

THE DAILY MISSOURIAN

NINTH YEAR

COLUMBIA, MISSOURI, FRIDAY EVENING, SEPTEMBER 14, 1917.

NUMBER 319

POST NAMES OF MEN IN NEXT DRAFT CALL

Columbia Draft Board Issued Orders to 62 Men This Afternoon.

TO REPORT SEPT. 20

No Negroes Will Be in Second Increment to Leave Here.

The local draft board started today to prepare the list of the sixty-two men, excluding negroes, who will leave Columbia September 21 for Camp Funston as the second increment from Boone County for the national army. A telegram from Adjutant General McCord was received this morning verifying the tentative instructions received here Wednesday.

The men who will compose this second increment will not be named as they are liable for service, Sheriff Whitesides explained this morning. The board has received ten or twelve letters from farmers who are in the first draft who ask that they be exempted until they have gathered their crops. These men will be exempted until the second draft.

No Arrangement Yet For Negroes.

When it was pointed out that this was against the regulations for the local board to exempt men on occupational grounds, as this was entirely in the hands of the district board at Joplin, Sheriff Whitesides said that he had talked the problem over with the members of the board there and that they had advised him to make the exemptions.

Negroes will not be included in this list as they will be held until arrangements can be made for a special camp. These two facts mean that a number of men who would have been in later increments will be sent with the second allotment.

More Appeals Are Filed.

A carbon copy of a letter sent by the district board to the adjutant general was received here this morning requesting that the name of Dorsey Glenn be taken from the certified list as ready for service, as Glenn was discharged by the board on the grounds of dependents. Glenn had asked the district board to discharge him on occupational grounds as a farmer before he had filed claim with the local board on the grounds of dependents. The occupational claim was denied.

Two notices of appeals to the district board from the action of the local board were filed today. The claims were by Silas W. Moss of 311 Thilly avenue, Columbia, and Leroy C. McLewis of Hallsville.

The board has written a letter to Post Wheeler, American charge d'affaires at Tokio, requesting him to appoint two physicians to give Frank King the physical examination.

The names of the sixty-two follow:

- Ellis Edward Robert
- Oliver R. Brunton
- Julius Schatz
- Charles Marcus Fox
- John Barclay Smith
- Chester James Pollock
- Seth Raymond Whitfield
- William E. McDonnell
- Cecil Fuller Crane
- Carl William Arnold
- Paul Chinn Elliott
- William Leroy Cook
- Wallace P. Gibbs
- John Cleveland Ridgeway
- Turner Franklin Hawkins
- Francis Grady Hale
- Floyd Pearman
- Mayfield Kreutz
- Hiram Boyce
- Charles Sewell Harrell
- Arthur Cecil Fay
- John N. Taylor, Jr.
- Ora Washington Adkins
- William H. Bennett
- Albert William Meyer
- Winfred Alvin Turner
- James Swanstone, Jr.
- Lazelle Seymour Shockley
- Roy Riggs Easley
- Frank Yoder
- Jess Albert Hamilton
- Leslie C. Valentine
- Henry F. Menke
- Warren Herron
- Eugene Sullens
- Brice Edwards, Jr.
- Millard White
- Grover Stanley Owens
- John W. Bryant
- Millard Sexton
- Freddy W. Mustain
- Walter W. Enochs
- William Edward Railton

Louie James Williams
Edwin F. Hudson
Ernest H. Stewart
Buford Easley
Ansel Brown
Curtis Jennings
Charles A. Sprague
Charles Cecil Ronimus

Durwood Long Sapp
Claud Fray
Marshall H. Brigham
Grover Cleveland Kidwell
James Hill
Roy Ray Green
Truly Level
Raymond R. Palmer
William E. Rice
Frank Leslie Barton
William Henry Perkins

DRAFT FRAUD IS UNCOVERED.

St Joseph and Buchanan County Officials Are Implicated.

By Associated Press

KANSAS CITY, Sept. 14.—Fraud under the selective draft law which is said to involve a dozen officials in St. Joseph and Buchanan counties have been uncovered, Francis Wilson, United States district attorney, announced today. A large number of exemptions for physical disability led to the sending of secret service officials to St. Joseph County.

