National Advertising Representatives: Carpenter-Scheerer Co., Fifth Avenue Building New York; Peoples Gas Building, Chicago.

DEDICATING THE TAVERN

On Saturday night, October 13, Columbia's new hotel, the Daniel Boone Tavern, will be officially dedicated to the service and convenience of the public. An artistic and imposing structure, within and without, such as the Boone Tavern is, deserves a special consideration by the townspeople on the advent of its formal opening.

Reflecting credit upon the city in numerous ways, the Tavern can fittingly receive the commendation of representative citizens who take pride in the development and progress of Columbia. In no city of the state or of surrounding states within the size of Columbia will be found a more praiseworthy inn or one which even equals the Daniel Boone Tavern in its many appointments.

Let the spirit of civic pride—community welfare—manifest itself Saturday night in an "overflow" attendance at the opening celebration.

STEADY THERE!

In times of war radicalism is an essential element of administrative leadership. Conservatism does not win battles, nor does it properly equip the army of its constituency to win battles. We must be guided by radicals, not only in the administrative offices of our government and army, but in the various branches of civilian life which aid directly the military organization.

But there is a current opinion that the radical element must be a fanatic of some variety. The expression, radicalism, connotes fanaticism to the average person. He is naturally suspicious of anything branded radical as a result. This interpretation of the term radical is quite wrong. The radical is not necessarily irrational, as the fanatic is most likely to be. In fact, radicalism should follow closely behind rationalism. In other words, the vigorous and intelligent thinking man is more apt to discover the truths of radicalism than the man who acts upon emotions or impulses.

What we need to win this war is rationalized radicalism. Keep the boat steady, but plunge ahead, to put it figuratively. We want aggressive leadership, but we want it backed by brains. Let's put aside emotions and fanaticism until after the war. Let's all pull together and yell "Steady there" to the fellows in the back of the boat who can't keep still.

"Do your Christmas mailing early," warns the Postoffice Department. This applies to packages intended for the "Sammies" in France. All gifts intended for soldiers overseas must be mailed by November 15. There is just about a month left to plan Christmas surprises for the boys abroad.

Eleven suffragists arrested in front of the White House recently are referred to as "Silent Sentinels" by some newspaper correspondent. Truly the days of the old-time woman are passing.

It would be a hard task indeed for a city engineer to explain the necessity for making a gulch wherever one paved street runs into another.

Many a parent whose son was never permitted to smoke at home gladly sends tobacco to him in France now.

The new postal rate prompts a person to consider whether some of his correspondents are worth 3 cents.

A THEFT OF LIGHT BULBS

H. O. Severance Says Library Has Lost Many This Year.

H. O. Severance, University librarian, is thinking of discontinuing the use of desk lights in the library on account of the breakage of the fixtures. Thirty-three fixtures are broken at present. This is caused by persons trying to pull the shades down or take the globe from the fixtures. The globes are in lock sockets and cannot be taken unless the fixture is broken. "There is a great deal of theft of lights around the University," said Mr. Severance. "Last year all but the center lights were taken from the light stands in front of the Library and never returned."

Nominated to Head Seniors.

At a meeting last night of the seniors in the College of Agriculture, F. A. Dennis, Tiger baseball player, was nominated for the office of all-senior president on the Agriculture Engineering ticket.

SOCIETY NOTES

Miss Helen Hedrick, 304 Hicks avenue, will entertain sixteen girls at a 500 party from 3 to 5 o'clock Saturday afternoon. Saturday will be Miss Hedrick's fourteenth birthday. D. W. Chittenden, senior in the Col-

lege of Agriculture in the department of animal husbandry, went to Brookfield yesterday, where he will take the draft examination.

FARMERS' CO-OPERATIVE CLUBS

Interest in the Work Increases in the State.

Interest in co-operative activities of farmers' clubs is growing in South Missouri. An inspection of the records of material of club programs sent out to club secretaries shows that South Missouri counties are requiring more of this material in proportion to the number of clubs than North Missouri counties. Of the forty counties which stand the highest in request for material, thirty-five are in South Missouri. The first fifteen counties are: Henry, Laclede, Camden, Christian, Pulaski, Newton, Pike, Dent Reynolds, Webster, St. Clair, Jasper, St. Louis and McDonald.

Of the seventy-nine counties which have completed organization of farmers' clubs, forty-nine are in South Missouri, nine are in Central Missouri and twenty-one are in North Missouri. The counties which have the largest number of organizations are Johnson, 35, Gasconade 33, Barton, 32; Vernon, 31; Montgomery, 31; Lincoln, 29; Macon, 29; Nodaway, 29; Dent, 29; Miller 26, and DeKalb, 26.

Mexico Confiscates Much Property.

MEMPHIS, Oct. 11.—Properties the value of which will reach several million dollars, held in the names of private individuals have been taken over by the government on charges that in reality they belong to the Catholic Church and that the persons in whose names they stand are pretended owners. Under the new constitution all church property becomes property of the nation. The properties are located in the states of Puebla, Durango Michoacan and Jalisco.

Uses of Concrete Studied.

One of the new courses offered in the College of Agriculture this year is that in construction methods, under Prof. E. W. Lehmann of the agricultural engineering department. It is a two-hour lecture and laboratory course, dealing with concrete construction of silos, fence posts, engine foundations, water tanks, and numerous other structures on the farm.

Mrs. A. W. Taylor Recovering.

Mrs. Alva W. Taylor is recovering at her home on Hicks avenue from a major operation performed recently at the Lutheran Hospital in Des Moines. Mrs. Taylor hopes to be able to receive her friends next week.

Columbia Industrial School to Open.

The Columbia Industrial School will open at 2 o'clock Saturday afternoon at the Presbyterian Church.

WHY WE MUST HAVE THE HORSE

by Forrest Crissey

Several times we have almost said good-bye to the horse, but he is surviving the automobile, the tractor, the motor truck and the war. We need him now and for the future—this article tells why. Other subjects in this week's issue are:

Foods From the Freezer

An Agricultural Somersault

Perfect Pigs

No matter what other periodicals you may take at your office or your home this is the one of first importance to you. It is as staple as wheat. Invest a dollar and save a hundred or two. You can do it if you will profit by what you read in
