By United Press.

NEWARK, N. J., Sept. 9.—Forty thousand persons thronged the stands and dotted the hills near Weehauk Park this afternoon and watched the most prominent athletes in the country shatter six A. A. U. records in the annual Senior Championship event.

Running against the best hurdlers of the country, Robert I. Simpson, the University of Missouri star, today demonstrated his claim to the title of "world's greatest hurdler" by winning the 120-yard classic in the National A. A. U. Meet held here today. Simpson's time was 14 4-5 seconds, setting a new record for the A. A. U. meets and coming within one-fifth second of his own world's record time of 14 3-5 seconds.

Fred Kelly, former world's champion and star of the far west, gave Simpson a close race, but was not equal to the Missouri boy's pace and finished two yards behind the champion.

Thompson, the Leland Stanford wonder, who has been timed in 14 4-5 on the coast, ran third. Thompson was looked upon as the man who might beat Simpson and his poor showing was a surprise to all. Thompson, known as "the freshman wonder" has beaten everything on the coast this summer.

Murray, who beat Simpson in the A. A. U. meet at San Francisco last year, finished fourth.

Because of the conflicts in the preliminaries of the low hurdles and the finals of the highs, Simpson confined himself to the high event, deciding at the last minute not to compete in the 220-yard distance.

CHRISTIAN TO OPEN WITH LARGE NUMBER

College Has Room For Only 140—More Than 200 Applications Received.

RUN SPECIAL TRAINS

All New Members of Faculty Required to Be University Graduates.

Christian College will open for its sixty-sixth year next Wednesday, Sept. 13, with one of the heaviest registrations in its history. Ten years ago the college reached its dormitory limit in August and established a waiting list. Three years ago it was necessary to lease a residence hall across the street to accommodate the students who came in excess of dormitory facilities. This year the management of the college is arranging to engage a number of rooms near the college for faculty members and officials so that more students may be accommodated.

"Our only problem at Christian College," said President St. Clair-Moss "is the housing of our students. We provide a room for each student and cannot accommodate more than 140 in residence and have applications for nearly 200."

Students are registered from sixteen states—Missouri, Kansas, Oklahoma, Colorado, Texas, New Mexico, Wyoming, Montana, California, Iowa, Illinois, Kentucky, Ohio, Louisiana, Mississippi and Michigan.

Fully eighty-five per cent of the new matriculates are graduates from accredited high schools. President St. Clair-Moss believes that the junior college idea is developing rapidly throughout the Middle West and that an increased number of high school graduates will come to the standardized junior colleges of Missouri from neighboring states.

COME FROM OTHER SCHOOLS

A feature of the junior college plan is the application for entrance by students who have completed the freshman year in a standard college or university. Christian has registered as seniors, students from the University of Missouri, University of Oklahoma, Drake University and Eureka College.

The local railway agents have arranged for special cars for students coming by way of St. Louis, Kansas City and Dallas, Tex.; where college representatives will meet the several parties. At Kansas City, a committee of the local Christian College Alumnae Association will assist the college representatives in looking after the comfort of the college girls. This party will arrive on Thursday, the party from Dallas and the St. Louis party will arrive on Wednesday.

New faculty members in the School of Arts and Science all have the degree of Master of Arts and are from standard colleges and universities.

THE WEATHER

(Report Issued Saturday Morning.) For Columbia and Vicinity: Rain Sunday or Sunday night, cooler.

For Missouri: Partly cloudy probably with showers northwest portion. Fresh winds today.

Weather Conditions.

The changes from sluggish summer to the more brisk autumn condition are more apparent each day; and consequently the relation between the pressure distribution and the weather is more definite. A high pressure wave is this morning giving fine weather over most of the eastern half of the country including the Mississippi Valley; and a well-formed low covers the northwestern states, resulting in increasing cloudiness and windy weather. Another disturbance is in the far southern waters; while a second high, with its accompanying cool weather, is just appearing on the North Pacific coast.