One man who wished to escape the draft is reported to have confessed that it cost him \$250 for his release. The man was said to be fit for service in every way. Other disclosures led operatives to county offices where it is reported they found \$800 which secret service men believe was obtained by the same means.

NEED AGRICULTURE TEACHERS

Many Offers of Positions Come to Dean F. B. Mumford.

"Can you recommend three young men for teachers in agriculture in the state of Vermont. Salary \$1,100." This is a copy of a telegram received recently by F. B. Mumford, dean of the University of Missouri College of Agriculture. It is a sample of letters and telegrams which he receives daily. The demand for Missouri men trained at Missouri's College of Agriculture is growing.

Every day the requests for men trained in some branch of agriculture are received by Dean Mumford. Sometimes one man is wanted and sometimes several men are wanted. The demand for men and women trained in agriculture is considerably larger than the supply. Hundreds of men and women have obtained positions thru these requests. Even the lowest salaries are usually higher than those paid to beginners in other professions. Frequently graduates of the College of Agriculture receive from \$1,200 to \$1,800 a year in the beginning.

New positions for agricultural workers are opening continuously. The demand for teachers in agricultural schools and high schools is strong. The commercial field is requiring more and more technically trained agricultural workers and various branches of state and government activity are requiring men and women who have received agricultural training.

Men and women who have had farm experience and who have also received technical training from an agricultural school have unusual opportunities for good positions. Graduates of the Missouri College of Agriculture are in special demand.

WATERMELONS AT THE Y. M. C. A.

Freshmen Will Enjoy a Feast There Tomorrow Night.

A "watermelon feast" to welcome new students to the University will be given in the lobby of the Y. M. C. A. Building tomorrow evening. Coach H. F. Schulte will give a brief talk on the prospects for the 1917 Tiger football team.

Tonight the Y. M. C. A. will have a reception for all students in the University who come from foreign lands. Ben Yapp, of Honolulu, Hawaii, will give a short ukulele program.

All freshmen in the University are invited to tomorrow night's meeting and all foreign students tonight.

CODY REED HELD FOR TRIAL

Girl Charged With Robbery Bound Over to Circuit Court.

Cody Reed, charged with robbing the Fenton Restaurant on North Eighth street on the night of September 3, was bound over to the Circuit Court on \$500 bond in Judge John S. Bicknell's court this afternoon. Miss Reed was defended by J. L. Stephens in her preliminary trial. She did not give bond.

RUSSIA RECOVERING FROM REVOLUTION

Government Takes Steps to Restore Economic and Social Stability.

PETROGRAD IS CALM

Surrender of Korniloff Is Still Awaited—Fate of General at Issue.

By Associated Press

PETROGRAD, Sept. 13. (delayed).—Although the revolution can not be considered finally ended until after the announcement that General Korniloff has actually surrendered, the capital and country already show signs of recovering their composure and are adopting a new process of reconstruction.

The provisional government is taking necessary measures to restore the interrupted economic and social life. Although the fundamental difficulties which inspired General Korniloff's rebellion still remain, hopes are expressed that the cabinet, which is now under reconstruction, in the future will show greater vigor and decision.

Petrograd has entirely recovered its calm, a remarkable effect of the suppression of the revolution being that the rush of civilians from the capital caused by the fall of the Baltic seaport of Riga has ceased and the railway stations have recovered their normal appearance.

Korniloff's Fate In Doubt.

By Associated Press

WASHINGTON, Sept. 14.—General Korniloff's punishment seems one of the points concerned in the formation of the new Russian cabinet. Unofficial reports today indicated that Premier Kerensky was determined to inflict a heavy penalty upon the revolting general as a warning against future uprisings, but certain elements of the Constitutional Democrats, and even many leaders of the Council of Workmen and Soldiers' Delegates, Kerensky's closest political friends, advocate leniency.

It is considered probable that one early move of the new government may be to abolish the Duma, which has given some evidence of favoring a return to the monarchy and opposing any democratic reforms.

Korniloff General Tries Suicide.

