A farewell will be given to the drafted men by the Commercial Club and the Missouri Union at the Missouri Union Building tomorrow night. The Commercial Club will give a pipe and tobacco to each man. Ice cream will be served by the Union.

Forty-five drafted men were ordered to report at the Courthouse at 9 o'clock tomorrow morning for departure to Camp Funston. Only forty of these will be sent, however, since five were called as alternates to go in case some of the others failed to report. The men will leave for the camp Friday morning.

Seventeen men who appealed to the district exemption board for exemption after their claims had not been allowed by the local board were exempted from military service. They are: Hugh Wisley, John W. Cole, T. H. Brockway, S. E. Barnes, L. R. Fuller, W. T. Darnell, L. E. Carpenter, R. E. Wilhite, R. E. Goldsberry, Silas W. Canada, C. O. Koeppen, M. T. Watson, E. D. Mize, C. A. Kemper, J. W. The county board was notified by the Adjutant General of Missouri to send forty men to Camp Funston in this quota. Had Boone County been required to send sixty-two, as in the last quota, it would have been unable to get enough white men without calling more for examination. This was caused by several negroes having been on the list, all of whom have to be held here until the government has made provisions for them.

After Friday, Boone County will have 116 men at Camp Funston.

MUST SLOW UP AT SCHOOLS

City Will Put Up Signs Warning Motorists.

At the request of J. E. McPherson, superintendent of city schools, the City Council will place signs near the public school buildings warning motorists to drive slowly. Mr. McPherson also requested the City Council at its session on last night to cover Flat Branch in the vicinity of the Fred Douglass School. Negro patrons of the school also visited the council and urged that the improvement be made. It was stated that a part of the expense would be borne by the negroes.

While some of the councilmen said that the condition of the city's finances might make it necessary to wait until January to do the work they said that it should be done. The matter was referred to the street committee and it is possible that money will be found to do the work sooner. Routine business transacted included:

Appropriations: Water and light fund, \$2,314.81; security fund, \$100; Conley poor fund, \$47.44.

Condemnation of the sidewalk on South Ninth street from the Hall Theater to the Missouri Union, referred to the street committee.

CHRISTIAN CHURCHES OF COUNTY PROSPER

Reports at Dripping Springs Convention Show Big Gains in Work.

\$3,355 TO MISSIONS

277 Additions Secured During Year—Total Membership Is 3,000.

Reports from the Boone County Christian Church convention, held at Dripping Springs Monday and Tuesday, show increasing prosperity in the Boone County churches during the last year, especially in missionary work, and in the improved plans for the Sunday School, and young peoples' societies.

The total missionary contributions for the last year were \$3,355, a gain of \$500 over the year before. This amount does not include more than \$2,000 given through the churches to Red Cross work. Two years ago the plan was adopted of having a county superintendent, and since that time the missionary offerings have increased more than one-half. This plan has been the means of adopting young peoples' societies also. Four churches now have these societies, whereas two years ago there were none.

Churches Add 277 Members.

Reports also show 277 additions to the 15 churches in the county for the past year and a loss of 137, or an actual gain of 140. All of the churches in the county are active except one. There are 2,100 members of the Sunday Schools. Ten of the Sunday Schools are graded, whereas only 4 were graded two years ago.

There are 7 women's missionary societies which raised about one-third of all the missionary money in the past year. The total membership of all the churches is 3,000. One thousand of these were reported in Columbia, and 500 in Centralia.

New Officers Elected.

New officers elected for the year are as follows: President, M. A. Hart; vice-president, P. U. Allen; secretary, J. H. Reed; treasurer, J. H. Peake.

Gibbs spoke in behalf of the Sunday School. At the afternoon women's session, Mrs. E. S. Priest of Centralia, and Mrs. St. Clair-Moss of Christian College gave talks. Prof. Carl Taylor spoke Monday night, and Dean G. D. Edwards last night. The convention was well attended.

U. S. TO LEAD WORLD IN ITS DESTROYERS

Progress on Immense Flotilla to Fight U-Boats Exceeds All Hopes.

READY NEXT YEAR

Boats Now Building to Be in Service Next Spring—Are of New Design.

By Associated Press

WASHINGTON, Oct. 3.—Such remarkable progress has been made in the quick building of the immense flotilla of American destroyers to cope with the submarine campaign that the Navy Department now is assured of much quicker delivery of the ships than was contemplated at the last estimate, which in itself, was far ahead of the original time.

