It would be easy to say who are the twenty-three most popular men in Columbia these days. Without doubt they are the members of Company F who have just returned from the border, and are being petted and feted as becomes their importance. They are monopolized everywhere they go and find ever-ready listeners to their tales of war and waiting. Plans are in progress for the reception to be given by all Columbia for the company Tuesday night at the Missouri Union Building. A musical program is being arranged and talks will be given. The reception will be informal so that everyone may be able to talk to the boys.