By Associated Press

PETROGRAD, Sept. 13. (delayed).—After being received by Premier Kerensky at the Winter Palace and being informed of the fate which awaited him, General Korniloff, commander of the Korniloff troops sent against Petrograd, returned to his lodging place tonight and shot himself. The general's wounds are not fatal.

OFFICIAL INQUIRY BY SWEDEN

Minister of Justice to Find Out About Argentina Affair.

By Associated Press

LONDON, Sept. 14.—An official statement by the Swedish government, telegraphed to the correspondent of the Central News Agency at Stockholm, announces that O. A. H. Ewerloef, secretary of the Swedish ministry of foreign affairs, has been given a leave of absence from the foreign office and has placed himself at the disposal of the minister of justice with the object of assisting in the special investigation in connection with the Swedish-Argentinian revelations.

33 MORE I. W. W. ARRESTED

Douglas, Ariz., Police Hold Those from Columbus Camp.

By Associated Press

DOUGLAS, Ariz., Sept. 14.—Thirty-three men from the Columbus, N. M., camp of men deported from Bisbee, Ariz., last July were arrested here today by the deputy sheriff when they arrived here on their way to Bisbee. The arrests were made at the request of Sheriff Wheeler of Bisbee. This brings the total of I. W. W. arrests yesterday and today to seventy-three.

GUARD THE GERMAN SHIPS

Uruguay Hears of Plans to Sink the Vessels.

By Associated Press

MONTEVIDEO, Uruguay, Sept. 14.—Uruguay marines today boarded all the German ships in the harbor here, the government having heard of plans to sink the vessels.

U. S. TO USE LOCAL MAN'S OIL EXPLOSIVE

Bomb Invented by Dr. Davidson Has Been Accepted for War Use.

HURLS BURNING OIL

Inventor Says New Instrument Is Now Being Used by Italians.

By Associated Press

Dr. C. O. Davidson, who has offices in the Miller Building, has designed an aerial oil bomb which will throw burning oil for more than a quarter of a mile and has had it accepted by the United States Government. Doctor Davidson says that this bomb is now being used by the Italians against the Austrians at Trieste.

Doctor Davidson has a model of this bomb in his office and today explained how it works and why it is superior to anything that the Germans have in this line. One bomb, he says will do as much destruction as 10,000 men in the trenches. The bomb is made of galvanized iron of two cones, one long and one short, put end to end. On the sides are four "fins" made of turbine shape to make it fall in a straight line when dropped from a balloon or airplane.

The bomb is filled with gasoline and crude oil, the oil being heavier goes to the bottom. In the center of the short cone is a hole for the cartridge, which is set off when the bomb hits the ground. The impact causes the gasoline to come to the bottom of the bomb where it is ignited by the cartridge, the bomb explodes and the burning oil is thrown in all directions.

Must Keep Explosives Secret.

The composition of the explosives are a secret and Dr. Davidson has had instructions from Washington to see that no one learns them.

When war was declared Doctor Davidson devoted his attention to the making of the oil bomb, having read in the Scientific American that the efforts of the Germans had met with no success. That was seven months ago. He read of what other inventors were attempting and decided that the Germans were using chemicals of too great explosive power. He found an old coffee pot and began experimenting. The Germans were using gas bombs but explosives carried the gas through the air so rapidly that the flames were extinguished. His invention with its modified chemicals carries the oil through the air and when it strikes, becomes a mass of flames.

It was originally intended that the bombs should be dropped from airplanes and balloons and devices were made for releasing them by time fuses and levers. Recently the doctor invented a casing for the bombs so that they can be fired from trench mortars.

Doctor Davidson has letters from Howard E. Coffin, who is in charge of the air craft production board of the National Council of Defense, other members of the defense council, Champ Clark, Senators William J. Stone and James Reed and many other Washington officials in regard to his invention. He was notified that his invention had been accepted through Champ Clark.

One Bomb Costs \$18.

The bombs that are used by the Government will contain 60, 80, 10 and 5 gallons of oil and gasoline. A 60-gallon bomb costs \$11 while the dry bomb of about the same size which does not do the same amount of destruction cost \$18 and the ordinary hand grenade costs \$9.

