Schools May Teach Butchering.

PRAISES DAIRY WORK

Visitor Sees Good Results of Careful Breeding in Herd.

"I am very much impressed with your College of Agriculture here," said C. F. Bailey, assistant deputy minister of Agriculture of Canada, who was in Columbia yesterday on a trip of inspection. "Students here, I suppose, do not realize the opportunities afforded them in attending such an institution."

Mr. Bailey was accompanied by H. J. Baker, director of the extension work of the College of Agriculture of the University of Connecticut; Stanley E. Morse, director of the extension work of the University of Arizona College of Agriculture, and E. B. Brodsard, state official in charge of farm management exhibits of Utah. The members of the party were returning to their homes from the national convention of state directors of agricultural extension work, which closed in St. Louis yesterday. Mr. Bailey attended this convention as a guest of the United States Department of Agriculture.

"There are two features of the College of Agriculture of the University of Missouri wherein it differs from the agricultural schools of Canada and many of those of the United States," continued Mr. Bailey. "These features are instruction in the killing and curing of beef and in developing breeds of live stock. We have been considering a course in the killing of beef for our Canadian schools and I think it very desirable."

"In raising your own cattle, you escape a danger which has arisen in Canadian and other American colleges of agriculture—that of buying infected stock. And by breeding them, you develop a higher grade of stock. I think this is a wise move and I am certain that you will be repaid for it in the future."

"I am also interested in the animal husbandry department of the dairying courses. It is a good one. Your Stock Judging Payillon is one to be proud of. Your laboratories are equipped with the most modern appliances and the school is well qualified to teach agriculture from a practical standpoint."

"I like your University, what little I have been able to see of it, and your Missouri hospitality."

2,800 ARE CAPTURED

Troops Waited Too Long to Begin Retreat Into Montenegro.

BERLIN (by way of London), Nov. 20.—The Serbian army is fighting its last battle tonight on the plains of the blackbirds. The Serbian forces are surrounded by Germans, Austrians and Bulgars. It is believed that the only ones who can escape death or capture will be the few who make their way into Montenegro, and the enemies are in such force that it is believed this hope is slight.

The fighting is going on twenty-five miles from Montenegro on the Kossovo plain. When the Serbians hesitated to retreat toward Montenegro, the Central Powers' army cut off the way. The Serb captives today numbered 2,800.

It is reported that the Montenegrins are preparing to move their capital from Cetinje to Scutari.

HARVARD 41, YALE 0

Elis Helpless Before Attack of the Speedy Crimson Backfield.

BOSTON, Nov. 20.—Harvard today inflicted on Yale the worst defeat in the history of Yale-Harvard football games. The final score of 41 to 0 shows how helpless Yale proved.

Harvard showed speed, varied attack and defense. She opened great holes in the Blue line and the Harvard backs simply paraded through time after time for huge gains.

The loss of Guernsey, Yale's sensational punter, who was injured early in the game, added to the helplessness of the New Haven eleven.

WINS OVER HIS INSTRUCTOR

Dr. E. E. Moody Gets Appointment Washington U. Teacher Wanted.

Notice of his appointment as assistant house physician in the Great Ormond Street Hospital for Sick Children at London, England, has been received by Dr. Ellsworth E. Moody, a graduate of the College of Arts and Science of the University in 1912, and from the medical school of Washington University in 1914.

It was while he was in St. Louis that Dr. Moody received news that the position in London was open. At the same time he applied for it, one of his instructors in Washington University made application for the same post.

Moody probably will leave for London next June and plans to hold the position for one year. The London hospital is said to be the largest children's hospital in the world, having 2,500 beds.

At present Dr. Moody is practicing medicine at Joplin.

THE WEATHER.

(Report issued Saturday morning.)
For Columbia and vicinity: Partly cloudy and probably unsettled today; colder.

For Missouri: Partly cloudy and probably unsettled today. Colder west portion.

Weather Conditions.

The center of the low pressure area over Lake Michigan has now passed up the St. Lawrence Valley, and its influence is confined to northeastern sections. Rain has been general along the Atlantic coast north of Cape Hatteras, and snow fell over the northern Appalachians and the Great Lakes. High winds occurred from Lake Michigan to the north Atlantic coast.

A secondary disturbance seems forming in Colorado this morning. The winds are northerly over the upper Plains and southerly over the lower Mississippi Valley and southern Plains states. The mixing of these winds of widely differing humidities and temperatures should result in increasing cloudiness and generally unsettled conditions in central Plains and Mississippi Valley sections.

GREECE MUST ENTER WAR OR DEMOBILIZE

Entente Powers Tell Constantine to Join Them or Disband Army.

SITUATION CRITICAL

Kitchener Scheduled to See King, Who Has Defied All the Allies.

By United Press.
LONDON, Nov. 20.—Immediate participation by Greece in the war on the side of the Allies or demobilization of the Greek army was demanded by the Entente Powers today.

The Greek situation became critical when it became apparent that King Constantine intended to defy the Allies. This was seen in the reports that the Grecian government had advised Greek vessels to leave Italian and French ports. Responsibility of the government for vessels in British ports had been denied before.

Earl Kitchener was scheduled for a conference with King Constantine today.

By United Press.
BERLIN, Nov. 20.—Greece has defied all the Allies. King Constantine summoned the diplomatic corps in Athens Friday and gave notice that any Serbs who are driven into Greek territory will be disarmed and interned immediately.

ASKS COURT TO HONOR BOONE

St. Louisans Want Bronze Tablet and Biography of Pioneer.

Boone County is being asked to place the name of Daniel Boone along with the names of many other famous pioneers of early Missouri history, on a bronze tablet, which will be placed in the Jefferson Memorial Building, St. Louis. The county is also asked to furnish a brief biography of Boone, written on parchment, to be placed in a gold cylinder and deposited in the archives of the Missouri Historical Society.

The County Court yesterday received a letter from the chairman of a committee of the Missouri Society of Daughters of 1812 asking that it make an appropriation for this purpose. The cost of engraving the name on the tablet is \$25, and \$5 is asked for the gold cylinder to contain the biographical manuscript.

The court has taken no action yet, according to Judge W. T. Johnson.

A BRITON "FEEDING ON GLORY"

Soldier Assigned to African Duty Writes to Friend Here.

"When I arrived in London last November from the Malay States," writes a Briton to a friend in Columbia, "I immediately sent in my papers to the war office for a commission with Kitchener's new army. The appointment had already been fixed up when Colonel Driscoll advertised for a thousand good riders and shots for an unknown destination abroad. Like a most unholly fool I threw up my prospects with a new army and joined as a private Driscoll's Scouts, officially known as the Twenty-fifth Royal Fusiliers. Anyway, I think the winter in France would have killed me after having come straight from the tropics. Now I am here in British East Africa on a shilling a day and feeding on glory, which by the way is about all we get in the way of compensation."
