MECHANICAL SKILL IS NOT NEEDED TO DRIVE OVERLAND '75'

In Early Days Man Must Be Expert Mechanic to Drive—Women and Children Handle Cars Now.

The average car owner of today has so little trouble with his motor that many drivers never even investigate that part of the mechanism which lies under the hood.

"I'll wager," said John N. Willys, president of the Willys-Overland Company, while discussing the subject at the Toledo factory several days ago, "that the majority of people who own and drive cars cannot give a clear explanation of the meaning of transmission, differential, or any one of the 50 other semitechnical terms I might mention connected with the mechanical construction of an automobile."

While this is true in the majority of cases it does not follow that car owners are unappreciative of the many improvements that have been made.

"In the early days of the industry a man had to be an expert mechanic before he would venture far in his car. Today not only the head of the family, but his wife and children are as much at home at the wheel of a motor car as in a Pullman.

"The first things which attract a prospective car buyer are price and general appearance. These being satisfactory he asks for a demonstration to find out if the car is smooth-running and comfortable to ride in. Then he takes the wheel and is surprised to learn how simple and easy it is to drive. Soon he has complete confidence in himself and becomes a confirmed motorist.

"Our smallest Overland, Model 75, is a good example of the type of car that is adding thousands to the ranks of motordom. Its price is within the reach of all. In appearance it compares favorably with cars selling at a much higher price. Although it is smaller than our other models, it affords ample room for five passengers.

"Its mechanical construction, too, is so perfect that the inner workings need cause no worry to any driver, no matter how unmechanical he or she may be."

TIGERS MAKE REAL DENT IN EVANSTON TRACK MEET

That lack of competition in his hurdle races is what prevented Simpson from lowering his marks of 14 3-5 and 23 4-5 seconds at the Western Conference Meet Saturday is the opinion of the Missouri coaches. Bob finished yards ahead in each race. All four watches caught him in 14 3-5 seconds. There is not the slightest doubt that the record will stand. Bob received a great ovation from the stands, particularly the Wisconsin section. Wisconsin was pleased to have Missouri cut in on points which would otherwise go to Illinois. Rebeck nosed out a second place in the lows in a blanket finish with Ames of Illinois and Packer of Ames. Packer fell in a trial race in the high hurdles and failed to qualify.

Captain Powell, vaulting for the last time under Tiger colors, cleared the bar at 12 feet, tying with three others for first place. In the toss-up, Powell drew the fourth place medal.

Binga Dismond, the Chicago negro quarter-miler, ran the greatest race of his life, lowering by 1 2-5 seconds the previous record of 48 4-5 seconds made by Davenport of Chicago in 1910 and tying Ted Meredith's world record of 47 2-5 seconds, made in the Eastern Intercollegiate, a week ago. The first four men finished well under 50 seconds. The race was run on a U-shaped track, the first straightaway being 220 yards long. Wyatt of Missouri drew the pole in the final, Daggy starting in seventh position. Williams of Wisconsin was next to Wyatt, and Dismond was in third place. The 220-yard straightaway proved Wyatt's undoing. He lost the pole and was badly jostled and boxed on the turn.

Eight turns started in the relay. Wisconsin drew the pole, with Missouri in third position. Niedorp, with three others, left the mark before the starter fired the gun. They were set back a yard. Niedorp was neatly boxed and roughly elbowed all the way around the oval, but pulled up to first place at the finish. Eaton, running his last race for Missouri, took up the burden, but was unable to keep the lead. Wyatt ran a brilliant quarter and turned the baton over to Daggy in third place. Watson and Notre Dame being in the lead. Notre Dame was passed on the back stretch by the Missouri, Chicago and Illinois runners in the order named. Dismond, running last for Chicago, sandwiched in between Williams of Wisconsin and Daggy of Missouri at the finish.

Kansas sent five men, scoring a total of 4 1-2 points. Reber got second in the shot through the disqualification of Liversedge of California. Missouri sent seven men, each of whom had some share in the Tiger's total of 20 1-4 points. Pittam and Warren did not make the trip.

CITY AND CAMPUS

Miss Hazel Summerfield of Joplin is the guest of Miss Jesse Cline, 707 Missouri avenue.