The advantages of the oil bomb over the dry bomb is that a person can be within twenty feet of a dry bomb explosion and not be hurt as the shrapnel is thrown upwards. When the oil bomb strikes the ground and explodes it throws oil in all directions, and sets aflame anything that the oil strikes. The turbine shaped fins cause the bomb to whirl thus throwing the oil like a pin wheel throws sparks.

The oil bomb is not Doctor Davidson's first invention. When a young man he patented a nose and throat atomizer. In 1881 he designed a potato digger and a fruit picker, both of which he sold to a manufacturer. In 1887 he invented a tire tightener for vehicle wheels which are now sold all over the United States. In 1891 he invented two surface cattle guards. In 1894 he patented a device for dehorning cattle, which is still extensively used and in 1905 he invented a port-

THE WEATHER

For Columbia and Vicinity: Generally fair and warmer tonight, becoming unsettled Saturday.

For Missouri: Partly cloudy tonight, warmer south and east central portions, Saturday unsettled.

Weather Conditions.

The tropical storm apparently is moving northward and entering the Gulf of Mexico. Rain continues in Alabama, Georgia, Florida, and South Carolina.

Light showers fell during the past 24 hours from northwestern Texas northward over Colorado, Wyoming, Montana, Washington, and Oregon. There also was a light fall of rain in Michigan. Fair and warm weather has prevailed in the middle western grain states and western cotton region.

In Columbia mild weather will continue for the next 36 hours, becoming more or less unsettled during the latter half.

Local Data.

The highest temperature in Columbia yesterday was 80 degrees and the lowest last night was 64; precipitation 0.00; relative humidity 2 p. m. yesterday 69 per cent. A year ago yesterday the highest temperature was 73 and the lowest 53; precipitation 0.00 inch.

The Almanac.

Sun rises today, 5:49 a. m. Sun sets 7:29 p. m.

Moon rises 4:10 a. m.

The Temperatures of Today.

7 a. m.	65	11 a. m.	78
8 a. m.	67	12 m.	79
9 a. m.	71	1 p. m.	81
10 a. m.	76	2 p. m.	81

able headrest for physicians' and dentists' chairs.

Dr. Davidson said that he had not yet decided what he would next invent as he wanted to do his bit in helping end the war by inventing an instrument of destruction which would make the Germans quit.

AGRICULTURE BOARD IS MOVING

Jewell Mayes Expects to Open Offices in Capital Next Week.

The removal of the State Board of Agriculture from Columbia to Jefferson City began today. Workmen were busy at the office of Jewell Mayes, secretary of the board, in the Agriculture Building, all day, crating office furniture and preparing files, bulletins and mimeograph machines for shipment.

Secretary Mayes said late this afternoon that he was practically certain that the first car load of office furniture would go out tomorrow afternoon, and the second one would probably go the first of the week. "We hope to be ready to continue our work in Jefferson City just as soon as possible, perhaps by next week," said Secretary Mayes.

The removal of the board to Jefferson City comes as a result of Governor Gardner's idea of having all the state offices located in the new state capitol building.

"SHOULD SERVE CORNBREAD"

L. H. R. Makes a Suggestion for Boone Tavern Menu.

Editor Daily Missourian:

As a friend, patron and well-wisher of the new Daniel Boone Tavern, I want to suggest an addition to its excellent bill of fare. Corn bread and buttermilk should be served every day. These items would appeal to a vast majority of the hotel's patrons and not add greatly to the cost of the meal, being among the least expensive foods. True, this hunch may not meet approval of the "high brows," but I am sure it will start applause in the gallery.

The very idea of a "Daniel Boone Tavern" not serving corn bread is incongruous. Missouri has the corn, Columbia has the cooks and the public will supply the consumers.

Delicious muffins, hot bread cut in squares, or corn cakes, on the menu will do more to popularize the new hotel than all the fancy dishes that can be devised.

FAMINE IN SPRINGFIELD, ILL.

Strike Has Paralyzed Business and Closed Stores.