Progress on the ships now building and arrangements for others to build, it was said today at the Navy Department, was such that the American navy will lead the world with its destroyers within eighteen months. It is declared certain that the destroyers now building will be delivered, ready for duty in European waters early next year. Many of them had not been expected until the winter of 1918. Approximately ten months have been saved.

The full success of the project, however, depends on the executive powers granted to the President in the bill now pending. The administrative measure was altered in the House. The Senate Committee reconsidered the provision naval officers considered vital to the success, and it is now in conference.

All new destroyers are of a new design and showing radical changes from any of those now floated. The great majority of them will be thirty-five knot vessels of sea-keeping qualities, adding to their effectiveness as submarine hunters. The first of the new type has been tried out with good results.

The rate of warship production in the United States has been increased to such a point that a greater amount of fighting tonnage is being produced than has ever been achieved by any power in the same length of time.

Most of them are in the artillery corps, of which he is a member. For the last week, Payne writes, they have been cannon dragging and shoeing mules in the heat of an almost unbearable sun.

For old time's sake, according to him, the Missouri men are going to have a banquet pay day of this week, to which they all are looking forward. Many of the men say they will return for the Kansas game if granted furloughs. Mr. Payne is a member of the Kappa Alpha fraternity.

NEW YORK, Oct. 3.—"We shall bomb Germany with compound interest," Premier Lloyd George is quoted in the London Press as saying to a London crowd in promising it that Great Britain would soon launch reprisals for the many German air raids on England. The French reprisals already begun continued last night. French airmen dropped bombs on Baden some fifty-five miles beyond the French lines. More than seventy-five bombs were also dropped on various military depots in German held territory.

200 ROAD WORKERS EXPECTED

Luncheon Will Be Held at Boone Tavern Saturday.

The Commercial Club will not hold its regular noonday luncheon tomorrow because of the luncheon that will be held at the Boone Tavern Saturday for the delegates who are here to attend the annual meeting of the Missouri Old Trails Association. About 200 delegates are expected. The delegates have been appointed by the mayors, the commercial clubs and the county courts along the highway.

Indications point to an adequate representation from Kansas City at the meeting to be held next Saturday at Columbia, to discuss methods of completing the hard surface road from Kansas City to St. Louis. Mayor Edwards has appointed F. F. Rozelle, Dell D. Dutton, Robert C. Greenlease, Edwin Camack, F. L. Williamson, A. L. Cooper and J. M. Lowe as delegates, while the Chamber of Commerce of Kansas City, Kan., will be well represented.

The first state road camp in Missouri, using honor men from the state prison, was established this week at Mineola, Montgomery County.

Governor Frederick D. Gardner, both in his inaugural address and his first message to the Forty-ninth General Assembly, urged the use of state prisoners in the construction of better roads throughout Missouri. Montgomery County was the first county to make formal application to the State Highway Department and the State Prison Board for the use of prison labor in road work. The Mineola special road district had voted bonds to pay one-half the cost of constructing the eight-mile link of the National Old Trails road within the district, and finding it impossible to secure local labor, induced the county court to make formal application for thirty men from the state prison to assist in the work of construction. Twenty-five of these men are employed on the road, and five of them are detailed for cooking, laundry work, and other duties about the camp.

The road district pays the State Prison Board \$1.25 per day for each man actually engaged in road work, and the State Highway Department will reimburse the district for one-half this amount as the work progresses. The per diem paid for the men actually employed on the roads covers the expense of housing, boarding, and transporting the entire camp, and also includes the salary of a foreman supplied by the prison board, the services of the men required to maintain the camp, as cooks, etc.

Warden Gilvin, of the state prison, reports 500 men now available for road work, and all counties desiring to obtain their services must make formal application to the State Highway Department and State Prison Board through their county courts. The men will be furnished upon the same terms as those supplied to the Mineola road district.

The honor system is used exclusively in working the men at Mineola. They work without guards and are not clothed in stripes. The camp is sanitary and attractive, and is lighted by electricity from a small individual plant. Bathing facilities are supplied, and a camp barber calls "next" as the men line up for their twice-a-week shave. The food is plentiful and wholesome, much of it being obtained locally. Newspapers and magazines are provided, and the entire surroundings made as attractive and agreeable as possible.