Marion Sharp, a sophomore in the University, left for his home in Kansas City this afternoon.

Mrs. F. G. Baender, who was formerly Miss Elba Seymour, A. B. '06, has returned to Drexel, Mo., for the summer. She has been in Ithaca, N. Y.

Mrs. Ella Seitz of Macon and Mrs. A. H. Sargent of Hannibal, who have been the guests of Mrs. J. B. Powell at 1312 University avenue, returned to their homes today.

Benjamin E. Shaekleford, A. B. '12 and A. M. '13, will work for the Westinghouse Lamp Company in New Jersey this summer. In the fall he will be employed by the Westinghouse Electric and Manufacturing Company in their new research laboratory in Pittsburgh.

Prentice Reeves, A. B. '12, instructor and assistant to the editor of the Psychological Index, Princeton, N. J., is now employed in the research laboratory of the Eastman Kodak Company, Rochester, N. Y. His work will be chiefly with physiological optics.

Edwin Terence Kelly of Independence, who has been taking graduate work in the University and who was an assistant in the history department, will leave tonight for Warrensburg, where he will be an instructor in the history department of the state normal school.

Francis Marion Walters, Jr., who received his degree of A. B. in 1913 and his A. M. last year, is the guest of Russell Monroe this week. Mr. Walters for the last year has been the acting head of the civics department University of Montana. Next fall he will go to an eastern school to get the degree of Ph. D.

WOMEN SEEK BALLOT IN IOWA

Decision on Equal Suffrage Is Being Made at State Primary, By United Press.

DES MOINES, Ia., June 5.—"Votes for women" is dividing attention at the polls in Iowa today with the hot fight among Republicans for the gubernatorial nomination, and in many localities suffrage has the call on popular interest.

Although it is a primary election, the last legislature ordered a vote on suffrage today. If the women win, they will have a chance to cast their ballots for the presidential nominee next November, as well as for state and county officers.

Today's battle is the climax of a long fight for equal rights. In 1882 the suffrage amendment passed the legislature, but failed in the next session.

Speaking campaigns, automobile tours and all the demonstrations known to the professional politicians have been used. Some of the men and women on the stump the last few days of the campaign are Mrs. Carrie Chapman Catt of New York, Dr. Anna Howard Shaw, Miss Alice Stone Blackwell, Miss Laura Clay, Agnes L. Riddle of Colorado, Mrs. Ella S. Stewart, Mrs. O. W. Havemeyer, Mrs. Harriett Stanton Blatch, Miss Josephine Casey, Miss Anna Martin, Mrs. Catherine Waugh McCulloch, Mrs. Andreas Ueland, Miss Dora Sandoe Bachman, Mrs. T. T. Cotnam, Mrs. Millie Trumbull.

Among the men assisting in the campaign, and the suffrage leaders have a men's bureau, are Henry J. Allen of Kansas, Owen R. Lovejoy of New York, W. Y. Morgan, lieutenant-governor of Kansas, Earl Akers, state treasurer of Kansas, Samuel Strauss of New York, J. Stitt Wilson of California, A. L. Weatherly of Nebraska and Omar Garwood of Colorado.

Suffrage leaders are confident today that the wires will flash a victory for them tonight. Western suffrage states particularly have backed the Iowa campaign with cash and speakers.

WOMEN SEEK THE 73 BRAVE MEN

St. Louis Suffragists Are After Male Recruits for Parade.

The St. Louis Equal Suffrage League is anxious to enroll the seventy-three men in St. Louis who will do as much for "Votes for Women" as seventy-three men did in New York four years ago. The first suffrage parade in New York was graced by seventy-three men who walked three miles with the women and endured all the ridicule and sarcasm of which the New York street loafer is capable. It was a very hard three miles for the men, but the suffragists have never forgotten a single name of the men that marched and have made them famous.

The suffragists of St. Louis have as long memories as those of New York, and they promise they will not forget the men who help them this time. The hospitality committee announces that it has been offered quarters for a limited number of guests to the convention. The suffragists have been busy compiling lists of accredited boarding houses.