By Associated Press

SPRINGFIELD, ILL., Sept. 14.—What amounts to a food famine in some sections of this city, where grocery stores are closed and many lines of industry are paralyzed, has resulted from a strike of 8,000 men and women of almost all trades. Governor Lowden said nothing definite toward a settlement of the trouble had been accomplished.

EPISCOPALIAN AID TO EUROPE

Prelates of Church to Send \$500,000 to Their Churchmen in Trenches.

By Associated Press

WASHINGTON, Sept. 14.—Prelates of the Protestant Episcopal Church, gathered here today to organize a war commission, decided to raise \$500,000 and send a bishop to Europe at once to look after Episcopalians in the trenches and camps.

ITALIANS OCCUPY SAN GABRIELE TOP AFTER LONG FIGHT

Fortified Hill of Dol and Gargaro Basin Also Taken, Embassy at Washington Learns Today.

GREATEST GAIN MADE THUS FAR

Positions Taken at Heavy Loss to Victors—Other Vantage Points of Austrians Are Threatened.

By Associated Press

WASHINGTON, Sept. 14.—Italian troops have taken from the Austro-Hungarians the fortified hill of Dol and the Gargaro Basin and now occupy the slope and top of Monte San Gabriele after severe fighting.

The Italian embassy, in announcing the capture, said that it is the greatest victory gained by the Italian forces since their entrance into the war.

The capture of all Austro-Hungarian positions on Monte San Gabriele is expected to be a matter of hours. Fighting near the forests of Tarnovo was very severe, as the Austrians had assembled enormous amounts of artillery. Positions were taken by infantry attacks with heavy losses by the Italians.

The battle has been raging for twenty days. Last week the Austrians shifted from the defensive to the offensive, using masses of their best troops. The loss of San Gabriele will mean for the Austrians, the embassy said, the loss of all vantage points against the Girizja plains and the Frigido valley.

RECENT SALES TOTAL \$32,664

Real Estate in City and Boone County Changes Hands.

Real estate transfers in Columbia and Boone County for the last seven days total \$32,664, according to deeds filed with John L. Henry, recorder. The largest single transfer was a 100-acre farm, four miles southeast of Sturgeon, valued at \$8,000, sold to Perry Redd by Harrison M. Cox. The deed was filed yesterday.

The largest transfer in Columbia was the \$7,000 sale of lots 9 and 10, in Conley's subdivision. Charles Sheekelsworth sold a lot on First street at Spencer to A. J. Arnold for \$500.

May T. Woods bought 83 acres of land for \$4,000 from John W. Keistler. This farm is in the northwestern part of the county. H. A. La Rue sold his home on Rosemary lane to Elias J. Durand for \$5,000.

Sixty acres of land, five miles south of Ashland, were sold to Mary E. Davis by W. A. Rybolt for \$1,400. D. W. Wilhite sold a lot at Ash street and Garth avenue to William M. Harvey for \$300.

PAY FOR PRESS AID, NEVER!

Government Buys from Everybody Except the Newspapers.

By Associated Press

WASHINGTON, Sept. 14.—Secretary McAdoo's statement to the Senate Finance Committee on the War Credits Bill indicated that a paid newspaper advertising campaign for the next issue of Liberty Loan bonds, advocated by publishers' associations, will not be adopted.

Limited newspaper advertising at the most is probable, Secretary McAdoo stated. "It may be necessary to use some advertising," he said, "but I do not know whether it will be in newspapers or in some other form."

MRS. D. B. SWEETZER TO ASYLUM

Court Orders Columbia Woman Sent to Fulton.

Mrs. D. B. Sweetzer, about 50 years old, who lives two miles east of Columbia, was adjudged insane by the Boone County Court and was ordered to be taken to the state asylum at Fulton after she had been taken in custody by the police near the Columbia High School where she was creating a disturbance. Sheriff Whitesides took her to Fulton this afternoon.

According to the police, Mrs. Sweetzer's mind has been affected for some time. Recently her 9-year-old daughter was taken from her. Mrs. Sweetzer was crying for her daughter when she was found by the police.
