

## ASK ALL UNIVERSITY GIRLS TO JOIN S. G. A.

Miss Johnston Says Organization Is Important Part In School Life.

DUES ARE NOT LARGE

Twenty-Five Cents Charged Is Returned in Friendships, It Is Said.

"Young ladies, one quarter you cannot afford to keep is the quarter for S. G. A. dues."

Miss Eva Johnston, adviser of women of the University, counseled the new women students yesterday afternoon at the women's mass meeting to take an active part in University associations. In addition to the Student Government Association, she mentioned the Young Women's Christian Association, the Women's Athletic Association and the Missouri Union. "Your purpose is to study, of course, but you should by no means neglect those means of developing fellowship and friendship—the fellowship and friendship which will mean so much to you after your school years are over," Miss Johnston said. "Be good students, but be wide-awake also."

As a means of becoming interested in the various student activities and to promote acquaintanceship among the new students and the former students, the Student Government Association will give a mixer next Friday afternoon from 4:15 to 5:30 in the women's parlors on the second floor of Academic Hall.

Miss Mary McDaniel, president of S. G. A., welcomed the freshman women as part of the organization. A quartet composed of Miss Ira Lightner, Miss Clara Pennington, Miss Beulah Poole and Miss Selma Gensch, with Miss Alberta Thornberg at the piano, led the singing. Miss Myrtle Stosberg spoke of the standards of S. G. A. and what it meant to the women of the University. "Self government should be appreciated, as all schools do not grant this privilege to their women students."

Miss Hazel Hoffmann, president of the Young Women's Christian Association, invited all freshmen to become members of the association. She showed that the Y. W. C. A. has four aims for service, social, religious, practical and social service. This year the Y. W. C. A. has planned to help the Red Cross.

Miss Ruby Cline represented the Women's Athletic Association, and urged all freshmen to join and come out for athletic. Miss Irma Locke of the membership committee of the Union, spoke of the value of belonging to this organization. "It is a matter of loyalty to your school, and we want to show them that we are loyal." The Women's Council was represented by Miss Mary McKibbin.

Miss Johnston has offered to teach any one who wishes to learn to knit for the Red Cross. Other Red Cross work is being planned. The pageant which was given in the summer is to be repeated for the benefit of the Red Cross. It is to be under the direction of Miss Ella V. Dobbs.

### EAST INDIANS TO EMIGRATE

British Plan to Furnish Labor in the Western Colonies.

(Correspondence of the Associated Press) LONDON, Sept. 17.—The plan for encouraging the emigration of native laborers from India to British Guiana, Trinidad, Jamaica and Fiji, announced by the British government, is expected to result in the permanent settlement of many thousand East Indians in each of these four colonies, three of which are close enough to the Atlantic seaboard of the United States to make the project of neighborly interest to the American people.

The object is to provide a fair substitute for the abolished system of indentured or contract East Indian labor. In some countries to which Indians used to go under the indenture system, their coming led to serious trouble. They were white communities, which wanted the labor of the East Indian, but did not want him as a settler.

It is claimed that there was and is no question of that kind in the case of the four Crown colonies selected as areas for the new settlement scheme. They each possess already large and prosperous Indian communities. Their industry is tropical and depends on Asiatic labor, which they have been accustomed to obtain from India without any sense of grievance on either side.

Laborers who enlist under the new plan will serve a probationary period of three years' employment in their new homeland before being invited to become landholders. During this probationary period of employment under government supervision, they will be trained and fitted for the new conditions of life, at the same time affording the colony the benefit of their labor.

On first arrival the immigrant will work for six months under selected employers. He will then be free to move from one employer to another at a month's notice, being encouraged to work for the ensuing two and a half years in agricultural industries by the offer of numerous benefits subsequently as a colonist. At no time will he be under any indenture of contract, the relation between him and his employer being exactly the same

as that prevailing in the colony between any employer and employee.

As soon as the worker has completed three years' employment, he will have the choice of returning to India or becoming a permanent settler. If he chooses the latter, land will be put at his disposal by the colonial government. The emigration from India of whole families will be encouraged as far as possible, particularly of families containing young unmarried girls who may become in the colonies the wives of other immigrants.
