By United Press.

EL PASO, Tex., Sept. 9.—"I'll shout 'Grito' in Chihuahua City on the eve of Mexican Independence Day, September 16," is the threat Pancho Villa is making to natives along the line of his northward march, according to a Mexican rancher arriving here today.

The rancher declared Villa had 1,500 men with him, all fully armed and well provisioned.

ALLIES ON OFFENSIVE ON VERDUN FRONT

Germans Are Pushed Back at All Points After 201 Days of Battle.

TURKS HELP TEUTONS

Stop Russian Advance for Second Time Since Lemberg Advance Started.

By United Press.

WITH THE FRENCH ARMY AT VERDUN, Sept. 9.—The Germans are now entirely on the defensive at Verdun.

The great battle begun 201 days ago has now entered its third and final stage. The French are steadily winning back their lost positions. The battle gradually will die out, like an extinct volcano.

It has been learned definitely tonight that the Germans were forced to remove huge quantities of artillery and men from Verdun to the Somme front recently, to meet the new Anglo-French offensive. This had an immediate effect upon the morale of the remaining men.

In February they had been told they were to capture Verdun. At the end of June they were told it would be sufficient simply to dominate the situation there. But when they had been reduced in numbers to merely a defensive garrison, after nearly seven months of fighting, their morale was so shattered that groups of prisoners have been surrendering daily. The seventh and last great German massed attack was made on both banks of the Meuse on July 10. The French checked this blow immediately and took the offensive.

Ever since that time they have retained the initiative, capturing in their operations more than 10,000 prisoners, scores of cannon and hundreds of machine guns.

LONDON, Sept. 9.—Turkish troops have come to the rescue of the hard-pressed Germans in Galicia and have checked the Russian advance on the fortified city of Halitz.

This is the second time since the Russians began closing in about Lemberg that the advance on the Galician capital was stopped by the Turks. Several weeks ago Turkish re-inforcements halted a drive on Lemberg from the East.