It Was Parsons' Picture.

The picture of the Christian College tennis team in last Thursday's Missourian should have been credited to the Parsons studio. It was a good picture.

WOMEN'S PARTY IN CONVENTION

Delegates From "Free" States Receive Special Notice at Chicago. By United Press.

CHICAGO, June 5.—The Women's Party, meeting in its first convention, struck its initial snag today when it tried to crowd 2,500 delegates representing a dozen million women into the Blackstone Theater, which has a seating capacity of only 1,800.

Before noon, after half a day of unexpected registration, no one doubted that the three-day convention which is held to impress the Progressive and Republicans with the women voters' power would call for numerous overflow meetings.

Women voters from the eleven "free" states had the first prominence today and will continue to hold first place in the convention tomorrow and the day following.

"Free" women had access to the main floor of the theater. Other women crowded into the balconies and attended the overflow meetings.

Miss Alice Paul, national chairman, opened the meeting at 2 o'clock this afternoon but did not remain long as presiding officer.

The rules of the Women's Party say that the permanent chairman must be selected from one of the eleven states in which women are allowed to vote. Up to the time of the balloting, no one had any idea who the first temporary chairman of the party would be.

The principal business of the afternoon was the naming of committees and reports from the eleven equal suffrage state delegates.

A reception has been planned for this evening.

Speakers at the convention will be: Miss Maud Younger, San Francisco; Mrs. Ida Finney Mackrille, Sacramento; Mrs. William Kent, Kentfield, wife of Representative Kent; Mrs. Sara Bard Field, San Francisco; Mrs. Elizabeth Gerberding, Berkeley; Miss Anne Martin, Reno, Nev.; Mrs. Wallace Wilhams, North Yakima; Miss Alice Louise Reynolds, Provo, Utah; Mrs. Francis Haire, Helena, Mont.; Mrs. William H. Sawtelle, Arizona; Mrs. Lillian H. Kerr, Colorado Springs; Mrs. Dora Phelps Baell, Denver, Colo., and Dr. Caroline Spencer, Colorado Springs.

Trade Journal Commends Barth.

The new resolution of the Victor Barth Clothing Company to have no more clearance sales was commended in the May number of Apparel, a clothiers' magazine published at Chicago. The Barth Clothing Company was mentioned as one of the few stores in Missouri or the entire United States which had the backbone necessary to take to the step. SHIRDLIFF essay to take the step. The movement toward no clearance sales, Apparel says, will give the public more confidence in the trade in general.

HERE'S ADVICE ON CARING FOR BABY IN THE SUMMER

No baby should be weaned without the advice of the family physician, if this can be had. It is better not to wean a baby in the middle of the summer. If possible, babies should be nursed wholly during the summer months, but at any rate in part. Weaning should take two or three weeks. The change should not be made suddenly. Begin by giving a bottle feeding every third or fourth day and increase until all the feedings are from the bottle. This will avoid trouble with the breasts, and the baby will become accustomed to the change of food without injury.

feeding previously, whole milk may be substituted, and a formula of something like the following used: whole milk, 26 ounces; boiled water, 12 ounces and sugar of milk, 4 1-2 tablespoonfuls.

The strength of this mixture may be gradually increased by substituting whole milk for the boiled water at the rate of two ounces each month, until the child is about 13 months old, when the water may be omitted from the formulae. It is usually added in the week. The milk sugar may also be omitted from the formula by degrees at the rate of a tablespoonful a month. One of the best indications for the failure of the food is the failure on the part of the baby to gain weight.

It is best to start weaning through the tenth month, and except for special reasons no child should be nursed longer than one year.

The food formula for a weaning child, especially if it has had no bottle feeding previously, should be the one used for a somewhat younger child, according to Dr. M. P. Ravenel of the department of preventive medicine of the University—for example: cream, 9 ounces; skimmed milk, 27 ounces; boiled water, 12 ounces and milk sugar, 4 1-2 level tablespoonfuls.

Lime water is also used in milk formula. It is usually added in the proportion of one-fifth of the cream and skimmed milk. The lime water should replace an equal amount of boiled water, the milk remaining the same.