In Columbia the present fine weather will probably change to unsettled and rainy during the latter part of the next thirty-six hours.

On Monday, Tuesday and Wednesday the various buildings over the campus will be crowded with the hundreds of young men and women who will be busy enrolling in the multitude of courses offered. These three days are expected to add hundreds to the numbers that have registered in advance.

The tuition in the University this year will be free to all residents of Missouri. The library, hospital and incidental fees will remain at \$12 a semester despite the rumor that the amount will be raised. Only state cadets and honor graduates of fully accredited high schools, normals and colleges of the Missouri College Union are exempted from this fee.

CHAMP CLARK LAUDS FARM

Says It Is the Greatest Physique-Building Gymnasium in World.

"The farm is the greatest, grandest physique-building gymnasium in all the world," says Champ Clark, speaker of the House of Representatives, which ended its session Friday. "At least nine-tenths of my health today is due to the farm, where I did something of everything—breaking rock, splitting rails, digging post holes, hoeing corn, following the plow in the new-turned earth, swinging the scythe and the cradle—for there were no reapers until I was quite a big lad. "Some of the healthiest and most rugged men in Congress were reared on a farm. And more than that, most of the prominent men in our history have come from the farm, there being, of course, exceptions to this rule.

The best exercise in the world for physical, and therefore mental development is to be found in routine work on a farm. It means the uplift and unkeep of the race." Speaker Clark concluded.

M.U. CADET OFFICERS ORGANIZE NEW CLUB

"The Barracks" Is Name of New Organization—Rents Welch Academy.

32 CHARTER MEMBERS

Purpose Is to Bring University Soldiers Into Closer Working Order.

When school opens at the University on the 18th, perhaps the newest organization that will be found here will be "The Barracks," a club composed of thirty-two officers and non-commissioned officers of the military corps. The new club, through its president, R. S. Ramey of Springfield, Mo. signed, on August 1, a contract with Colonel J. B. Welch for the use during the coming school year of the Welch Military Academy and grounds comprising an area of fourteen acres, and as soon as the charter members of the organization arrive here they will take up their living quarters in the new location.

The movement for the formation of a military club of this kind was launched before the close of school last year. At that time the thirty-two officers and non-commissioned officers in school signed a mutual bond to see the project through. These men will compose the charter members of the organization and, therefore, will not be required to pay membership fees. After the tentative plans had been made for the formation of the new club last year the following officers were elected to serve for one year: R. S. Ramey, Springfield, Mo., president; W. F. Maring, Jr., Carthage, Mo., Secretary and Treasurer; T. M. Cornell, Kansas City, commissary.

EFFICIENT PRIVATES TO BE ADMITTED

According to F. M. Darr, one of the charter members of the club who is acting as temporary president until Ramey returns to school, the organization will have none of the aspects of a fraternity. There will be no ritual or initiatory ceremony with the exception that every new member who is admitted to the club after the beginning of school, other than the charter members, will be charged a nominal entrance fee. The organization, also, will not be confined solely to officers. Those privates whose work in military the commanding officers think should merit their future promotion will be considered as members and by a two-thirds vote of the organization will be admitted.

The members of "The Barracks" will have the use of thirty-two rooms on the second floor of their new location. A suite of three rooms on the first floor will be occupied by Sergeant and Mrs. A. D. Thompson of the University Military faculty, who will act as chaperons. The remaining rooms on this floor will be converted into a lounging room, dining room, library, kitchen and office for the secretary-treasurer of the club. In the basement will be the wash rooms, bath rooms, service quarters, store rooms, and smoking rooms. The entire space on the second floor of the building will be occupied by the roomers. The attic will be used entirely for storage purposes.

When asked this morning what the underlying purpose of the new organization was, acting President Darr said:

"The primary purpose of this club is to take another step in bringing the officers and men of the military corps into a closer working order so that more real efficiency can be had in military training. We believe that by the men living together where they can discuss in common military topics, we have done a great deal to get them working together with more harmony."
